PROXY STATEMENT

This Proxy Statement provides information in connection with the solicitation of proxies by the Board of Directors (the Board) of Harman International Industries, Incorporated (the Company) for use at the Company's 2003 Annual Meeting of Stockholders or any postponement or adjournment thereof (the Meeting). This Proxy Statement also provides information you will need in order to consider and to act upon the matters specified in the accompanying Notice of Annual Meeting of Stockholders. This Proxy Statement and the enclosed proxy card are being mailed to stockholders on or about October 14, 2003.

Holders of record of the Company's common stock (Common Stock) as of the close of business on September 15, 2003 are entitled to vote at the Meeting. Each stockholder of record as of that date is entitled to one vote for each share of Common Stock held. On September 15, 2003, there were 32,724,977 shares of Common Stock outstanding.

You cannot vote your shares of Common Stock unless you are present at the Meeting or you have previously given your proxy. You may revoke your proxy at any time prior to the vote at the Meeting by:

delivering a written notice revoking your proxy to the Company's Vice President - Financial Operations at the address above;

delivering a new proxy bearing a date after the date of the proxy being revoked; or

voting in person at the Meeting.

All properly executed proxies, unless revoked as described above, will be voted at the Meeting in accordance with your directions on the proxy. With respect to the election of directors, if you vote by proxy you may vote for all nominees, withhold your vote for all nominees, or withhold your vote as to a specific nominee. If a properly executed proxy gives no specific instructions, the shares of Common Stock represented by your proxy will be voted:

FOR the election of each of the three nominees to serve as directors until the Company's 2006 Annual Meeting of Stockholders;

FOR the proposed two-for-one stock split and a related amendment to the Company's charter to increase the number of authorized shares of Common Stock; and

at the discretion of the proxy holders with regard to any other matter that is properly presented at the Meeting.

If you own shares of Common Stock held in street name, and you do not instruct your broker how to vote your shares using the instructions your broker provides you, your broker may choose not to vote your shares. To be sure your shares are voted in the manner you desire, you should instruct your broker how to vote your shares.

A majority of the outstanding shares of Common Stock must be present, in person or by proxy, to constitute a quorum at the Meeting. Abstentions and broker non-votes (which are

shares with respect to which the broker or nominee is not authorized to vote on a proposal) are included in determining whether a quorum is present. Directors will be elected by the vote of a plurality of the shares of Common Stock voted at the Meeting. A broker non-vote will have no effect on the outcome of the vote for the election of directors. Approval of the amendment to our charter requires the affirmative vote of a majority of our outstanding shares of Common Stock. Abstentions and broker non-votes will have the same effect as votes against this proposal.

The Company will pay the cost of preparing and mailing this Proxy Statement, the Notice of Annual Meeting of Stockholders and the enclosed proxy card. The Company has hired Mellon Investor Services to solicit proxies for the Meeting. The Company anticipates that the fees of Mellon Investor Services will be approximately \$9,000. The Company will pay all fees and expenses of Mellon Investor Services and will reimburse Mellon Investor Services for its out-of-pocket expenses. Additionally, employees of the Company may solicit proxies personally and by telephone. The Company's employees will receive no compensation for soliciting proxies other than their regular salaries. The Company may request banks, brokers and other custodians, nominees and fiduciaries to forward copies of these proxy materials to their principals and to request authority for the execution of proxies. The Company may reimburse such persons for their expense in so doing.

ELECTION OF DIRECTORS

(Item 1 on the Proxy Card)

At the Meeting, three directors will be elected to serve a three-year term expiring at the 2006 Annual Meeting of Stockholders. This section contains information relating to the three nominees for director and the directors whose terms of office extend beyond the Meeting. The nominees for election are Edward H. Meyer, Gregory P. Stapleton and Stanley A. Weiss, each of whom is currently a director. The Board expects that the nominees will be available for election at the time of the Meeting. If, for any reason, a nominee should become unavailable for election, the shares of Common Stock voted FOR that nominee by proxy will be voted for a substitute nominee designated by the Board, unless the Board reduces the number of directors.

The nominees for director will be elected by the affirmative vote of a plurality of the shares of Common Stock voted in person or by proxy at the Meeting.

The Board recommends a vote FOR election of each of the nominees.

Nominees to be Elected at the Meeting

She is a Senior Advisor to Benedetto, Gartland & Company, Inc., Chairman Emeritus of the Aspen Institute and a member of the Board of Overseers of the Wharton School of the University of Pennsylvania. Her current term as a director expires at the 2004 Annual Meeting of Stockholders.

APPROVAL OF THE STOCK SPLIT AND RELATED CHARTER AMENDMENT

(Item 2 on the Proxy Card)

Our Board has approved a two-for-one split of our Common Stock, subject to stockholder approval of the stock split and a related amendment to our charter to increase the number of shares of Common Stock authorized to be issued under our charter. To effect the stock split, we would amend our charter as described below.

To effect the stock split, the number of our authorized shares of Common Stock would be increased from 100 million to 200 million. The par value per share will not be changed. The charter amendment will permit us to implement the stock split without consuming a major portion of our current authorized but unissued Common Stock and treasury shares, which would result if we were to effect the stock split by declaring a stock dividend.

*The Board recommends a vote FOR approval of the
stock split and related charter amendment.*

If the stock split and related charter amendment are approved, we will file the charter amendment with the Delaware Secretary of State, after which the amendment will be effective. The stock split will be effective when the filing is effective. We will publicly announce the results of the stockholder vote with respect to the stock split proposal and the effective time of the stock split, if approved, as promptly as practicable after the Meeting.

Reasons for the Stock Split and the Increase in Authorized Shares

We expect that the stock split will increase the number of shares traded in the public market, which we believe should establish a more liquid market in the Common Stock. However, there necessarily can be no assurance of this.

As of September 15, 2003, 32,724,977 shares of Common Stock were issued and outstanding, 6,348,100 shares were held in treasury and 60,926,923 shares were authorized but unissued. No shares of Preferred Stock were issued or outstanding. Based on the number of shares of Common Stock outstanding as of September 15, 2003, we would have 65,449,954 shares of Common Stock outstanding if the proposed stock split is implemented. As a result, 134,550,046 shares of Common Stock would remain available for such purposes as the Board may approve, and no further vote of stockholders of the Company will be required for their issuance, except as required under applicable stock exchange rules.

The availability of additional shares for issuance, without the delay and expense of obtaining stockholder approval at a meeting, will maintain the Company's flexibility to issue Common Stock in substantially the same manner as it exists before the stock split. Other than the shares of Common Stock the Company has reserved for issuance under its existing stock incentive plan, the Company currently has no specific commitments or agreements to issue any shares of Common Stock pursuant to any stock offerings, acquisitions, stock dividends or compensation plans, although it is possible that any such transaction may be pursued in the future.

Effect of the Stock Split

The proposed stock split would not change the stockholders' equity of the Company, nor would the split affect the relative rights of any stockholder or result in a dilution or diminution of any stockholder's proportionate interest in the Company. However, since the stock split would result in each stockholder's interest being represented by a greater number of shares, it is

possible that higher aggregate brokerage commissions may be payable after the intended stock split upon a sale or transfer of a stockholder's same relative interest in Common Stock because that interest would be represented by a greater number of shares.

In connection with the stock split, the number of shares of Common Stock underlying outstanding stock options and reserved for issuance under the Company's existing stock incentive plan would be proportionately adjusted pursuant to the terms of such plans to reflect the stock split, and the per share exercise prices of outstanding options under such Company plans would be proportionately reduced. In addition, adjustments proportionate to the stock split will automatically result under the terms of the Rights Agreement as described under Potential Anti-Takeover Effect of Charter Amendment below.

The stock split will not result in the recognition of a taxable gain or loss to the stockholders for federal income tax purposes. In addition, the tax basis for shares in the hands of a stockholder prior to the stock split will become the tax basis for the total number of shares to be held by such stockholder immediately after the stock split, and the holding period of the newly acquired shares will be deemed to be the same as the holding period of the corresponding shares held prior to the stock split. However, each stockholder should consult his or her own tax advisor with respect to the particular tax consequences, if any, to him or her of the stock split, including the applicability and effect of any state, local or foreign tax laws.

Implementation of the Stock Split

We have notified the New York Stock Exchange of the proposed stock split and will submit an amended listing application to reflect it. The stock split will be effected by the filing of the charter amendment with the Delaware Secretary of State. We will publicly announce the results of the stockholder vote with respect to the stock split and the related charter amendment as promptly as practicable after the Meeting (or any adjournment). If approved by the stockholders, we presently intend to also publicly announce the effective date of the stock split promptly after the Meeting.

On the effective date, each issued share of Common Stock, including each treasury share, will become two shares. For simplicity, we will implement the stock split by mailing an additional certificate to each stockholder of record as of the close of business on the effective date. The additional certificate will represent the same number of shares as each existing certificate represents, and stockholders should retain their present certificates. **Stockholders need not return their existing certificates to the Company or its transfer agent, although they may do so through the transfer agent if they wish to combine their shares in a single certificate.**

Impact on the Company's Consolidated Financial Statements

The Company's reported amounts of authorized and issued Common Stock will also be adjusted on a two-for-one basis. The stock split will affect reported earnings per share amounts because of the increase in the number of shares of Common Stock outstanding.

Potential Anti-Takeover Effect of Charter Amendment

Authorized but unissued shares of Common Stock and treasury shares will continue to be available for future issuance without stockholder approval. This could render more difficult or discourage an attempt to obtain control of the Company by means of an unsolicited proxy contest, tender offer, merger or otherwise. For example, the existence of authorized but unissued shares permits the Board to issue such shares without stockholder approval that would dilute the

stock ownership of a person seeking to effect a change in the composition of the Board or contemplating a tender offer or other transaction for the combination of the Company with another company. At the present time, the Company is not aware of any contemplated tender offers or other plans by a third party to attempt to effect a change in control of the Company, and this proposal is not being made in response to any such attempt. The Company's charter and by-laws, as well as Delaware law, provide additional anti-takeover protections for the Company that are described in certain of the Company's filings with the Securities and Exchange Commission and that are unaffected by the charter amendment.

The Company's charter authorizes the issuance of 5.0 million shares of Preferred Stock, of which 4.5 million shares remain undesignated. The Company's charter provides that the Board has authority to issue shares of Preferred Stock in one or more series and to fix from time to time before issuance the number of shares to be included in any series and the designation, relative powers, preferences and rights and qualifications, limitations or restrictions of all shares of such series. Holders of Preferred Stock, if any, may be entitled to certain preferences upon liquidation, dissolution or winding up of the affairs of the Company. The issuance of Preferred Stock with voting rights and conversion rights could adversely affect the voting power of holders of Common Stock and could deter a future takeover which a majority of stockholders might view to be in their best interests.

In 1999, the Board designated 500,000 preferred shares as Series A Preferred Stock and declared a dividend distribution of one right to purchase 1/100 of a share of Series A Preferred Stock for each outstanding share of Common Stock. The rights are in all respects subject to and governed by the provisions of the Company's Rights Agreement. Under the Rights Agreement, the stock split will also result in a proportionate split of the rights attached to the Company's shares of Common Stock, and accordingly each post-split share of Common Stock will have attached to it one-half of the number of rights attached to a currently outstanding share of Common Stock prior to the split. The existence of outstanding rights could have an anti-takeover effect and delay, defer or prevent a tender offer or takeover event. The Company expects to take such actions as are required or advisable under the Rights Agreement to facilitate the administration of the Rights Agreement and to make proportionate adjustments as would be required by the authorization of the additional shares of Common Stock and the stock split contemplated by the charter amendment.

While it may be deemed to have potential anti-takeover effects, the proposed stock split and charter amendment are not prompted by any specific effort or takeover threat currently perceived by the Board.

Reservation of Rights

The Company retains the authority to take or to authorize discretionary actions as may be appropriate to carry out the purposes and intentions of this proposal, including without limitation editorial modifications or any other change to the charter amendment which the Board may adopt without stockholder vote in accordance with the Delaware law. The Board also reserves the right, even if the proposed charter amendment is approved, not to effect the stock split if it determines in its sole discretion that implementing the stock split is no longer in the best interests of the Company. In such case, the Company would not file the charter amendment and, as a result, the increase in the number of authorized shares of Common Stock would not occur.

THE BOARD, ITS COMMITTEES AND ITS COMPENSATION

The Board of Directors

The Board currently consists of seven directors. Four of the directors are independent directors and three directors are members of the Company's senior management. Each of the Company's non-management directors meets the qualifications for independence under the listing standards of the New York Stock Exchange.

Corporate Governance

The Board and senior management believe that one of their primary responsibilities is to promote a culture of ethical behavior throughout the Company by setting examples and by displaying a sustained commitment to instilling and maintaining deeply ingrained principles of honesty and decency. Consistent with these principles, the Company has taken steps during fiscal year 2003 to implement various corporate governance initiatives mandated by the Sarbanes-Oxley Act of 2002 and the proposed changes to the New York Stock Exchange's listing standards. In fiscal year 2003, the Company:

adopted Corporate Governance Guidelines that describe, in general terms, the principles under which the Board operates;

adopted a Code of Ethics for Executive and Financial Officers and Directors and a Code of Business Conduct applicable to all employees;

adopted an amended Audit Committee Charter;

adopted a Compensation and Option Committee Charter; and

established the Nominating and Governance Committee and adopted a Nominating and Governance Committee Charter.

The corporate governance guidelines, ethics codes and committee charters are available on the Company's website (www.harman.com) in the Corporate Governance section of the Investor Relations page. Copies of these documents are also available upon written request to the Company's Secretary. The Company will post information regarding any amendment to, or waiver from, its Code of Ethics for Executive and Financial Officers and Directors on its website under the Corporate Governance section of the Investor Information page.

Many of the provisions of the Sarbanes-Oxley Act are being phased in over time and the amendments to the New York Stock Exchange listing standards have not been finalized. The Board will periodically review its corporate governance policies and practices. Based on these reviews, the Board expects to adopt changes to policies and practices that are in the best interests of the Company and as appropriate to comply with the Sarbanes-Oxley Act and any new requirements of the Securities and Exchange Commission or the New York Stock Exchange.

Board Committees

The Board has an Audit Committee, a Compensation and Option Committee and a Nominating and Governance Committee. It is the Board's policy that all of the members of these committees should be independent directors.

Audit Committee. The Audit Committee consists of Ms. Hufstедler (Chairwoman), Ms. Korologos, Mr. Meyer and Mr. Weiss. Each of the members of the Audit Committee meets the independence and financial literacy qualifications under the current New York Stock Exchange listing standards. During fiscal year 2003, the Audit

Committee held four meetings.

The Audit Committee assists the Board in its oversight of the Company's financial reporting, focusing on assuring the integrity of the Company's financial statements, the Company's compliance with legal and regulatory requirements, the qualifications and independence of the Company's auditors and the performance of the Company's internal audit function and auditors. The Audit Committee's primary responsibilities include:

acting as the direct contact with the Company's independent auditors, who are ultimately accountable to the Audit Committee and the Board;

appointing the independent auditors, setting the terms of engagement and compensation for the independent auditors and overseeing the work of the independent auditors;

pre-approving all audit and non-audit services provided to the Company by the independent auditors (except for items exempt from pre-approval requirements under applicable laws and rules); and

acting in respect of all other matters as to which Audit Committee action is required by law or New York Stock Exchange listing standards.

The Audit Committee's responsibilities and key practices are more fully described in its written charter. A report of the Audit Committee appears later in this Proxy Statement.

Compensation and Option Committee. The Compensation and Option Committee, consisting of Ms. Hufstedler (Chairwoman) and Mr. Weiss, held two meetings during fiscal year 2003. The Compensation and Option Committee assists the Board in overseeing executive compensation and administers the Company's executive bonus, option and incentive, deferred compensation and retirement plans. The Compensation and Option Committee's primary responsibilities include:

evaluating the performance of and establishing compensation for the Company's Executive Chairman and Chief Executive Officer;

establishing compensation levels for the Company's directors and executive officers and reviewing executive compensation matters generally; and

approving awards of options, restricted stock and other equity rights to executive officers.

The Compensation and Option Committee's responsibilities and key practices are discussed more fully in its charter. A report of the Compensation and Option Committee appears later in this Proxy Statement.

Nominating and Governance Committee. The Nominating and Governance Committee, consisting of Ms. Korologos (Chairwoman), Ms. Hufstedler, Mr. Meyer and Mr. Weiss, was established in June 2003, and held one meeting in fiscal year 2003. The Nominating and Governance Committee assists the Board in carrying out its oversight responsibilities relating to the composition of the Board and certain corporate governance matters. The Nominating and Governance Committee's primary responsibilities include considering and making recommendations to the Board with respect to:

nominees for election to the Board and its committees;

committee functions;

the Company's corporate governance policies and codes of conduct; and

the performance of the Board and its committees generally.

The Nominating and Governance Committee's responsibilities and key practices are more fully described in its charter.

The Nominating and Governance Committee will consider nominees recommended by stockholders, but has no established procedures which stockholders must follow to make a recommendation. The Company's By-Laws also provide for stockholder nominations of candidates for election as directors. These provisions require such nominations to be made pursuant to timely notice (as specified in the By-Laws) in writing to the Secretary of the Company.

Director Compensation

Cash Compensation. Non-management directors receive an annual fee of \$40,000, plus \$1,500 for each committee meeting attended on a day other than the day of a Board meeting. The Company does not pay fees to directors who are officers of the Company or its subsidiaries. The Company reimburses all directors for expenses incurred in attending Board and committee meetings.

Equity-Based Compensation. The Stock Option and Incentive Plan provides that each non-management director who served during the prior fiscal year and continues to serve on the Board will receive after each Annual Meeting of Stockholders an option to purchase 3,000 shares of Common Stock. Each non-management director is also eligible for an additional option to purchase 750 shares of Common Stock if the Company achieves a return on consolidated equity for the prior fiscal year of at least 9% but less than 13%, or an additional option to purchase 1,500 shares of Common Stock if the Company achieves a return on consolidated equity of 13% or more. The exercise price of the options is the fair market value of the shares of Common Stock on the date of the grant. Each option vests at a rate of 20% per year and expires 10 years after the date of grant. For services rendered in fiscal year 2003, each non-management director received an option to purchase 3,000 shares of Common Stock under the Stock Option and Incentive Plan and will receive an option to purchase 1,500 shares of Common Stock as a result of the Company achieving the required return on consolidated equity outlined above.

Board Meetings

The Board held five meetings during fiscal year 2003. Each director attended at least 75% of the Board meetings and at least 75% of the meetings of committees on which he or she served in fiscal year 2003.

In connection with the adoption of its Corporate Governance Guidelines, the Board established a policy pursuant to which the non-management directors meet in executive session without members of the Company's management present, in connection with each regularly scheduled meeting of the full Board. These executive sessions are chaired by the non-management directors on a rotating basis. Stockholders and other interested parties may communicate with the non-management directors directly by mail addressed to: Non-Management Directors, c/o Secretary, Harman International Industries, Incorporated, 8500 Balboa Boulevard, Northridge, California 91329. If you want the communication to be kept confidential, please mark the envelope accordingly.

REPORT OF THE COMPENSATION AND OPTION COMMITTEE

Compensation and Option Committee

The Compensation and Option Committee implements the Company's executive compensation program pursuant to authority delegated by the Board. As part of its responsibilities, the Committee establishes the compensation of the Company's executive officers and administers the Company's incentive plans and certain other benefit programs for executive officers. The members of the Committee are Ms. Hufstedler and Mr. Weiss, neither of whom is an officer or employee of the Company.

Executive Compensation Program

The Company's long-term success is dependent in part on attracting and retaining people who have demonstrated superior skill and experience. The Company's compensation programs are designed to incentivize these individuals by rewarding outstanding performance. The key elements of the Company's executive compensation program are:

base salaries determined in light of competitive pay analysis and the executive's performance during the prior fiscal year;

cash bonus awards tied to either targeted returns on shareholder equity or to Company and individual performance during the prior fiscal year; and

grants of stock options and other equity awards to align the interests of management with those of the stockholders.

Salary. Base salaries are established in light of historical practice, competitive pay data and performance reviews. The Company's competitive pay structure is built by reference to market data. Company and individual performance is reviewed at the end of each fiscal year.

In September 2002, the Committee reviewed the Company's results of operations for fiscal year 2002 and competitive pay practices data. Some of the data were obtained from surveys furnished by outside compensation consulting firms of practices among companies in the electrical and electronics industries and companies similar in size to the Company. The survey group differs from the comparison group used in the Company's stock performance graph, appearing later in this Proxy Statement under the caption "Stock Price Performance Graph," because the Committee believes that the survey group offers more reliable information on compensation practices and better represents competitors for executive officer candidates. Consistent with the Company's past practice, the Committee sought to establish base salaries for fiscal year 2003 at the 50th-75th percentile of base salaries for the survey group of companies.

Bonus. The Company maintains a key executive bonus plan that provides incentive compensation, in the form of cash bonuses, to certain executive officers, including Dr. Harman and Mr. Girod, the Company's Executive Chairman and Chief Executive Officer, respectively. This plan is administered by the Compensation and Option Committee. Under this plan, the Committee meets no later than September 28 of each fiscal year and establishes a return on shareholder equity goal for the fiscal year and the maximum cash award payable to each plan participant if that goal is met. After the end of each fiscal year, the Committee meets to determine whether the return on shareholder equity goal for the fiscal year was met. If the goal was met, the Committee may establish a cash award to be paid to each plan participant, exercising the Committee's discretion as permitted under this plan. Cash bonus awards under this plan are intended to constitute performance-based compensation for tax purposes.

Equity Based Compensation. The Company's stock option program is designed to align the interests of the Company's executive officers and key employees with those of the stockholders. The Executive Chairman makes recommendations to the Committee based upon an assessment of each executive officer's and key employee's performance and a need for further long-term performance incentives. Participants may also receive options, stock appreciation rights, restricted shares or performance units under the 2002 Stock Option and Incentive Plan. The Committee believes that equity-based incentives for key executive officers and key employees are in the best interests of the Company.

Fiscal Year 2003 Compensation for the Executive Chairman and the Chief Executive Officer

Salary. During fiscal year 2003, Dr. Harman was paid a base salary of \$950,000 and Mr. Girod was paid a base salary of \$900,000. - (2) Based on the Black-Scholes option price model, which requires assumptions to be made about the future changes in the price of the Company's Common Stock. The Company used the following assumptions to estimate the Grant Date Present Value: (a) an estimated dividend yield of \$0.10 per share; (b) an estimated risk-free interest rate of 3.0%; (c) an estimated volatility of 60%; and (d) an option term of 5.4 years representing the estimated period from time of vesting until exercise of the options. There is no assurance that the actual value realized by an executive officer will equal the amount estimated based upon the Black-Scholes option pricing model.

Deferred Compensation Plan

The Company's Deferred Compensation Plan provides supplemental retirement benefits for executive officers designated by the Deferred Compensation Plan's administrative committee. The Compensation and Option Committee administers the Deferred Compensation Plan. Prior to the beginning of each fiscal year, each plan participant may elect to defer up to 100% of his or her annual base salary and bonus on a pre-tax basis to a deferral account. These amounts are always fully vested, subject to a 10% penalty on any unscheduled withdrawals. The Company may decide to make contributions on a pre-tax basis to a plan participant's account, subject to a vesting schedule. In the event of a change in control of the Company, any unvested amounts vest immediately and the Company indemnifies the plan participant for any expense incurred in enforcing his or her rights under the Deferred Compensation Plan.

Plan participants specify that portion of their accounts to be deemed invested in designated benchmark funds. The Company credits earnings to the accounts based on the rate of return of the designated funds. Upon retirement or termination of employment other than due to death, plan participants may receive their account balances in the form of a lump-sum payment or in annual installments. In the event of death prior to the commencement of benefits or during payment of installments, the balances in a plan participant's vested accounts as of the date of death are payable to the plan participant's beneficiaries.

Supplemental Executive Retirement Plan

The Company's Supplemental Executive Retirement Plan (Supplemental Plan) provides supplemental retirement, termination and death benefits to key executive officers designated by the Board. The Compensation and Option Committee administers the Supplemental Plan. Dr. Harman and Messrs. Girod, Stapleton and Meredith have been designated as Supplemental Plan participants. As of August 1, 2003, Dr. Geiger was not designated as a participant in the Supplemental Plan. Dr. Harman has 23 years, Mr. Girod 16 years, Mr. Stapleton 15 years and Mr. Meredith 18 years of service credited under the Supplemental Plan. All Supplemental Plan benefits are subject to deductions for Social Security and federal, state and local taxes.

Retirement Benefit. Retirement benefits are based on the average of the participant's highest cash compensation (base salary and bonus) during any five consecutive years of employment by the Company (Average Cash Compensation). Participants retiring at age 65 or older receive an annual retirement benefit equal to either (a) 3 1/3% of Average Cash Compensation per year of service up to a maximum of 50%, or (b) 2% of Average Cash Compensation per year of service up to a maximum of 30%, as designated by the Company. Each of the named executive officers, other than Dr. Geiger, has been designated as a participant entitled to receive an annual retirement benefit of up to 50% of Average Cash Compensation. If a participant's employment is terminated for any reason other than death within three years after a change in control of the Company, the participant vests with the maximum designated retirement benefit regardless of age or years of service and the Company indemnifies the participant for any expense incurred in enforcing the participant's rights in the retirement benefit under the Supplemental Plan. Unless another form of payment is approved by the administrative committee for the Supplemental Plan, benefits are payable monthly in the form of a life annuity. If the participant dies after benefits have commenced but prior to receiving 10 years of benefits, they are paid to the participant's beneficiary for the remainder of that period.

The following table sets forth the annual maximum retirement benefits that would be received under the Supplemental Plan at the specified Average Cash Compensation levels after the specified years of service:

Remuneration	Years of Service				
	3	6	9	12	15
750,000	75,000	150,000	225,000	300,000	375,000
1,000,000	100,000	200,000	300,000	400,000	500,000

2,500,000	250,000	500,000	750,000	1,000,000	1,250,000

Termination Benefit. A participant who retires or whose employment is terminated prior to age 65 with at least 15 years of service, and who is not otherwise entitled to benefits under the Supplemental Plan, is entitled to an annual termination benefit equal to either (a) 30% of Average Cash Compensation, increased by 4% for each year of service over 15 years, up to a maximum of 50%, or (b) 15% of Average Cash Compensation, increased by 3% for each year of service over 15 years, up to a maximum of 30%, as designated by the Company. Each of the named executive officers, other than Dr. Geiger, has been designated as a participant entitled to receive an annual termination benefit of up to 50% of Average Cash Compensation. The termination benefit commences upon the later of termination of the participant's employment, other than due to death, or the participant reaching age 55. Termination benefits are payable in the same manner as retirement benefits.

In June 2000, the Compensation and Option Committee modified the termination benefits for Messrs. Girod and Stapleton. Effective September 24, 1999, Mr. Girod vested in an annual termination benefit equal to 26% of Average Cash Compensation, increased by 2% per year for the following two years of service and by 4% per year of service thereafter, up to a maximum of 50%. Mr. Stapleton vested in an annual termination benefit equal to 24% of Average Cash Compensation, increased by 2% per year for the following three years of service and by 4% per year of service thereafter, up to a maximum of 50%.

The following table sets forth the annual maximum termination benefits that would be received under the Supplemental Plan at the specified Average Cash Compensation levels after the specified years of service:

Remuneration	Years of Service					
	15	16	17	18	19	20

Death Benefit. A pre-retirement death benefit equal to two or three times the highest annual cash compensation achieved by a participant during his or her employment with the Company is paid to the beneficiaries of a participant who dies prior to the commencement of benefits under the Supplemental Plan. Each of the named executive officers, other than Dr. Geiger, has been designated as a participant entitled to receive a death benefit equal to three times his highest annual cash compensation. The benefit is paid to the participant's designated beneficiary in a single lump sum or, at the request of the beneficiary and with the consent of the administrative committee, the benefit may be paid in another form providing the actuarial equivalent of the lump-sum payment. Any death benefit payable to Dr. Harman's designated beneficiary will be paid in five equal annual installments, providing the actuarial equivalent of the lump-sum payment otherwise due.

Severance and Employment Agreements

The Company has entered into severance agreements with each of Dr. Harman and Messrs. Girod, Stapleton and Meredith. The severance agreements provide that if, within the two years following a change in control of the Company, the executive officer is terminated without cause or under certain circumstances terminates his own employment, he is entitled to receive a severance payment equal to three times the sum of his highest annual base salary during any period prior to his termination and his highest incentive pay during the three fiscal years preceding the change in control. The severance agreements also provide that the Company will pay the executive officer an additional amount for excise taxes, subject to a limitation based on the overall cost of the severance agreements, including any additional payment for excise taxes. Unless the executive officer or the Company notifies the other by September 30 that it does not wish the agreement to be extended, each severance agreement is automatically extended on the following January 1 for an additional year.

Dr. Geiger serves as Chief Technology Officer pursuant to an employment agreement with the Company. Under the terms of his employment agreement, Dr. Geiger will receive an annual base salary of not less than \$812,000 in fiscal year 2004, and is eligible to receive an annual bonus of up to 45% of his base salary based on certain performance parameters established annually by the Company. Dr. Geiger is also entitled to certain retirement and insurance benefits and participates in some of the Company's benefit plans and programs. The initial term of the employment agreement expires in August 2005.

These shares of Common Stock were valued at \$77.65 per share, the closing price of the shares of Common Stock on the New York Stock Exchange on June 18, 2003. The Audit Committee is currently composed of four directors who are neither officers nor employees of the Company. All members of the Committee are independent as that term is defined by the New York Stock Exchange's current listing standards. The Committee operates under a written charter approved by the Board.

In connection with its review of the audited financial statements appearing in the Company's Annual Report on Form 10-K for fiscal year 2003, the Committee:

discussed these financial statements with the Company's management and KPMG LLP, the Company's independent auditors;

discussed with KPMG LLP those matters required to be discussed under SAS No. 61 (Codification of Statements and Auditing Standards, AU § 380) and SAS No. 90 (Communication with Committees);

received and reviewed the written disclosures and the letter from KPMG LLP required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and has discussed with KPMG LLP their independence; and

considered whether the provision of non-audit services by KPMG LLP referred to under "All Other Fees" discussed above is compatible with KPMG LLP maintaining its independence with respect to the Company.

Based on the review and discussions referred to above, the Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for fiscal year 2003, filed with the Commission.

The Committee has selected and engaged KPMG LLP as the Company's independent auditor to audit and report to the Company's stockholders on the Company's financial statements for fiscal year 2004.

STOCK PRICE PERFORMANCE GRAPH

The following graph compares changes in cumulative total returns (assuming reinvestment of cash dividends) on shares of the Common Stock against the S&P Composite-500 Stock Index and a peer company index (based on the Company's Standard Industrial Code) for the five-year period ending June 30, 2003. In each case, this stock price performance graph assumes an initial investment of \$100 at the market close on June 30, 1998. Dates on the following chart represent the last trading day of the indicated fiscal year. The stock price performance shown on the graph below is not necessarily indicative of future performance of the shares of Common Stock.

The peer company index was derived using the following peer companies: Boston Acoustics, Inc., Carver Corp. (through March 2000 only), Emerson Radio, Koss Corp., Pioneer Corporation (ADRs), Polk Andro Inc. (through May 1999 only), Sensory Science Corporation (through July 2001 only), Sony Corp. (American shares) and Zenith Electronics Corp (through December 1999 only).
