**Report of Independent Registered Public Accounting Firm**

To the Participants and Administrator

Ennis, Inc. 401(k) Plan

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the Ennis, Inc. 401(k) Plan (the Plan) as of December 31, 2006 and 2005, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2006. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2, the financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits (modified cash basis) of the Ennis, Inc. 401(k) Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2006, in conformity with the modified cash basis of accounting described in Note 2.

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) (modified cash basis) as of December 31, 2006, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the 2006 financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2006 financial statements taken as a whole.

As discussed in Note 2 to the financial statements, in 2006 the Plan adopted FSP AAG INV-1 and SOP 94-1-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans.*

ENNIS, INC. 401(k) PLAN  
Notes to Financial Statements  
(Modified Cash Basis)

**1. Description of the Plan**

The following description of the Ennis, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

**(a) General**

The Plan was formed February 1, 1994, and is a defined contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (ERISA) and the Internal Revenue Code (IRC). In addition, the financial statements have been prepared in compliance with ERISA.

**(b) Eligibility**

Employees age 18 and older of the Company are eligible to participate in the Plan after completing 60 days of service, as defined by the Plan.

**(c) Contributions**

Participants may make voluntary contributions to the Plan ranging from 1% to 100% of eligible pay subject to the Internal Revenue Service (IRS) annual limitations. The Plan allows rollovers of distributions from other qualified plans. The Plan provides for up to 50% employer matching contributions, not to exceed \$1,500 or 3% of the employee's salary, or discretionary employer contributions for certain employees not enrolled in the Pension Plan for employees of the Company. Eligibility for employer contributions depends on the participant's employment location.

As of January 1, 2006, the Plan was amended in order to automatically enroll all new participants into the Plan at a 2% deferral rate.

During 2006, the Company declared a profit sharing contribution of \$370,281 on behalf of the former employees of Northstar Computer Forms, Inc. in accordance with its original plan. The Northstar Computer Forms, Inc. 401(k) Profit Sharing Plan was merged into the Plan on February 1, 2001.

**(d) Participant Accounts**

Each participant's account is credited with the participant's contribution, any employer contributions, and the allocation of the Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's interest in his or her account.

**(e) Vesting**

Participants are immediately vested in their contributions plus actual earnings thereon. Qualified employer-matching and profit sharing contributions vest over a period ranging from zero to seven years.

**Table of Contents**

ENNIS, INC. 401(k) PLAN  
Notes to Financial Statements (continued)  
(Modified Cash Basis)

**1. Description of the Plan Continued**

**(f) Loans**

Under provisions of the Plan, participants may borrow up to 50% of their total vested account balance up to a maximum of \$50,000. Loan repayments are made in equal installments through payroll deductions generally over a term not to exceed five years. All loans are considered a directed investment from the participant's Plan account with all payments of principal and interest credited to the participant's account. A maximum number of two outstanding loans are allowed per individual. The minimum loan is \$1,000 and there is a \$75 set-up fee payable for each loan. The interest rate is determined based on the prime rate as determined by the Plan's trustee plus 2%.

**2. Summary of Significant Accounting Policies**

**(a) Basis of Accounting**

The accompanying financial statements have been prepared on the modified cash basis of accounting and present the net assets available for benefits and changes in those net assets. Consequently, certain additions and the related assets are recognized when received rather than when earned and certain deductions are recognized when paid rather than when the obligation is incurred. Investments are adjusted to fair value for presentation in the accompanying financial statements. Purchases and sales are recorded on a trade-date basis. The modified cash basis of accounting is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

**(b) New Accounting Pronouncements**

In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP). The FSP defines the circumstances in which an investment contract is considered fully benefit responsive and provides certain reporting and disclosure requirements for fully benefit responsive investment contracts in defined contribution health and welfare and pension plans. The financial statement presentation and disclosure provisions of the FSP are effective for financial statements issued for annual periods ending after December 15, 2006 and are required to be applied retroactively to all prior periods presented for comparative purposes. The Plan has adopted the provisions of the FSP at December 31, 2006.

As required by the FSP, investments in the accompanying Statements of Net Assets Available for Benefits include fully benefit responsive investment contracts recognized at fair value. The FSP requires fully benefit responsive investment contracts to be reported at fair value in the Plan's Statements of Net Assets Available for Benefits with a corresponding adjustment to reflect these investments at contract value. The requirements of the FSP have been applied retroactively to the Statement of Net Assets Available for Benefits as of December 31, 2005, presented for comparative purposes. Adoption of the FSP had no effect on the Statement of Changes in Net Assets Available for Benefits for any period presented.

**Table of Contents**

ENNIS, INC. 401(k) PLAN  
Notes to Financial Statements (continued)  
(Modified Cash Basis)

**2. Summary of Significant Accounting Policies Continued**

***(c) Use of Estimates***

The preparation of financial statements in conformity with the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

***(d) Investments Valuation and Income Recognition***

The Plan provides for investments in a guaranteed investment contract (GIC) and pooled-separate accounts. As discussed in Note 2 above, in 2006, the Plan adopted the FSP. Generally, contract value of the ING Fixed Account is equal to participant deposits minus participant withdrawals plus credited interest. Interest credited is net of expenses. Contract value may be subject to adjustments in connection with contractholder directed withdrawals that are subject to a market value adjustment. Under limited circumstances (certain in-service participant withdrawals) contract value may be adjusted as a result of a market value adjustment. The fair value of the ING Fixed Account is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Investments in pooled separate accounts are reported to the Plan by ING Life Insurance and Annuity Company (ILIAC), which represents fair value. The pooled separate accounts include a company stock fund which is invested in Ennis, Inc. common stock and is valued by ILIAC based on the quoted market price on the last business day of the year.

Loans to participants are valued at their outstanding balances, which approximate fair value.

***(e) Benefits paid to Participants***

Benefits paid to participants are recorded as a reduction of net assets available for benefits when paid. For all employees who have terminated with an account balance between \$1,000 and \$5,000, the Plan Administrator has the right to automatically rollover the balance to an individual retirement plan designated by the Administrator, at the expense of the Plan.

**Table of Contents**

ENNIS, INC. 401(k) PLAN  
Notes to Financial Statements (continued)  
(Modified Cash Basis)

**3. Investments**

Participants may direct the allocation of amounts deferred to the available investment funds. Provisions of the Plan allow participant contributions in 5% increments to be vested in any of the available funds.

The Plan's investments, at fair value, at December 31, 2006 and 2005 were comprised of the following:

	2006		2005
Employer Stock Fund	\$ 2,467,757*	Employer Stock Fund	\$ 2,222,172*

ENNIS, INC. 401(k) PLAN  
Notes to Financial Statements (continued)  
(Modified Cash Basis)

**4. Investments in Insurance Contracts**

As of December 31, 2006, the Plan maintained one GIC related investment option, the ING Fixed Account. The contract underlying this investment option is considered to be fully benefit responsive in accordance with the FSP. As of December 31, 2006 and 2005, the contract value of the investment in the ING Fixed Account is \$7,538,958 and \$7,161,189, respectively.

The average yields for the contract for the years ended December 31, 2006 and 2005, were 3.65% and 3.40%, respectively. The crediting interest rates for the contract as of December 31, 2006 and 2005, were 3.65% and 3.40%, respectively. The minimum crediting interest rates for the contract for the years ended December 31, 2006 and 2005, were 3.30% and 3.10%, respectively. The custodian guarantees the credited rate will never fall below the lifetime guaranteed minimum of 3.00%.

ILIAC's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contractholder.

The underlying contract has no restrictions on the use of Plan assets and there are no valuation reserves recorded to adjust contract amounts.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Fixed Account does not permit ILIAC to terminate the agreement prior to the scheduled maturity date.

**5. Plan Termination**

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

**6. Tax Status of Plan**

The Plan has obtained its latest determination letter dated September 27, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Amendments have subsequently been made to the Plan; however, the Plan's administrator and management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**Table of Contents**

ENNIS, INC. 401(k) PLAN  
Notes to Financial Statements (continued)  
(Modified Cash Basis)

**7. Plan Merger**

On January 1, 2006, the Alstyle Apparel Employee Profit Sharing Plan was merged into the Plan. From that point forward, the changes in net assets are included in the Plan's statement of changes in net assets available for benefits. There was \$205,466 transferred into the Plan.

**8. Subsequent Event**

Effective April 23, 2007, the Block Graphics, Inc. 401(k) Plan adopted the Plan and all of its investments were transferred to the Plan. The Company anticipates all the investments of the Specialized Printed Forms 401(k) Plan will be transferred to the Plan effective June 30, 2007.
