**Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

On February 22, 2008, the Compensation and Option Committee of Harman International Industries, Incorporated ( Company ) approved stock option grants under the Company s 2002 Stock Incentive Plan ( Plan ) to certain of the Company s officers and key employees. Other than Dr. Erich Geiger, none of the Company s named executive officers received stock options. The stock option grants were made on terms that are different than the terms of previous stock option grants by the Company. The new terms establish three-year cliff vesting with performance restrictions on how many stock options vest at the end of the three-year period. Historically, the Company s stock option grants contained time-vesting provisions with annual vesting at a rate of 20% commencing on the first anniversary of the date of grant.

To determine the number of stock options that will vest, the Company s total shareholder return ( Company TSR ) will be compared to the total shareholder return of a peer group ( Peer TSR ) over a three-year period beginning on the date of grant (the Performance Period ). The stock options will be cancelled if the Company TSR over the Performance Period is negative, or if the Company TSR is below the 50th percentile of the Peer TSR. If the Company TSR ranks at the 50th percentile of the Peer TSR, 33% of the stock options will vest. If the Company TSR ranks at or above the 75th percentile of the Peer TSR, 100% of the stock options will vest. If the Company TSR ranks between the 50th percentile and the 75th percentile of the Peer TSR, the number of stock options that vest will be determined by straight-line interpolation between 33% and 100%.
