The additional time required is a direct result of the additional requirements imposed on public companies in complying with the Sarbanes-Oxley Act of 2002. Majesco expects to file its Form 10-K for the year ended October 31, 2005 no later than the fifteenth calendar day following the prescribed due date, as permitted by Rule 12b-25.

PRELIMINARY RESULTS

Majesco Entertainment Company's (the Company) financial statements for the year ended October 31, 2005 will change significantly from the comparable periods for 2004.

For the year ended October 31, 2005, the Company expects to report net revenues of \$59.7 million, as compared to \$121.0 million in fiscal 2004. The decrease is reflective of weak sales across all our product lines as compared to the strong sales associated with the introduction of our GBA Video product in the prior year. The decrease is also attributable to increased provisions for price protection and other allowances in the comparable period, as well as changes in market conditions.

Operating loss for the year was \$70.2 million versus an operating income of \$12.1 million in the comparable 2004 time period. Due to general weakness in the sector, rising costs of developing and marketing next gen games and weak sales of our premium titles, the Company revised its product strategy, and decided to sell-off or cancel many of its premium console titles in development. As a result, included in the operating loss are significant additional provisions in excess of \$26.3 million for: impairments of capitalized software development costs related to projects that were sold or intended to be sold at a loss; discontinued development; and games which are expected to be published but not expected to recover related developments costs and pre-paid license fees.

Notwithstanding the foregoing, because Majesco's year-end financial statement audit is not complete, there can be no assurance that the financial information publicly announced at a later date will not change upon completion of the audit.
