ISCO INTERNATIONAL, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

Note 1 Basis of Presentation

The condensed consolidated financial statements include the accounts of ISCO International, Inc. and its wholly-owned subsidiaries, Spectral Solutions, Inc. and Illinois Superconductor Canada Corporation (collectively referred to as the Company). All significant intercompany balances and transactions have been eliminated in consolidation.

The accompanying interim unaudited condensed consolidated financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America (US GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of results for the interim periods have been included. These interim financial statements and notes included herein should be read in conjunction with the Company's audited financial statements and notes therein for the year ended December 31, 2000 included in the Company's Annual Report on Form 10-K/A filed with the Securities and Exchange Commission (the SEC). The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for any subsequent quarter or for the entire year ending December 31, 2001. For further information, refer to the financial statements, including the notes thereto, included in the Company's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2000.

Recent Accounting Pronouncements

On July 20, 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 141 (SFAS No. 141), Business Combinations, and Statement of Financial Accounting Standards No. 142 (SFAS No. 142), Goodwill and Intangible Assets. SFAS No. 141 is effective for all business combinations completed after June 30, 2001. SFAS No. 142 is effective for fiscal years beginning after December 15, 2001; however, certain provisions of such Statement apply to goodwill and other intangible assets acquired between July 1, 2001, and the effective date of SFAS No. 142. Major provisions of these Statements and their effective dates for the Company are as follows:

1. All business combinations initiated after June 30, 2001 must use the purchase method of accounting. The pooling of interest method of accounting is prohibited except for transactions initiated before July 1, 2001.
2. Intangible assets acquired in a business combination must be recorded separately from goodwill if they arise from contractual or other legal rights or are separable from the acquired entity and can be sold, transferred, licensed, rented, or exchanged, either individually or as part of a related contract, asset, or liability.
3. Goodwill, as well as intangible assets with indefinite lives, acquired after June 30, 2001, will not be amortized. Effective January 1, 2002, all previously recognized goodwill and intangible assets with indefinite lives will no longer be subject to amortization.
4. Effective January 1, 2002, goodwill and intangible assets with indefinite lives will be tested for impairment annually and whenever there is an impairment indicator.
5. All acquired goodwill must be assigned to reporting units for purposes of impairment testing and segment reporting.

Goodwill (using current exchange rates) is currently being amortized at approximately \$2.0 million annually and is projected to have a net carrying value of approximately \$13.1 million at the date of adoption of this standard. The Company is currently evaluating the provisions of SFAS No. 142 and has not yet determined the effect that adoption of this standard will have on its financial statements.

Note 2 Net Loss Per Share

The Company follows SFAS No. 128, Earnings Per Share, which requires a dual presentation of basic and diluted earnings per share on the face of the statements of operations. Basic and diluted net loss per share is computed based on the weighted average number of common shares outstanding. Common shares issuable upon the exercise of options and warrants are not included in the per share calculations since the effect of their inclusion would be antidilutive.

Note 3 Inventories

Inventories consisted of the following:

	<u>June 30, 2001</u>	<u>December 31, 2000</u>
Raw materials	\$ 1,817,000	\$ 1,267,000
Work in process	30,000397,000	
Finished product	310,000264,000	
	<u>\$2,157,000</u>	<u>\$1,928,000</u>

Inventories are stated net of reserves of \$615,000 at June 30, 2001 and December 31, 2000, respectively.

Note 4 Short-Term Debt

On February 23, 2001 and April 3, 2001, the Company borrowed \$2 million and \$1.5 million, respectively, in the form of short-term notes from Elliott Associates, L.P., an entity that, as of the date of this report, owns more than 10% of the Company's outstanding common stock. The loans were designed to meet the Company's operating needs until the receipt of settlement funds from the shareholder

litigation with Elliott Associates, L.P. and Elliott International, L.P. The notes included simple interest rates of 12% and terms of 120 days or less.

The entire \$3.5 million in debt, and all related accrued interest, were repaid on April 6, 2001, upon receipt of the funds from the \$15 million settlement (prior to judge-awarded attorney fees and certain expenses) described elsewhere in this report.

Note 5 Stock Options and Warrants

On July 1, 2000, Financial Accounting Standards Board Interpretation No. 44, Accounting for Certain Transactions involving Stock Compensation, an interpretation of APB Opinion No. 25 (FIN 44) was adopted by the Company. FIN 44 requires that stock options that have been modified to reduce their exercise price be subject to variable accounting. The Company accounts for employee stock options under APB Opinion No. 25 and non-employee stock options under Statement of Financial Accounting Standards No. 123, Accounting for Stock Based Compensation (FAS 123).

On May 10, 1999, the Company re-priced certain stock options granted to employees and in accordance with US GAAP, at that time, the Company accounted for the re-priced stock options as fixed. As a result of adopting FIN 44, the Company is required to apply variable accounting to these options. If the market price of the Company's common stock increases above the July 1, 2000 market price, the Company will have to recognize additional compensation expense equal to the increase in stock price multiplied by the number of re-priced options. No additional expense will be recognized if the stock does not exceed the July 1, 2000 value. However, the impact cannot be determined as it is dependent on the change in the market price of the common stock from July 1, 2000 until the stock options are exercised, forfeited, or expire unexercised. Because the stock price on June 29, 2001 was below that of July 1, 2000, no expense has been recognized during the period.

Edgar Filing: ILLINOIS SUPERCONDUCTOR CORPORATION - Form 10-Q

On February 5, 2001, the Company's board of directors authorized the re-pricing of certain out of the money stock options granted to employees during the calendar year of 2000 to the closing share price on such date, or \$1.9375 per share. Options for a total of 2,676,000 shares of common stock were affected. This re-pricing causes these options to be subject to variable accounting as described under FIN 44. Because the stock price on June 29, 2001, was lower than the re-priced strike price (\$1.65 vs. \$1.9375, respectively) no gain or loss was recognized during the period.

On July 17, 2000, the Company granted an option to a non-Company advisor in connection with the establishment of a sales office in Japan to purchase 200,000 shares of common stock at \$4.9375 per share, the price of the common stock on the date of the grant. Since the stock option was granted to a non-employee, the Company accounts for this grant under FAS 123. According to the Black-Scholes valuation model, the value of the option was \$4.53 per share. The option vested 25% immediately, with the balance vesting pro-rata over a three year period. \$906,000 of non-cash compensation expense is to be amortized during the life of the options, with \$443,000 expensed through the second quarter of 2001.

On February 15, 2000, the Company's board of directors granted to certain executive level employees an aggregate of 440,000 deferred stock units (DSUs) under the Company's 1993 Amended and Restated Stock Option Plan (the Plan). The DSU's represent the right to receive an equivalent number of restricted shares of the Company's common stock. On the date of the grant, the DSU's were set to vest at the rate of 10% on the first anniversary of the date of the grant, with the balance vesting at a rate of 20%, 30%, and 40% at the second, third, and fourth anniversary dates, respectively. The executive level employees had the right to elect to defer receipt of the common stock subject to the DSU's to a later date. In the third quarter of 2000, the Company began to recognize compensation expense for the DSU's over the vesting period (4 years) based on their intrinsic value of \$1,925,000, which was the number of DSU's multiplied by the closing price of the Company's common stock on July 18, 2000, the measurement date (\$4.38 per share).

During the first six months of 2001, the Company's board of directors granted approximately 1.8 million stock options to the Company's officers and other employees on various dates (option prices were set at the closing price of the Company's common stock as of the date of each respective grant).

6

Note 6 Litigation Summary

16(b) Litigation

In February, 1999, Mark Levy, derivatively on behalf of the Company, filed a complaint against Southbrook International Investments, Ltd. (Southbrook), Elliott Associates, L.P., Elliott International, L.P., Alexander Finance L.P. (Alexander) and against the Company as a nominal defendant. The complaint filed in the United States District Court for the Southern District of New York, alleges that Southbrook, Elliott Associates, Elliott International and Alexander, while having beneficial ownership of more than 10% of the Company's common stock, traded the common stock such that the Company is entitled to recover short swing profits under Section 16(b) of the Securities Exchange Act of 1934 in connection with purchases and sales of Company securities within six month periods. The complaint sought to recover from Southbrook, Elliott Associates, Elliott International and Alexander their respective profits (in unspecified amounts) from those transactions. No relief is sought against the Company as a nominal defendant.

On February 22, 2001, the Company announced that a settlement of this litigation had been reached with Elliott Associates and Elliott International. On March 30, 2001, the settlement was approved by the court which resulted in the Company receiving \$15 million, less legal fees and certain other expenses. The court granted \$4.5 million in legal fees.

On March 16, 2001, the Company announced that a settlement of this litigation had been reached with Alexander. On April 27, 2001, the settlement was approved by the court which resulted in the Company receiving \$5 million, less legal fees and certain other expenses. The court granted \$1.5 million in legal fees.

Laves Litigation

On July 17, 2000 Edward W. Laves (the Plaintiff) filed an action (the Complaint) in the Law Division of the Circuit Court of Cook County, Illinois, against the Company and three of its directors, George Calhoun, Samuel Perlman, and Mark Brodsky (collectively, the Defendants) charging the Defendants with constructive termination under and in breach of the Plaintiff's employment agreement, and with violation of the Illinois Wage Payment and Collection Act. The Plaintiff seeks damages estimated to exceed \$9.5 million. The Company filed an appearance on behalf of all of the Defendants on October 3, 2000. On October 6, 2000, the Company filed on Defendants' behalf a motion to dismiss the Complaint. On January 22, 2001, the court issued an order granting our motion to dismiss the claims against the individual Defendants, but denied the motion to dismiss with respect to claims against the Company. On February 21, 2001, the Plaintiff filed a motion to reconsider the court's dismissal of claims against the individual Defendants. On March 13, 2001, the Defendants filed an answer to the Complaint and a

Edgar Filing: ILLINOIS SUPERCONDUCTOR CORPORATION - Form 10-Q

memorandum in opposition to the motion to reconsider. By order dated March 15, 2001, the court allowed the Plaintiff leave to file an amended motion to reconsider, which the Plaintiff filed on April 5, 2001, along with a motion to dismiss one of the Company's affirmative defenses. Following a substitution of judges and a hearing on August 9, 2001, the court granted the Plaintiff's motion to dismiss one of the Company's affirmative defenses, and ordered the case transferred back to the judge originally assigned to the case, for the limited purpose of ruling on the Plaintiff's amended Motion to Reconsider the dismissal of claims against the individual Defendants. A hearing on such motion has not yet been scheduled. The parties are continuing written discovery.

The Company believes the claims to be without merit and will continue to vigorously defend itself in this action.

7

Note 7 Subsequent Events

On July 17, 2001, the Company announced that the United States Patent and Trademark Office issued to the Company a patent covering cryogenic receiver front-end systems (CRFE) in a commercially viable configuration (See U.S. Patent No. 6,263,215). It also announced that it had filed a suit against Conductus Inc. and Superconductor Technologies, Inc. alleging infringement of such patent. The suit is seeking from Conductus Inc. and Superconductor Technologies, Inc. a permanent injunction restraining such entities from marketing, selling, or manufacturing these products, as well as monetary damages and reimbursement of legal fees.

Item 2. Management's Discussion and Analysis of Financial Conditions and Results of Operations.

General

The following is a discussion and analysis of the historical results of operations and financial condition of the Company and factors affecting the Company's financial resources. This discussion should be read in conjunction with the financial statements, including the notes thereto, set forth herein under Part I. Financial Information and Item 1. Financial Statements and in the Company's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2000. This discussion contains forward-looking statements which involve certain risks, uncertainties and contingencies which could cause the Company's actual results, performance or achievements to differ materially from those expressed, or implied, by such forward-looking statements. Such factors include those described in Risk Factors included in the Company's Annual Report on Form 10-K/A and other filings with the SEC. The forward-looking statements included in this report may prove to be inaccurate. In light of the significant uncertainties inherent in these forward-looking statements, you should not consider this information to be a guarantee by the Company or any other person that our objectives and plans will be achieved.

The Company provides a broad range of interference-control solutions for the wireless telecommunications industry. The Company develops, manufactures and markets radio frequency front-end systems for wireless networks using patented and proprietary high-temperature superconductor (HTS) filters, cryogenic low-noise amplifiers and adaptive notch filter (ANF) technologies to monitor, suppress and eliminate out-of-band and in-band interference in wireless base stations.

The Company was founded in 1989 by ARCH Development Corporation, an affiliate of the University of Chicago, to commercialize superconductor technologies initially developed by Argonne National Laboratory. The Company was incorporated in Illinois on October 18, 1989 and reincorporated in Delaware on September 23, 1993. On June 25, 2001, the Company changed its name from Illinois Superconductor Corporation to ISCO International, Inc. The Company's principal offices are located at 451 Kingston Court, Mount Prospect, IL 60056 and telephone number is (847) 391-9400.

Results of Operations

Three Months Ended June 30, 2001 and 2000

The Company's net sales increased \$1,359,000, or 9,060%, to \$1,374,000 for the three months ended June 30, 2001 from \$15,000 for the same period in 2000. This increase was primarily due to sales of the ANF products and the sale of HTS products following a field trial. The Company anticipates its unit volume to continue at a higher rate during 2001 as compared to 2000 due to existing and/or anticipated customer orders.

8

Edgar Filing: ILLINOIS SUPERCONDUCTOR CORPORATION - Form 10-Q

Cost of sales increased by \$1,308,000, or 396%, to \$1,638,000 for the three months ended June 30, 2001 from \$330,000 for the same period in 2000. The increase in cost of sales was due to the increase in sales volume.

The Company's research and development expenses increased by \$1,255,000, or 175%, to \$1,969,000 for the three months ended June 30, 2001, from \$714,000 for the same period in 2000. These expenses were higher primarily due to the acquisitions of Spectral Solutions, Inc. (SSI) and of certain assets of the ANF business of Lockheed Martin Canada, Inc. (the ANF Business) in 2000, as well as substantially increased prototype development costs, including those for 2.5G and 3rd Generation wireless systems.

Selling and marketing expenses increased by \$755,000, or 351%, to \$970,000 for the three months ended June 30, 2001, from \$215,000 for the same period in 2000. The increase in these expenses was due to the Company expanding its sales and marketing personnel in the fourth quarter of 2000 and the first quarter of 2001.

General and administrative expenses increased by \$398,000, or 26%, to \$1,900,000 for the three months ended June 30, 2001, from \$1,502,000 for the same period in 2000. This increase was primarily attributable to an increase in non-cash compensation charges and in professional costs including legal fees.

Non-cash interest expense was eliminated due to the conversion of certain of the Company's senior convertible notes into shares of common stock in late 2000. The non-cash interest expense was \$1,084,000 for the three months ended June 30, 2000.

Goodwill amortization, resulting from acquisitions by the Company in 2000, was \$509,000 for the three months ended June 30, 2001. No such charge existed during the comparable period in 2000.

Six Months Ended June 30, 2001 and 2000

The Company's net sales increased \$1,699,000, or 909%, to \$1,886,000 for the six months ended June 30, 2001 from \$187,000 for the same period in 2000. This increase was primarily due to sales of the ANF products, the sale of HTS products following a field trial, and other additional sales of HTS products. The Company anticipates its unit volume to continue at a higher rate during 2001 as compared to 2000 due to existing and/or anticipated customer orders.

Cost of sales increased by \$1,463,000, or 149%, to \$2,442,000 for the six months ended June 30, 2001 from \$979,000 for the same period in 2000. The increase in cost of sales was due to the increase in sales volume.

The Company's research and development expenses increased by \$2,666,000, or 261%, to \$3,686,000 for the six months ended June 30, 2001, from \$1,020,000 for the same period in 2000. These expenses were higher primarily due to the acquisitions of SSI and the ANF Business in 2000, as well as substantially increased prototype development costs, including those for 2.5G and 3rd Generation wireless systems.

Selling and marketing expenses increased by \$1,393,000, or 348%, to \$1,793,000 for the six months ended June 30, 2001, from \$400,000 for the same period in 2000. The increase in these expenses was due to the Company expanding its sales and marketing personnel in the fourth quarter of 2000 and the first quarter of 2001.

General and administrative expenses increased by \$742,000, or 29%, to \$3,309,000 for the six months ended June 30, 2001, from \$2,567,000 for the same period in 2000. This increase was primarily

attributable to an increase in non-cash compensation charges and in professional costs including legal fees.

Non-cash interest expense was eliminated due to the conversion of certain of the Company's senior convertible notes into shares of common stock in late 2000. The non-cash interest expense was \$1,485,000 for the six months ended June 30, 2000.

Goodwill amortization, resulting from acquisitions by the Company in 2000, was \$1,019,000 for the six months ended June 30, 2001. No such charge existed during the comparable period in 2000.

Liquidity and Capital Resources

At June 30, 2001, the Company's cash and cash equivalents were \$6,205,000, an increase of \$3,751,000 from the balance at December 31, 2000 of \$2,454,000. This increase was due to the receipt of settlement funds as described below, less legal fees, expenses, repayment of

short-term debt and interest thereon.

The continuing development of, and expansion in, sales of the Company's interference-control solutions product lines will require a commitment of substantial additional funds. The actual amount of the Company's future funding requirements will depend on many factors, including, but not limited to: the amount and timing of future revenues, the level of product marketing and sales efforts to support the Company's commercialization plans, the magnitude of the Company's research and product development programs, the ability of the Company to improve product margins, the cost of additional plant and equipment for manufacturing and the costs involved in protecting the Company's patents or other intellectual property.

During the second quarter of 2001, the Company received the \$15 million and \$5 million settlements as described below, less a total of \$6 million in judge-awarded attorney fees and approximately \$250,000 in related costs, and immediately repaid all \$3.5 million in short-term notes and \$29,500 in accrued interest thereon.

As part of its overall financing strategy, the Company filed a \$50 million universal shelf offering registration statement in the first quarter of 2001, and then entered into an agreement with Paul Revere Capital Partners, Ltd., whereby Paul Revere Capital Partners committed to acquire up to \$20 million of the Company's common stock over a 24-month period, upon demand by the Company, subject to the conditions contained in the purchase agreement. Pursuant to this facility, the Company may, at its discretion, sell shares of its common stock to Paul Revere Capital Partners at a purchase price per share which is equal to 94% of the average weighted volume price over a 22 day period. Each draw down is limited to the lesser of \$4 million or 20% of the trading volume over a specified period of time. The Company will also issue a warrant to Paul Revere Capital Partners to purchase a number of shares of common stock equal to 0.5% of the shares issued in each draw down. The Company also agreed to pay its placement agent a fee equal to 4% of each draw down and issue a warrant to the placement agent to purchase a number of shares of common stock equal to 0.5% of the shares issued in each draw down. Subsequent to entering into this agreement, the SEC issued an interpretive release that requires the Company to amend the registration statement to include the purchase agreement prior to drawing down on this facility. As of June 30, 2001, the Company had not amended the registration statement nor had it drawn down on this facility.

The Company also filed with the SEC, during the first quarter of 2001, a rights offering registration statement which provides the Company with the ability to sell common stock rights for up to \$20 million to the Company's existing stockholders on a non-dilutive basis. As of the date of this filing, the Company has not yet determined whether it will proceed with the rights offering.

10

The Company's common stock was de-listed from trading on the NASDAQ National Market in June 1999 due to the Company's inability to meet, at that time, the net tangible assets requirement for continued listing. The common stock is now traded in the over-the-counter market and quoted on the National Association of Securities Dealers, Inc. electronic bulletin board. This does not provide the same liquidity for the trading of securities as the NASDAQ National Market. The Company intends to apply for relisting on NASDAQ or another exchange when it is reasonably confident that its application would be approved.

The Company intends to augment its existing capital position through existing funding mechanisms identified and through other strategic sources of capital. Although the Company believes it has sufficient capital resources available to meet its obligations beyond the end of the current fiscal year, there is no guarantee that the funding mechanisms identified will allow the Company to access additional funds.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company does not have any material market risk sensitive instruments.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

16(b) Litigation

In February, 1999, Mark Levy, derivatively on behalf of the Company, filed a complaint against Southbrook International Investments, Ltd. (Southbrook), Elliott Associates, L.P., Elliott International, L.P., Alexander Finance L.P. (Alexander) and against the Company as a nominal defendant. The complaint filed in the United States District Court for the Southern District of New York, alleges that Southbrook, Elliott Associates, Elliott International and Alexander, while having beneficial ownership of more than 10% of the Company's common stock, traded the common stock such that the Company is entitled to recover short swing profits under Section 16(b) of the Securities Exchange Act of 1934 in connection with purchases and sales of Company securities within six month periods. The complaint sought to recover from Southbrook, Elliott Associates, Elliott International and Alexander their respective profits (in unspecified amounts) from those transactions. No relief is

Edgar Filing: ILLINOIS SUPERCONDUCTOR CORPORATION - Form 10-Q

sought against the Company as a nominal defendant.

On February 22, 2001, the Company announced that a settlement of this litigation had been reached with Elliott Associates and Elliott International. On March 30, 2001, the settlement was approved by the court which resulted in the Company receiving \$15 million, less legal fees and certain other expenses. The court granted \$4.5 million in legal fees.

On March 16, 2001, the Company announced that a settlement of this litigation had been reached with Alexander. On April 27, 2001, the settlement was approved by the court which resulted in the Company receiving \$5 million, less legal fees and certain other expenses. The court granted \$1.5 million in legal fees.

Laves Litigation

On July 17, 2000 Edward W. Laves (the Plaintiff) filed an action (the Complaint) in the Law Division of the Circuit Court of Cook County, Illinois, against the Company and three of its directors, George Calhoun, Samuel Perlman, and Mark Brodsky (collectively, the Defendants) charging the

11

Defendants with constructive termination under and in breach of the Plaintiff's employment agreement, and with violation of the Illinois Wage Payment and Collection Act. The Plaintiff seeks damages estimated to exceed \$9.5 million. The Company filed an appearance on behalf of all of the Defendants on October 3, 2000. On October 6, 2000, the Company filed on Defendants' behalf a motion to dismiss the Complaint. On January 22, 2001, the court issued an order granting our motion to dismiss the claims against the individual Defendants, but denied the motion to dismiss with respect to claims against the Company. On February 21, 2001, the Plaintiff filed a motion to reconsider the court's dismissal of claims against the individual Defendants. On March 13, 2001, the Defendants filed an answer to the Complaint and a memorandum in opposition to the motion to reconsider. By order dated March 15, 2001, the court allowed the Plaintiff leave to file an amended motion to reconsider, which the Plaintiff filed on April 5, 2001, along with a motion to dismiss one of the Company's affirmative defenses. Following a substitution of judges and a hearing on August 9, 2001, the court granted the Plaintiff's motion to dismiss one of the Company's affirmative defenses, and ordered the case transferred back to the judge originally assigned to the case, for the limited purpose of ruling on the Plaintiff's amended Motion to Reconsider the dismissal of claims against the individual Defendants. A hearing on such motion has not yet been scheduled. The parties are continuing written discovery.

The Company believes the claims to be without merit and will continue to vigorously defend itself in this action.

Item 4. Submission of Matters to a Vote of Security Holders.

At the Company's annual meeting of stockholders held on June 22, 2001, the following proposals were approved by the margins indicated.

		<u>Number of Shares</u>	
		<u>Voted For</u>	<u>Withheld</u>
1.	To elect two Class II directors to the board of directors for a term of three (3) years and until their successors are duly elected and qualified.		
Howard S. Hoffmann

Item 6. Exhibits and Reports on Form 8-K.

(a) Exhibits: A list of exhibits is set forth in the Exhibit Index found on page 15 of this report.

(b) Reports on Form 8-K:

On April 6, 2001, the Company filed a report on Form 8-K, announcing under Item 5 that a previously disclosed settlement of shareholder litigation was approved by the court on March 30, 2001, which would result in the Company receiving \$15 million, less \$4.5 million in legal fees and certain other expenses.

On May 3, 2001, the Company filed a report on Form 8-K, announcing under Item 5 that a previously disclosed settlement of shareholder litigation was approved by the court on April 27, 2001, which would result in the Company receiving \$5 million, less \$1.5 million in legal fees and certain other expenses.

On May 30, 2001, the Company filed a report on Form 8-K, announcing under Item 5 that it had received an order from Verizon Wireless for twelve Adaptive Notch Filter systems.

On June 22, 2001, the Company filed a report on Form 8-K, announcing under Item 5 announcing it had completed a field trial with Verizon Wireless in the Chicago area.

Edgar Filing: ILLINOIS SUPERCONDUCTOR CORPORATION - Form 10-Q

On June 27, 2001, the Company filed a report on Form 8-K, reporting under Item 5 that it had amended its Certificate of Incorporation in order to change its name to ISCO International, Inc.

13
