Notes (All amounts in HK dollars thousands unless otherwise stated):

1. Independent review

The interim results for the six months ended 30 June 2006 are unaudited but have been reviewed in accordance with Statement of Auditing Standard 700 "Engagements to Review Interim Financial Reports" issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA"), by PricewaterhouseCoopers, whose unmodified review report is included in the interim report to be sent to equity holders.

2. Basis of preparation

This condensed consolidated interim financial information for the half-year ended 30 June 2006 has been prepared in accordance with IAS/HKAS 34, 'Interim financial reporting'. The interim condensed financial report should be read in conjunction with the annual financial statements for the year ended 31 December 2005.

3. Principal accounting policies

The accounting policies adopted are consistent with those of the annual financial statements for the year ended 31 December 2005 as described in the annual financial statements for the year ended 31 December 2005.

The following new standards, amendments to standards and interpretations are mandatory for financial year ending 31 December 2006.

- o Amendment to IAS/HKAS 19, 'Actuarial gains and losses, group plans and disclosures', effective for annual periods beginning on or after 1 January 2006. This amendment is not relevant for the Group;
- o Amendment to IAS/HKAS 39, Amendment to 'The fair value option', effective for annual periods beginning on or after 1 January 2006. This amendment is not relevant for the Group;
- o Amendment to IAS/HKAS 21, Amendment 'Net investment in a foreign operation', effective for annual periods beginning on or after 1 January 2006. This amendment has no impact on the Group;
- o Amendment to IAS/HKAS 39, Amendment 'Cash flow hedge accounting of forecast intragroup transactions', effective for annual periods beginning on or after 1 January 2006. This amendment is not relevant for the group;
- o Amendment to IAS/HKAS 39 and IFRS/HKFRS 4, Amendment 'Financial guarantee contracts', effective for annual periods beginning on or after 1 January 2006. This amendment is not relevant for the Group;
- o IFRS/HKFRS 6, 'Exploration for and evaluation of mineral resources', effective for annual periods beginning on or after 1 January 2006. This standard is not relevant for the Group;
- o IFRIC/HK(IFRIC)-Int 4, 'Determining whether an arrangement contains a lease', effective for annual periods beginning on or after 1 January 2006. The Group has reviewed its contracts. Some of them are required to be accounted for as leases in accordance with IAS/HKAS 17, 'Leases'. However, these leases are operating leases, and their reclassification has had no impact on the expense recognised in respect of them;
- o IFRIC/HK(IFRIC)-Int 5, 'Rights to interests arising from decommissioning, restoration and environmental rehabilitation funds', effective for annual periods beginning on or after 1 January 2006. This interpretation is not relevant for the Group; and
- o IFRIC/HK(IFRIC)-Int 6, 'Liabilities arising from participating in a specific market - waste electrical and electronic equipment', effective for annual periods beginning on or after 1 December 2005. This interpretation is not relevant for the group.

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

The following new standards, amendments to standards and interpretations have been issued but are not effective for 2006 and have not been early adopted:

- o IFRIC/HK(IFRIC)-Int 7, 'Applying the Restatement Approach under IFRS/HKFRS 29', effective for annual periods beginning on or after 1 March 2006. Management does not expect the interpretation to be relevant for the Group;
- o IFRIC/HK(IFRIC)-Int 8, 'Scope of IFRS/HKFRS 2', effective for annual periods beginning on or after 1 May 2006. Management is currently assessing the impact of IFRIC/HK(IFRIC)-Int 8 on the Group's operations;
- o IFRIC/HK(IFRIC)-Int 9, 'Reassessment of Embedded Derivatives', effective for annual periods beginning on or after 1 June 2006. Management does not expect the interpretation to be relevant for the Group;
- o IFRS/HKFRS 7, 'Financial instruments: Disclosures', effective for annual periods beginning on or after 1 January 2007. IAS/HKAS 1, 'Amendments to capital disclosures', effective for annual periods beginning on or after 1 January 2007. Management is currently assessing the impact of IFRS/HKFRS 7 on the Group's operations.

4. Sales and segment information

The Company's sales is analysed as follows:

	SIX MONTHS ENDED 30 JUNE	
	2006	2005
Income from provision of satellite transponder capacity:		
- recurring	415,530	430,816
- non-recurring	45,578	-

Other revenue	2,406	2,276
	-----	-----
	475,760	445,338
	=====	=====

The Company has only one business segment, namely the operation, maintenance and provision of satellite telecommunication systems for broadcasting and telecommunications. The Company's primary reporting format for segment reporting purposes under HKAS 14 "Segment Reporting" is the geographical basis. For the purpose of classification, the country where the customer is incorporated is deemed to be the source of sales. However, the Company's operating assets consist primarily of its satellites which are used, or are intended for use, for transmission to multiple geographical areas and therefore cannot be allocated between geographical segments. Accordingly, no geographical analysis of expenses, assets and liabilities has been presented.

The following table provides an analysis of the Company's sales by geographical markets:

6. Income tax expense

A significant portion of the Group's profit is treated as earned outside Hong Kong and is not subject to Hong Kong profit tax.

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

Hong Kong profits tax has been provided at the rate of 17.5% (2005: 17.5%) on the estimated assessable profit for the period.

Overseas tax, including the Foreign Enterprises Income Tax in the People's Republic of China, is calculated at 5% to 20% of the gross revenue earned in certain of the overseas jurisdictions.

8. Contingent liabilities

Under Indian tax regulations, the Group may be subject to Indian income tax on revenues received by the Group in respect of income from provision of satellite transponder capacity to the Group's customers for purposes of those customers carrying on business in India or earning income from any source in India.

The Indian tax authorities have assessed the Group for income tax as follows:

Assessment year	Amount HK\$	Amount
	(approximate)	(approximate)

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

1997-98	20 million	115 m
1998-99	23 million	141 m
1999-00	22 million	127 m
2000-01	14 million	84 m
2001-02	29 million	171 m
2002-03	38 million	210 m
2003-04	43 million	247 m
	-----	-----
Total	189 million	1,095 m
	=====	=====

The Group has filed appeals for each of the assessment years 1997-98 to 2003-04.

No assessment has yet been made for the 2004-05 or 2005-06 assessment years.

The Income Tax Appellate Tribunal (the "Tribunal") in an earlier appeal filed against the original assessment for the assessment year 1997-98 held that the Group is liable for Indian income tax under certain circumstances. The Group does not believe that it is liable for the Indian income tax as held by the Tribunal and has filed an appeal against the Tribunal's decision. The tax authorities have also filed an appeal against the Tribunal's decision. Both the appeals have been admitted by the High Court.

In order to obtain a stay of recovery proceedings, the Group has made payments as follows and has recorded these payments as an asset on the assumption that the amounts are recoverable:

Assessment year	Amount HK\$ (approximate)	Amount
1997-98	13 million	78 m
1998-99	15 million	88 m
1999-00	10 million	62 m
2000-01	9 million	50 m
2001-02	20 million	119 m
2002-03	27 million	148 m
2003-04	29 million	165 m
	-----	-----
Total	123 million	710 m
	=====	=====

-11-

In addition, based on the general principles set forth by the Tribunal, the amount of income taxable in India depends on the payments made by the Group's customers to the Group for the purpose of those customers carrying on business in India or earning income from any source in India. As such information is proprietary in nature and has not been provided by the Group's customers, the Group cannot reasonably estimate the taxable income and therefore also cannot estimate the amount of income tax to which the Group may be assessed. Furthermore, as stated above, the Group has filed an appeal against the Tribunal's decision. The appeal has been admitted by the High Court and is pending before the Court. Accordingly, no provision

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

has been recognised for Indian income tax in the Group's financial statements.

9. Purchase, sale or redemption of own securities

During the six months ended 30 June 2006, neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities.

10. Corporate Governance

The Group has adopted all the Code Provisions in Appendix 14 of the Rules Governing the Listing of Securities ("Listing Rules") except the following:

The Remuneration Committee is composed of three members, of whom one is Independent Non-executive Director and the other two are Non-executive Directors. The Committee is chaired by the Independent Non-executive Director.

The Group has adopted procedures governing directors' securities transactions in compliance with the Model Code as set out in Appendix 10 of the Listing Rules.

11. Audit Committee

The Audit Committee consists of five members, three of whom are Independent Non-executive Directors who satisfy independent, financial literacy and experience requirements, whilst the other two members are Non-executive Directors and have only observer status with no voting rights. The Committee is chaired by an Independent Non-executive Director, who possesses appropriate professional qualifications and experience in financial matters.

The Committee has reviewed the accounting principles and practices adopted by the Group and the unaudited condensed consolidated interim financial information for the six months ended 30 June 2006 in conjunction with the Company's external auditors.

12. Charges on Assets

The Group did not have any charges on assets as at 30 June 2006 and 31 December 2005.

13. Publication of detailed results, announcement on the exchange's website

A detailed results announcement containing all the information required by paragraphs 46(1) to 46(6) of Appendix 16 of the Exchange Listing Rules will be published on the Exchange's website in due course.

14. Miscellaneous

The Directors are not aware of any material changes from the information published in the annual report for the year ended 31 December 2005, other than disclosed in this announcement.

15. Closure of register of members

The Register of equity holders of the Company will be closed from 5 to 12 October 2006 (both days inclusive). In order to qualify for the interim dividend, all transfers, accompanied by the relevant share certificates, must be lodged with the Company's Hong Kong Branch Share Registrars,

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

Computershare Hong Kong Investor Services Limited at 46th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong for registration not later than 4:00 p.m. on 4 October 2006. The interim dividend will be paid on or about 14 November 2006.

CHAIRMAN'S STATEMENT

A PROMISING BUT STUBBORN MARKET

The economic improvements that we have noted in recent reports continue to be evident in the Asia-Pacific region. However, the persistent overcapacity present in many markets across the region is still holding down transponder rates and causing the satellite market to remain stubbornly flat. As a result, despite an increase in demand in our business and a concerted effort to capitalise on opportunities, little positive impact has come through in the results for the first six months of 2006.

In these circumstances and with a view to the longer term, it is pleasing that I am able to report that, following the 18% increase in our overall utilisation rate during last year's difficult market, we achieved a further 4% increase in the first half of 2006. This is an encouraging improvement amidst otherwise unimpressive results.

AsiaSat, however, continues to attract and maintain an enviable blue-chip customer base with long-term contracts; the Company is also debt free and has no need to make any provisions for doubtful debts in the period under review. Looking at the longer term, our confidence in a bright future for satellites in the Asia Pacific is unchanged, as is our belief in AsiaSat's potential to benefit from this in due course. For these reasons, we continue to focus on our customers and on enhancing our products and services so as to further consolidate our market leadership and be ready for the next growth phase. I want to thank each member of management and staff for his and her dedication to excellence in the current tough market.

Underlining our continued confidence in the future of the Group, in May this year we announced the signing of the Construction Agreement to design and build AsiaSat 5, and we also announced its Launch Contract. This new satellite, a replacement for AsiaSat 2, is scheduled for launch in the second half of 2008.

INTERIM RESULTS

Turnover for the first half of 2006 was HK\$475 million including a one-time receipt of HK\$46 million for early termination of a contract (2005: HK\$445 million), an increase of HK\$30 million. Excluding the one-time receipt, recurring revenue was down by HK\$16 million. The profit attributable to equity holders was HK\$239 million (2005: HK\$185 million), up 29%. This increase was due largely to the one-time receipt and to higher interest income.

Operating expenses in the first half of 2006, amounted to HK\$99 million (2005: HK\$102 million), a decrease of HK\$3 million mainly from lower satellite in-orbit insurance.

The Group's EBITDA (earnings before interest, tax, depreciation and amortisation) margin increased to 79% (2005: 77%) as a result of the one-time receipt reported above.

During the period, the Group generated a net cash flow of HK\$183 million (2005: HK\$96 million) after paying capital expenditure of HK\$118 million and dividends

Edgar Filing: ASIA SATELLITE TELECOMMUNICATIONS HOLDINGS LTD - Form 6-K

of HK\$105 million. At 30 June 2006, the Group reported a cash balance of HK\$1,818 million (31 December 2005: HK\$1,636 million). The Group continues to

-13-

be debt free, which positions us well financially to undertake our investment programme and to pursue acquisition opportunities in the Region.

DIVIDEND

The Board has resolved to pay an interim dividend of HK\$0.08 per share (2005: HK\$0.08), the same as last year. The interim dividend is payable on 14 November 2006 to equity holders on the share register as of 12 October 2006. The share register will be closed from 5 to 12 October 2006, both days inclusive.

OPERATIONS REVIEW

NEW SATELLITE

AsiaSat's reputation for excellence has been built on providing our customers with the combined benefits of the best facilities and service in the industry today and on anticipating their needs for the future. To this end, in May, we announced the commencement of construction of AsiaSat 5, a new satellite that will replace AsiaSat 2 at the orbital location of 100.5oE. Shortly after, we also confirmed that we had signed a contract with Sea Launch to position AsiaSat 5 in orbit on a Land Launch rocket. This is scheduled to take place in the second half of 2008 from the Baikonour Cosmodrome in Kazakhstan.

IN-ORBIT SATELLITES

During the first six months of 2006, the Group's fleet of three in-orbit satellites, AsiaSat 2, AsiaSat 3S and AsiaSat 4, continued to deliver excellent service.

The fleet is located over the Asian land mass and forms the platform for one of the largest television viewerships in the world and provides AsiaSat customers with unparalleled coverage of two-thirds of the world's population.

AsiaSat 2 was launched in November 1995 and orbits at 100.5oE. It carries 24 C-band and 9 Ku-band transponders, and its overall utilisation rate at 30 June 2006 was 42% (31 December 2005: 40%).

AsiaSat 3S was launched in March 1999 and is stationed at 105.5oE. This satellite carries a payload of 28 C-band and 16 Ku-band transponders, and its overall utilisation rate at 30 June 2006 was 72% (31 December 2005: 73%).

AsiaSat 4 was launched in April 2003 and is positioned at the 122.2oE slot carrying 28 C-band and 20 Ku-band transponders, including four Hong Kong BSS (broadcast satellite service) transponders. Its overall utilisation rate at 30 June 2006 was 52% (31 December 2005: 47%).

The total number of transponders on the Company's satellites leased and sold at 30 June 2006 increased to 70 (31 December 2005: 67), a 4% improvement, representing an overall utilisation rate of 56% (31 December 2005: 54%). This included the four BSS transponders provided for the DTH (direct-to-home) service.

CONTRACTS WITH CUSTOMERS

In the first six months of 2006, we secured new contracts to the value of HK\$186 million (2005: HK\$132 million) and renewed contracts to the extent of HK\$296 million (2005: HK\$316 million) improving the total to HK\$482 million (2005: HK\$448 million).

-14-

As of 30 June 2006, the Group held contracts worth HK\$2,785 million (31 December 2005: HK\$2,771 million), of which approximately HK\$381 million will be recognised in the second half of the current year. Despite the slow market, the Company has been able to make a number of improvements and maintain its backlog level.

MARKET REVIEW

Growth in Asia-Pacific markets continues to lag behind that seen in other satellite markets around the world. This is because, on one hand, the excess in transponder capacity that was built up in preceding years still has not been fully taken up and, on the other hand, a slower introduction of new applications in the region than has occurred in other parts of the world. Such applications as High Definition Television (HDTV) are beginning to show growth in other markets including North America, Europe and Japan. However, they have yet to gather momentum in other parts of Asia.

Nevertheless, HDTV is seen as a key driver for growth in the next few years. Another is video to mobile devices, which is showing great promise for satellites in the future. Coupled with the increasing demand for television and VSAT-delivered telecommunications services, these new applications will help to push the industry forward in the coming years.

BUSINESS DEVELOPMENT

SUBSIDIARY

SKYWAVE

Our subsidiary, Skywave TV Limited ("Skywave"), is 80% held by the Company and is engaged with its partners in establishing a low cost DTH (direct-to-home) platform to serve the markets of Hong Kong, Macau, Taiwan and Southern China.

Skywave launched its services at the beginning of 2005 and currently offers a variety of some 36 programmes branded under 'family favourites', 'premium movies' and 'premium sports'.

In the first half of this year, Skywave incurred a loss of HK\$2 million (2005: HK\$3 million), of which our share was close to HK\$2 million. This has been reflected in the consolidated accounts.

ASSOCIATE COMPANIES

SPEEDCAST

Our associate, SpeedCast Holdings Limited ("SpeedCast") in which the Company holds 47%, provides broadband, multimedia and corporate broadcast services to customers in countries across Asia and beyond.

In the first six months of 2006, the company continued to improve its performance in a highly competitive market having moved into profit in the second half of 2005. The company also continued to grow and, in the 2006 period under review, achieved a turnover of HK\$51 million (2005: HK\$38 million), an increase of 34%, and a profit of HK\$2 million (2005: loss of HK\$1 million).

BEIJING ASIA

In China, we are joint venture partners in Beijing Asia Sky Telecommunications Limited ("Beijing Asia"), in which the Company holds a 49% stake. This company is engaged in providing VSAT (very small aperture terminal) services in the Mainland. Beijing Asia started business in the last quarter of 2004 and, for the first six months of 2006, incurred a loss of HK\$4 million (2005: HK\$4 million), of which AsiaSat's share was HK\$2 million (2005: HK\$2 million).

NON-DOMESTIC TELEVISION PROGRAMME SERVICE LICENCE

The Company applied for, and was granted, another Non-domestic Television Programme Service Licence in the first half of 2006. To broaden our business scope, this licence, together with the Fixed Carrier Licence, will be used to provide bundled services for customers who need both space segment and uplink services from the Company.

DIRECTOR

Mr. Don Fullerton, who was an Independent Non-executive Director, the Chairman of the Remuneration Committee and a member of the Audit Committee for the last ten years, resigned on 30 May 2006. During these years, Mr. Fullerton has travelled frequently from Toronto to Hong Kong to attend meetings, and his contribution has been much appreciated. On behalf of AsiaSat and the Board, I wish to express our deep appreciation for his commitment and dedication to the Company. To fill the vacancy following Mr. Fullerton's departure, Mr. James Watkins has agreed to join AsiaSat as an Independent Non-executive Director, the Chairman of the Remuneration Committee and a member of the Audit Committee with effect from 30 June 2006. Mr. Watkins qualified as a solicitor in 1969 and was for 20 years a partner in a leading international English law firm and specialised in the fields of corporate law, corporate finance, international capital markets and international projects and project finance. From 1997 to 2003, he was an Executive Director and Group General Counsel in a listed conglomerate. Mr. Watkins currently holds non-executive directorships in a number of listed public companies and brings rich experience across a spectrum of industries and businesses. We express a warm welcome to Mr. Watkins.

OUTLOOK

Despite some encouraging signs, there is little evidence emerging to indicate that these will make significant changes to AsiaSat's results for the second half of 2006. Thus, it is unlikely that the results for the full year will be materially different from those of the prior year. However, the Group is in excellent shape and is making solid progress wherever possible in the development of our customer products and services, particularly with the contracting of our new satellite. As the market leader in the region, we recognise our role in setting the standards for quality and service and we remain optimistic about future growth. We base this commitment on our belief in the energies of the rapidly developing nations of the Asia Pacific and on the huge benefits that satellites can bring to the disparate markets of the region. AsiaSat's reputation for excellence and its market leadership position the Company well for the future.
