***Item 1.01. Entry into a Material Definitive Agreement***

On March 30, 2005, Vector Group Ltd. (the Company) agreed to sell \$25.0 million of its 5% Variable Interest Senior Convertible Notes due 2011 (the Notes), pursuant to the terms of a Purchase Agreement, dated as of March 30, 2005 (the Purchase Agreement), among the Company and Jefferies & Company, Inc., as the Initial Purchaser (Initial Purchaser), a copy of which is attached hereto as Exhibit 1.1. On March 31, 2005, pursuant to the Purchase Agreement, the Initial Purchaser exercised its right to purchase an additional \$5.0 million of Notes to cover over-allotments. The Initial Purchaser will purchase the Notes from the Company at a purchase price equal to 103.5% of the principal amount thereof. The Notes will be offered only to qualified institutional buyers in accordance with Rule 144A. The Notes will be governed by the terms of an Indenture (the Indenture), between the Company and Wells Fargo Bank, N.A., as Trustee, to be negotiated with the Initial Purchaser. The Company intends to use the net proceeds of the issuance for general corporate purposes, which will include the repayment of borrowings under its revolving credit facility.

In connection with the agreed issuance of the Notes, the Company will also enter into a Registration Rights Agreement to be negotiated with the Initial Purchaser. The Company has agreed to file a shelf registration statement with the Securities and Exchange Commission covering resales of the Notes and the Company's common stock issuable upon conversion of the Notes.

The Notes will be convertible, at the option of the holder at any time on or prior to maturity, into shares of the Company's common stock. The Notes will be convertible at a conversion price of \$19.40 per share, which is equal to a conversion rate of approximately 51.5464 shares of common stock per \$1,000 principal amount of Notes, subject to adjustment.

Interest on the Notes will be payable quarterly on February 15, May 15, August 15 and November 15 of each year, beginning May 15, 2005. The Notes will accrue interest at 5% per annum, with an additional amount of interest payable on each interest payment date based on the amount of cash dividends paid by the Company on its common stock during the prior three-month period ending on the record date for such interest payment multiplied by the total number of shares of the Company's common stock into which the Notes will be convertible on such record date (together, the Total Interest). Notwithstanding the foregoing, however, during the period prior to and including November 15, 2006, the interest payable on each interest payment date shall be the higher of (i) the Total Interest or (ii) 6 3/4% per annum.

The Notes will mature on November 15, 2011, but the Company will be required to redeem 12.5% of the total aggregate principal amount of the Notes outstanding on November 15, 2009. In addition to such redemption amount, the Company will also redeem on November 15, 2009 and on each accrual period thereafter an additional amount, if any, of the Notes necessary to prevent the Notes from being treated as an Applicable High Yield Discount Obligation under the Internal Revenue Code. The holders of the Notes will have the option on November 15, 2009 to require the Company to repurchase some or all of their remaining Notes. The redemption price for such redemptions will equal 100% of the principal amount of the Notes plus accrued and unpaid interest, if any.

The Notes will be the Company's unsecured and unsubordinated obligations and will rank on a parity in right of payment with all of its existing and future unsecured and unsubordinated indebtedness. In addition, the Notes will effectively rank junior to any future secured indebtedness the Company may incur and junior to liabilities of the Company's subsidiaries.

Upon a fundamental change (to be defined in the Indenture), each holder of the Notes may require the Company to repurchase some or all of its Notes at a repurchase price equal to 100% of the aggregate principal amount of the Notes plus accrued and unpaid interest, if any, plus, in certain circumstances, a make-whole premium.

Upon a continuing event of default (to be defined in the Indenture), the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding Notes may declare the Notes immediately due and payable at their principal amount together with accrued interest, except that an event of default resulting from a bankruptcy or similar proceeding will automatically cause the Notes to become immediately due and payable without any declaration or other act on the part of the Trustee or any Note holders.

The summary of the foregoing transaction is qualified in its entirety by reference to the text of the Purchase Agreement, which is included as an exhibit hereto and is incorporated herein by reference.
