ASTRONICS CORPORATION
Notes to Consolidated Financial Statements
 March 29, 2008
 (Unaudited)

1) Basis of Presentation

The accompanying unaudited statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements, (SFAS 157), which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. This statement applies under other accounting pronouncements that require or permit fair value measurements. The statement indicates, among other things, that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. SFAS 157 defines fair value based upon an exit price model. Relative to SFAS 157, the FASB issued FASB Staff Positions (FSP) 157-1 and 157-2. FSP 157-1 amends SFAS 157 to exclude SFAS No. 13, Accounting for Leases, (SFAS 13) and its related interpretive accounting pronouncements that address leasing transactions, while FSP 157-2 delays the effective date of the application of SFAS 157 to fiscal years beginning after November 15, 2008 for all nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis.

We adopted SFAS 157 as of January 1, 2008, with the exception of the application of the statement to nonfinancial assets and nonfinancial liabilities. Nonfinancial assets and nonfinancial liabilities for which we have not applied the provisions of SFAS 157 include those initially measured at fair value in a business combination. The impact of adopting SFAS 157 was not significant.

SFAS 157 establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument. Level 3 inputs are unobservable inputs based on our own assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The following table provides the assets and liabilities carried at fair value measured on a recurring basis as of March 29, 2008 (in thousands):

	Asset (Liability)	Level 1	Level 2	Level 3
	(199)		(199)	
Interest rate swap				

Interest rate swaps are over-the-counter securities with no quoted readily available Level 1 inputs, and therefore are measured at fair value using inputs that are directly observable in active markets and are classified within Level 2 of the valuation hierarchy, using the income approach.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115, (SFAS 159) which is effective for fiscal years beginning after November 15, 2007. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. This statement also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. Unrealized gains and losses on items for which the fair value option is elected would be reported in earnings. We have adopted SFAS 159 and have elected not to measure any additional financial instruments and other

items at fair value. Therefore, the adoption of SFAS 159 had no effect on our financial statements.

Table of Contents

The results of operations for any interim period are not necessarily indicative of results for the full year. Operating results for the three month period ended March 29, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

The balance sheet at December 31, 2007 has been derived from the audited financial statements at that date, but does not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements.

For further information, refer to the financial statements and footnotes thereto included in Astronics Corporation's 2007 annual report on Form 10-K.

2) Stock Based Compensation

The Company has stock option plans that authorize the issuance of options for shares of Common Stock to directors, officers and key employees. Stock option grants are designed to reward long-term contributions to the Company and provide incentives for recipients to remain with the Company. The exercise price, determined by a committee of the Board of Directors, may not be less than the fair market value of the Common Stock on the grant date. Options become exercisable over periods not exceeding ten years. The Company's practice has been to issue new shares upon the exercise of the options.

The Company accounts for its stock options following SFAS 123(R), Share-Based Payment, applying the modified prospective method. Under the modified prospective method, the Company is required to record equity-based compensation expense for all awards granted after the date of adoption and for the unvested portion of previously granted awards outstanding as of the date of adoption. The Company uses a straight-line method of attributing the value of stock-based compensation expense, subject to minimum levels of expense, based on vesting. Stock compensation expense recognized during the period is based on the value of the portion of share-based payment awards that is ultimately expected to vest during the period. Vesting requirements vary for directors, officers and key employees. In general, options granted to outside directors vest six months from the date of grant and options granted to officers and key employees straight line vest over a five-year period from the date of grant.

The fair value of stock options granted was estimated on the date of grant using the Black-Scholes option-pricing model. The weighted average fair value of the options was \$8.53 for options granted during the three months ended March 29, 2008 and was \$7.85 for options granted during the three months ended March 31, 2007. The following table provides the range of assumptions used to value stock options granted during the three months ended March 29, 2008 and March 31, 2007.

	Three Months Ended	
	March 29, 2008	March 31, 2007
Expected volatility	0.376	0.340
Risk-free rate	3.04%	4.50%
Expected dividends	0.00%	0.00%
Expected term (in years)	7 Years	7 Years

To determine expected volatility, the Company uses historical volatility based on weekly closing prices of its Common Stock and considers currently available information to determine if future volatility is expected to differ over the expected terms of the options granted. The risk-free rate is based on the United States Treasury yield curve at the time of grant for the appropriate term of the options granted. Expected dividends are based on the Company's history and expectation of dividend payouts. The expected term of stock options is based on vesting schedules, expected exercise patterns and contractual terms.

The table below reflects the impact stock compensation expense had on net earnings for the three months ended March 29, 2008 compared to the three months ended March 31, 2007 as follows:

Three Months Ended
March 31,

(in thousands)	March 29, 2008	2007
Stock compensation expense	\$ 186	\$ 151
Tax benefit	(14)	(14)
Stock compensation expense, net of tax	\$ 172	\$ 137

Table of Contents

A summary of the Company's stock option activity and related information for the three months ended March 29, 2008 is as follows:

(Aggregate intrinsic value in thousands)	Number of Options	Weighted Average Exercise Price per option	Aggregate Intrinsic Value
Outstanding at December 31, 2007	797,239	\$ 8.80	\$ 8,472
Options Granted	12,500	19.11	4
Options Exercised	(29,288)	4.74	(430)
Outstanding at March 29, 2008	780,451	\$ 9.12	\$ 8,046
Exercisable at March 29, 2008	578,671	\$ 7.27	\$ 7,037

The aggregate intrinsic value in the preceding table represents the total pretax option holder's intrinsic value, based on the Company's closing stock price of Common Stock of \$19.43 as of March 29, 2008, which would have been received by the option holders had all option holders exercised their options as of that date.

The fair value of options vested since December 31, 2007 is \$0.1 million. At March 29, 2008, total compensation costs related to non-vested awards not yet recognized amounts to \$1.3 million and will be recognized over a weighted average period of 2.2 years.

The following is a summary of weighted average exercise prices and contractual lives for outstanding and exercisable stock options as of March 29, 2008:

Exercise Price Range	Shares	Outstanding Weighted Average Remaining Life in Years	Weighted Average Exercise Price	Exercisable Shares	Exercisable Weighted Average Exercise Price
\$5.09-\$7.65	518,695	5.30	\$ 5.62	442,167	\$ 5.61
\$9.83-\$13.41	145,224	6.15	10.63	101,136	10.98
\$17.36-\$19.11	89,342	8.95	17.67	35,368	17.53
\$39.81	27,190	9.73	39.81		
	780,451	6.03	\$ 9.12	578,671	\$ 7.27

In addition to the options discussed above, the Company has established the Employee Stock Purchase Plan to encourage employees to invest in Astronics Corporation. The plan provides employees that have been with the Company for at least a year the opportunity to invest up to 20% of their cash compensation (up to an annual maximum of approximately \$21,000) in Astronics common stock at a price equal to 85% of the fair market value of the Astronics common stock, determined each October 1. Employees are allowed to enroll annually. Employees indicate the number of shares they wish to obtain through the program and their intention to pay for the shares through payroll

deductions over the annual cycle of October 1 through September 30. Employees can withdraw anytime during the annual cycle, and all money withheld from the employees pay is returned with interest. If an employee remains enrolled in the program, enough money will have been withheld from the employees pay during the year to pay for all the shares that the employee opted for under the program. At March 29, 2008, employees had subscribed to purchase approximately 18,700 shares at \$37.38 per share on September 30, 2008. The fair value of these options is \$11.39 per option.

3) Goodwill and Intangible Assets

The following table summarizes the changes in the carrying amount of goodwill for 2008 and 2007:

(in thousands)	March 29, 2008	December 31, 2007
Balance beginning of period	\$ 3,048	\$ 2,668
Foreign currency translations	(73)	380
Balance end of period	\$ 2,975	\$ 3,048

Table of Contents

The following table summarizes acquired intangible assets as follows:

(in thousands)	Weighted Average Life	March 29, 2008		December 31, 2007	
		Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Patents	12 Years	\$ 1,271	\$ 314	\$ 1,271	\$ 289
Trade Names	N/A	553		553	
Completed and Unpatented Technology	10 Years	487	154	487	142
Government Contracts	6 Years	347	183	347	168
Backlog	4 Years	314	292	314	285
Total Intangible Assets		\$ 2,972	\$ 943	\$ 2,972	\$ 884

Amortization is computed on the straight-line method for financial reporting purposes. Amortization expense was \$0.1 million and \$0.1 million for the three months ended March 29, 2008 and March 31, 2007, respectively.

Amortization expense for each of the next five years will amount to approximately \$0.2 million for each of the years ended December 31, 2008, 2009, 2010, 2011 and \$0.1 million for 2012.

4) Inventories

Inventories are stated at the lower of cost or market, cost being determined in accordance with the first-in, first-out method. Inventories are as follows:

(in thousands)	March 29, 2008	December 31, 2007
Finished Goods	\$ 5,209	\$ 7,226
Work in Progress	8,801	8,553
Raw Material	22,085	21,141
	\$ 36,095	\$ 36,920

5) Comprehensive Income and Accumulated Other Comprehensive Income

The components of comprehensive income are as follows:

(in thousands)	Three Months Ended March 29, 2008	March 31, 2007
Net income	\$ 2,647	\$ 4,695
Other comprehensive income:		
Foreign currency translation adjustments	(112)	39
Accumulated Retirement Liability Adjustment, net of tax of \$17 in 2008 and \$15 in 2007	28	23
Loss on derivatives, net of tax of \$18 in 2008 and \$6 in 2007	(32)	(6)

Comprehensive income	\$ 2,531	\$ 4,751
----------------------	----------	----------

The components of accumulated other comprehensive income (loss) is as follows:

(in thousands)	March 29, 2008	December 31, 2007
Accumulated foreign currency translation	\$ 1,153	\$ 1,265
Accumulated retirement liability adjustment	(1,682)	(1,710)
Accumulated loss on derivative adjustment	(128)	(96)
Accumulated other comprehensive income	\$ (657)	\$ (541)

Table of Contents**6) Earnings Per Share**

The following table sets forth the computation of earnings per share:

(in thousands, except per share data)	Three Months Ended	
	March 29, 2008	March 31, 2007
Net Income	\$ 2,647	\$ 4,695
Basic earnings per share weighted average shares	8,168	8,054
Net effect of dilutive stock options	425	400
Diluted earnings per share weighted average shares	8,593	8,454
Basic earnings per share	\$ 0.32	\$ 0.58
Diluted earnings per share	\$ 0.31	\$ 0.56

7) Supplemental Retirement Plan and Related Post Retirement Benefits

The Company has a non-qualified supplemental retirement defined benefit plan for certain executives. The following table sets forth information regarding the net periodic pension cost for the plan.

(in thousands)	Three Months Ended	
	March 29, 2008	March 31, 2007
Service cost	\$ 12	\$ 10
Interest cost	89	80
Amortization of prior service cost	27	27
Amortization of net actuarial losses	7	1
Net periodic cost	\$ 135	\$ 118

Participants in the non-qualified supplemental retirement plan are entitled to paid medical, dental and long-term care insurance benefits upon retirement under the plan. The following table sets forth information regarding the net periodic cost recognized for those benefits:

(in thousands)	Three Months Ended	
	March 29, 2008	March 31, 2007
Service cost	\$ 2	\$ 2
Interest cost	12	11
Amortization of prior service cost	8	8

Amortization of net actuarial losses	2	2
Net periodic cost	\$ 24	\$ 23

8) Income Taxes

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB Statement No. 109 (FIN 48), which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. The Company is subject to the provisions of FIN 48 as of January 1, 2007, and has analyzed filing positions in all of the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. The Company believes that its income tax filing positions and deductions will be sustained on audit. Therefore, no reserves for uncertain income tax positions have been recorded pursuant to FIN 48, and, the Company was not required to record a cumulative effect adjustment related to the adoption of FIN 48.

Table of Contents

In the future, should the Company need to accrue a liability for unrecognized tax benefits, any interest associated with that liability will be recorded as interest expense. Penalties, if any, would be recognized as operating expenses. There are no penalties or interest liability accrued as of March 29, 2008. In years previous, any interest and penalties were insignificant and recorded as income tax expense. The years under which we conducted our evaluation coincided with the tax years currently still subject to examination by major federal and state tax jurisdictions, those being 2007, 2006, 2005 and 2004.

Prior to the adoption of FIN 48, the Company recorded accruals for tax contingencies and related interest when it was probable that a liability had been incurred and the amount of the contingency could be reasonably estimated based on specific events such as an audit or inquiry by a taxing authority.

9) Sales To Major Customers

The Company has a significant concentration of business with two customers. Sales to Panasonic Avionics Corporation amounted to approximately 26% and 29% of revenue during the first quarter 2008 and 2007, respectively. Accounts receivable from this customer amounted to \$3.7 and \$4.0 million as of March 29, 2008 and December 31, 2007, respectively.

Sales to Air Canada amounted to approximately 2% and 12% of revenue during the first quarter 2008 and 2007, respectively.

10) Product Warranties

In the ordinary course of business, the Company warrants its products against defects in design, materials and workmanship typically over periods ranging from twelve to sixty months. The Company determines warranty reserves needed by product line based on experience and current facts and circumstances. Activity in the warranty accrual is summarized as follows:

	Three Months Ended March	
(in thousands)	29, 2008	March 31, 2007
Balance at beginning of period	\$ 1,164	\$ 823

Warranties settled	(198)	(64)
Balance at end of period	\$ 1,096	\$ 1,131

11) Long Term Debt and Notes Payable

Long-term debt consists of the following:

	March 29, 2008	December 31, 2007
(In thousands)		
Note Payable at Canadian Prime payable \$15 monthly through 2016 plus interest (Canadian prime was 5.25% and 6.00% at March 29, 2008 and December 31, 2007, respectively)	\$ 1,368	\$ 1,438
Series 1998 Industrial Revenue Bonds issued through the Business Finance Authority of the State of New Hampshire payable \$400 annually through 2018 with interest reset weekly (2.4% and 3.65% at March 29, 2008 and December 31, 2007, respectively)	4,450	4,450
Series 1999 Industrial Revenue Bonds issued through the Erie County, New York Industrial Development Agency payable \$350 annually through 2019 with interest reset weekly (2.4% and 3.55% at March 29, 2008 and December 31,	3,645	3,645

2007, respectively)

Series 2007 Industrial Revenue Bonds issued through the Erie County, New York Industrial Development Agency payable \$260 in 2010 and \$340 from 2011 through 2027 with interest reset weekly (2.0% and 3.55% at March 29, 2008 and December 31, 2007, respectively)

Other	6,000	6,000
	96	102
	15,559	15,635
Less current maturities	946	951
	\$ 14,613	\$ 14,684

Table of Contents

Principal maturities of long-term debt are approximately \$1.0 million in 2008 and 2009, \$1.2 million in 2010 and \$1.3 million in 2011 thru 2012.

The Industrial Revenue Bonds are held by institutional investors and are guaranteed by a bank letter of credit, which is collateralized by certain property, plant and equipment assets, the carrying value of which approximates the principal balance on the bonds. The Company has a standby unsecured bank letter of credit guaranteeing the note payable in Canada, the carrying value of which approximates the principal balance on the note.

At March 29, 2008 the Company had \$6.3 million outstanding on its revolving \$25 million credit facility; interest at bank prime less up to 25 basis points or LIBOR plus between 87.5 and 175 basis points. The Company is also required to pay a commitment fee of between 0.125% and 0.30% on the unused portion of the line limit borrowing availability for the previous quarter. The Company may allocate up to \$0.5 million of its availability for the issuance of new letters of credit. March 29, 2008, the Company had available \$18.7 million on the facility. This credit facility is collateralized by accounts receivable and inventory. The Company believes it will continue to be compliant in the future with all the credit facility covenants.

12) New Accounting Pronouncements

In December 2007, the FASB issued SFAS No. 141(revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R provides revised guidance on how acquirors recognize and measure the consideration transferred, identifiable assets acquired, liabilities assumed, non-controlling interests, and goodwill acquired in a business combination. SFAS No. 141R also expands required disclosures surrounding the nature and financial effects of business combinations. SFAS No. 141R is effective, on a prospective basis, for fiscal years beginning after December 15, 2008. Absent an acquisition, the Company believes that SFAS No. 141R will have no impact on its consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, Disclosures About Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 expands quarterly disclosure requirements in SFAS No. 133 about an entity's derivative instruments and hedging activities. SFAS No. 161 is effective for fiscal years beginning after November 15, 2008. The Company is currently assessing the impact SFAS No. 161 will have on its financial statement disclosures.

Table of Contents**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

(The following should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations contained in the Company's Form 10-K for the year ended December 31, 2007.)

The following table sets forth income statement data as a percent of net sales:

	Three Months Ended	
	March 29, 2008	March 31, 2007
Sales	100.0%	100.0%
Cost of products sold	79.3	72.8
Gross Profit	20.7	27.2
Selling, general and administrative and other expense	10.3	10.0
Interest expense	0.5	0.7
Total Selling, general and administrative, interest and other expense	10.8	10.7
Income before taxes	9.9%	16.5%

SALES

Sales for the first quarter of 2008 decreased 4.2% to \$41.1 million compared to \$42.9 million for the same period last year. In general the overall aerospace markets continue to be strong. Sales to the commercial transport market were \$23.9 million, compared to \$28.6 million for the same period of 2007, a decrease of \$4.7 million or 16.5%. The decrease was a result of lower demand by global commercial airlines for in-flight entertainment systems and in-seat power systems that utilize our cabin electronics technology. Sales to the business jet market were \$9.1 million, up \$1.3 million, or 17.6%, compared to sales of \$7.8 million for the same period in 2007. The increase was due primarily to increased production rates for new programs such as the Eclipse 500. Sales to the military market were \$7.8 million compared to \$6.2 million last year, an increase of \$1.6 million or 26.0%. The increase was primarily caused by increased volume related to new build aircraft as well as increased military spares shipments as compared with the same period last year.

EXPENSES AND MARGINS

Cost of products sold as a percentage of sales increased to 79.3% for the first quarter of 2008 as compared to 72.8% for the same period last year. The decreased margins were the result of decreased operating leverage caused by lower sales volume and increased infrastructure costs to increase capacity, product mix and a \$1.5 million increase to engineering and development expenses which are reflected in cost of products sold.

Selling, general and administrative and other (SG&A) expenses were \$4.2 million in the first quarter of 2008, down from \$4.3 million in the same period last year. As a percent of sales, SG&A expense was 10.3% for the first quarter of 2008 as compared to 10.0% for the same period in 2007 as sales decreased with SG&A remaining relatively flat. Net interest expense for the first quarter of 2008 was \$0.2 million compared to 2007 which was \$0.3 million. Net interest expense decreased due primarily to lower interest rates and debt levels compared to prior years.

TAXES

The effective income tax rate for the first quarter of 2008 was 35.0% compared to 33.7% last year. The change in the effective rate in 2008 was due primarily to increases in permanent differences which do not provide tax benefits and

increases in foreign and state taxes.

NET INCOME AND EARNINGS

Net income for the first quarter of 2008 was \$2.6 million or \$0.31 per diluted share, a decrease of \$2.1 million from \$4.7 million, or \$0.56 per diluted share in the first quarter of 2007. The earnings per share decrease is due primarily to the decrease in net income and was not significantly impacted by a change in shares outstanding.

Table of Contents

LIQUIDITY

Cash used for operating activities totaled \$0.3 million during the first three months of 2008, as compared with \$3.5 million of cash used by operations during the first three months of 2007. The change was due primarily to the change in net income being offset by changes in the investment in net working capital components.

Cash used in investing activities was \$1.0 million in the first three months of 2008, a decrease of \$2.1 million when compared to \$3.1 million used in the first three months of 2007. This decrease was primarily due to the 2007 facility expansion in East Aurora, NY.

In the first three months of 2008 cash used by financing activities totaled \$0.3 million. During the quarter, the Company paid down its net borrowings from its revolving credit facility \$1.0 million.

Our expectation for 2008 is that capital equipment expenditures will approximate \$6.0 million to \$8.0 million. Future capital requirements depend on numerous factors, including expansion of existing product lines and introduction of new products. Management believes that the Company's cash flow from operations and revolving credit facility will be sufficient to provide funding for future capital requirements.

BACKLOG

The Company's backlog at March 29, 2008 was \$97.1 million compared with \$97.0 million at March 31, 2007.

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

The Company's contractual obligations and commercial commitments have not changed materially from disclosures in the Company's Form 10-K for the year ended December 31, 2007.

MARKET RISK

Risk due to fluctuation in interest rates is a function of the Company's floating rate debt obligations, which total approximately \$21.9 million at March 29, 2008 and \$22.9 million at December 31, 2007. To offset this exposure, the Company entered into an interest rate swap in February 2006, on its Series 1999 New York Industrial Revenue Bond which effectively fixes the rate at 3.99% on this \$3.6 million obligation through January 2016. As a result, a change of 1% in interest rates would impact annual net income by approximately \$0.1 million.

There have been no material changes in the current year regarding the market risk information for its exposure to currency exchange rates. The Company believes it has limited exposure to fluctuation in Canadian currency exchange rates to the U.S. dollar.

Refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2007 for a complete discussion of the Company's market risk.

CRITICAL ACCOUNTING POLICIES

Refer to the Company's annual report on Form 10-K for the year ended December 31, 2007 for a complete discussion of the Company's critical accounting policies. Other than the adoption of SFAS No. 157, Fair Value Measurements and SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, (see Note 1 of the Notes to Consolidated Financial Statements) there have been no significant changes in the current year regarding critical accounting policies.

RECENT ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS No. 141(revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R provides revised guidance on how acquirors recognize and measure the consideration transferred, identifiable assets acquired, liabilities assumed, non-controlling interests, and goodwill acquired in a business combination. SFAS No. 141R also expands required disclosures surrounding the nature and financial effects of business combinations. SFAS No. 141R is effective, on a prospective basis, for fiscal years beginning after December 15, 2008. Absent an acquisition, the Company believes that SFAS No. 141R will have no impact on its consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, Disclosures About Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 expands quarterly disclosure requirements in SFAS No. 133 about an entity's derivative instruments and hedging activities. SFAS No. 161 is effective for fiscal years beginning after November 15, 2008. The Company is currently assessing the impact SFAS No. 161 will have on its financial statement disclosures.

FORWARD-LOOKING STATEMENTS

This Quarterly Report contains certain forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involves uncertainties and risks. These statements are identified by the use of the words believes, expects, intends, anticipates, may, will, estimate, potential and words of similar import cautioned not to place undue reliance on these forward looking statements as various uncertainties and risks could cause actual results to differ materially from those anticipated in these statements. These uncertainties and risks include the success of the Company with effectively executing its plans; the timeliness of product deliveries by vendors and other vendor performance issues; changes in demand for our products from the U.S. government and other customers; the acceptance by the market of new products developed; our success in cross-selling products to different customers and markets; changes in government contracts; the state of the commercial and business jet aerospace market; the Company's success at increasing the content on current and new aircraft platforms; the level of aircraft build rates; as well as other general economic conditions and other factors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

See Market Risk in Item 2, above.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of March 29, 2008. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 29, 2008.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings.**

None.

Item 1a Risk Factors.

In addition to other information set forth in this report, you should carefully consider the factors discussed in Part 1, Item 1A. Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or results of operations. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or results of operations.

The Company has a significant concentration of business with Panasonic Avionics Corporation. A significant reduction in sales would negatively impact our sales and earnings. We provide Panasonic with cabin electronics products which, in total were approximately 26% of revenue during the 1st quarter of 2008.

Item 2. Unregistered sales of equity securities and use of proceeds.

(c) The following table summarizes the Company's purchases of its common stock for the quarter ended March 29, 2008:

Period	(a) Total number of shares Purchased	(b) Average Price Paid per Share	(c) Total number of shares Purchased as part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 January 26, 2008				432,956
January 27 February 23, 2008				432,956
February 24 March 29, 2008				432,956
Total				432,956

Item 3. Defaults Upon Senior Securities
