**PROXY STATEMENT
FOR 2009 ANNUAL MEETING OF STOCKHOLDERS**

This Proxy Statement, the accompanying proxy card and the Annual Report to Stockholders of Teledyne are being mailed on or about March 18, 2009. The Board of Directors of Teledyne is soliciting your proxy to vote your shares at the 2009 Annual Meeting of Stockholders. The Board is soliciting your proxy to give all stockholders of record the opportunity to vote on matters that will be presented at the Annual Meeting. This Proxy Statement provides you with information on these matters to assist you in voting your shares.

VOTING PROCEDURES

Who May Vote

If you were a stockholder at the close of business on March 2, 2009, you may vote at the Annual Meeting. On that day, there were 36,019,970 shares of our common stock outstanding.

Each share is entitled to one vote. In order to vote, you must either designate a proxy to vote on your behalf or attend the meeting and vote your shares in person. Our Board of Directors requests your proxy so that your shares will count toward determination of the presence of a quorum and your shares can be voted at the meeting.

Methods of Voting

All stockholders of record may vote by transmitting their proxy cards by mail. Stockholders of record can also vote by telephone or Internet. Stockholders who hold their shares through a bank or broker can vote by telephone or Internet if their bank or broker offers those options.

By Mail. Stockholders of record may complete, sign, date and return their proxy cards in the postage-paid envelope provided. If you sign, date and return your proxy card without indicating how you want to vote, your proxy will be voted as recommended by the Board of Directors.

By Telephone or Internet. Stockholders of record may vote by using the toll-free number or Internet website address listed on the proxy card. Please see your proxy card for specific instructions.

Revoking Your Proxy

You may change your mind and revoke your proxy at any time before it is voted at the meeting by:

sending a written notice to the Secretary for receipt prior to the meeting that you revoke your proxy;

transmitting a proxy dated later than your prior proxy either by mail, telephone or Internet; or

attending the Annual Meeting and voting in person or by proxy (except for shares held in the employee benefit plan).

Voting By Employee Benefit Plan Participants

Participants who hold common stock in the Teledyne Technologies Incorporated 401(k) Plan may instruct the plan trustee how to vote the shares of common stock allocated to their accounts. You may either (1) sign and return the voting instruction card provided by the plan or (2) transmit your instructions by telephone or Internet. If you do not

transmit instructions by 11:59 p.m. (Eastern Time), on April 17, 2009, your shares will not be voted by the plan trustee, except as otherwise required by law.

Table of Contents

Voting Shares Held By Brokers, Banks and Other Nominees

Votes will be counted by the inspector of election appointed for the meeting, who will separately count For and Withhold and, with respect to any proposals other than the election of directors, Against votes, abstentions and broker non-votes. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary voting power with respect to that proposal and has not received instructions with respect to that proposal from the beneficial owner, despite voting on at least one other proposal for which it does have discretionary authority or for which it has received instructions. Abstentions will be counted towards the vote total for each proposal, and will have the same effect as Against vote for proposals other than the election of directors. For the election of directors abstentions will have no effect. Broker non-votes have no effect and will not be counted towards the vote total for any proposal. Abstentions and broker non-votes will be included in determining the presence of a quorum.

If your shares are held by your broker, bank or other agent as your nominee (that is, in street name), you will need to obtain a proxy form from the institution that holds your shares and follow the instructions included on that form regarding how to instruct your broker, bank or other agent to vote your shares. If you do not give instructions to your broker, bank or other agent, they can vote your shares with respect to discretionary items, but not with respect to non-discretionary items. Discretionary items are proposals considered routine under the rules of the New York Stock Exchange on which your broker, bank or other agent may vote shares held in street name in the absence of your voting instructions, and include the election of directors (Item 1) and the ratification of the selection of our independent auditors (Item 2). On non-discretionary items for which you do not give instructions to your broker, bank or other agent, the shares will be treated as broker non-votes.

Confidential Voting Policy

We maintain a policy of keeping stockholder votes confidential.

BOARD COMPOSITION AND PRACTICES

Information and Meetings

The Board of Directors directs the management of the business and affairs of the Company as provided in our Amended and Restated Bylaws and pursuant to the laws of the State of Delaware. Except for Dr. Robert Mehrabian, our Chairman, President and Chief Executive Officer, the Board is not involved in day-to-day operations. Members of the Board keep informed about our business through discussions with the senior management and other officers and managers of the Company and its subsidiaries, by reviewing information provided to them, and by participating in Board and committee meetings.

We encourage, but do not require, that all our directors attend all meetings of the Board of Directors, all committee meetings on which the directors serve and the annual stockholders meeting. In 2008, the Board of Directors held nine meetings and acted one time by unanimous written consent. During 2008, all directors attended at least 75% of the aggregate number of meetings of the Board that were held when they were members and at least 75% of the aggregate number of meetings of the Board committees of which they were members. All of the current directors attended the 2008 Annual Meeting of Stockholders.

Number of Directors

The Board of Directors determines the number of directors, which under our Amended and Restated By-laws must consist of not less than four members and not more than 10 members. The Board has currently fixed the number at 10

members, which number will be reduced to nine upon the retirement of Robert P. Bozzone at the 2009 Annual Meeting of Stockholders.

Table of Contents

Director Terms

The directors are divided into three classes and the directors in each class serve for a three-year term. The term of one class of directors expires each year at the Annual Meeting of Stockholders. The Board may fill a vacancy by electing a new director to the same class as the director being replaced. The Board may also create a new director position in any class and elect a director to hold the newly created position until the term of the class expires.

Directors Retirement Policy

On June 1, 2000, we adopted a retirement policy for directors. This policy, as amended, generally requires directors to retire at the Annual Meeting following their 75th birthday. This policy also requires a director to offer to tender his or her resignation if such director has a change in professional status. On January 22, 2008, the Board granted a waiver to the retirement policy through the 2011 Annual Meeting to Mr. Cahouet, who turned 75 in 2007.

Executive Sessions and Lead Director

Our non-management directors meet in executive session without management on a regularly scheduled basis. Committee chairs rotate as presiding director in such sessions. The Board has formally designated Frank V. Cahouet, one of our independent directors, to serve as the lead director under circumstances when the Chairman, President and Chief Executive Officer is unable to perform the duties of that office.

CORPORATE GOVERNANCE

Director Independence

In April 2008, our Nominating and Governance Committee assessed, and our Board of Directors determined, the independence of each director in accordance with the then existing rules of the New York Stock Exchange and the Securities and Exchange Commission. In order to comply with such items, our Nominating and Governance Committee considered various relationship categories including: whether the director is an employee, amount of stock ownership and commercial, industrial, banking, consulting, legal, accounting or auditing, charitable and familial relationships, as well as a range of individual circumstances. Our Nominating and Governance Committee and the Board also considered our relationship and the relationship of the director to ATI, from which we were spun-off in November 1999. See *Certain Transactions* at page 51. The Board did consider that certain directors consider themselves to be social friends. As a result, the Nominating and Governance Committee, followed by the Board, determined that each member of our Board of Directors did not have any material relationships with us and was thus independent, with the exception of Dr. Mehrabian, our Chairman, President and Chief Executive Officer. Our management, after reviewing director questionnaires, reported to our Board in February 2009 that information on which the board based its independence assessment in April 2008 has not materially changed. The independent directors by name are: Roxanne S. Austin, Robert P. Bozzone, Frank V. Cahouet, Charles Crocker, Kenneth C. Dahlberg, Simon M. Lorne, Paul D. Miller, Michael T. Smith and Wesley W. von Schack.

The Nominating and Governance Committee, followed by the Board, also determined that each member of our Personnel and Compensation Committee is an outside director within the meaning of Rule 162(m) of the Internal Revenue Code and are non-management directors within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934.

All of the Board's standing committees consist only of independent directors.

Corporate Governance and Ethics Guidelines

At the time we became a public company in 1999, our Board of Directors adopted many best practices in the area of corporate governance, including separate standing committees of the Board for each of audit, nominating and governance and personnel and compensation matters, charters for each of the committees, and corporate ethics and compliance guidelines.

Our ethics and compliance guidelines for employees are contained in the Corporate Objectives and Guidelines for Employee Conduct. These guidelines apply to all our employees, including our principal executive, financial and accounting officers. Our employees receive annual ethics training and questionnaires are distributed annually to various personnel in an effort to confirm compliance with these guidelines. It is our policy not to waive compliance with these guidelines. We also have a specialized code of ethics for financial executives that supplements the employee guidelines. In addition, we have ethics and compliance guidelines for our service providers.

In July 2007, our Board of Directors adopted a code of business conduct and ethics for directors. This code is intended to provide guidance to directors to help them recognize and deal with ethical issues, including conflicts of interest, corporate opportunities, fair dealing, compliance with law and proper use of the company's assets. It also provides mechanisms to report possible unethical conduct.

Our Board of Directors has adopted Corporate Governance Guidelines. These Corporate Governance Guidelines were initially developed by our Nominating and Governance Committee and are reviewed at least annually by such Committee. These Corporate Governance Guidelines incorporate practices and policies under which our Board has operated since its inception, in addition to many of the requirements of the Sarbanes-Oxley Act of 2002 and the New York Stock Exchange. Some of the principal subjects covered by the Corporate Governance Guidelines include:

Director qualification standards.

Director responsibilities.

Director access to management and independent advisors.

Director compensation.

Director orientation and continuing education.

Management succession.

Annual performance evaluation of the Board and Committees.

Copies of our Corporate Governance Guidelines, our Corporate Objectives and Guidelines for Employee Conduct, our codes of ethics for directors, financial executives and service providers and our committee charters are available on our website at www.teledyne.com. We intend to post any amendments to these policies, and any waivers of the provisions thereof related to directors or executive officers, on our website. If at any time you would like to receive a paper copy, free-of-charge, please write to John T. Kuelbs, Executive Vice President, General Counsel and Secretary, Teledyne Technologies Incorporated, 1049 Camino Dos Rios, Thousand Oaks, California 91360.

Sarbanes-Oxley Disclosure Committee

In September 2002, we formally constituted the Sarbanes-Oxley Disclosure Committee. Current members include: John T. Kuelbs, Executive Vice President, General Counsel and Secretary; Dale A. Schnittjer, Senior Vice President and Chief Financial Officer; Susan L. Main, Vice President and Controller; Stephen F. Blackwood, Vice President and Treasurer; Ivars R. Blukis, Chief Business Risk Assurance Officer; Robyn E.

Table of Contents

McGowan, Vice President, Administration and Human Resources and Assistant Secretary; Melanie S. Cibik, Vice President, Associate General Counsel and Assistant Secretary; Brian A. Levan, Director of External Financial Reporting and Assistant Controller; S. Paul Sassalos, Senior Corporate Counsel; and Jason VanWees, Vice President, Corporate Development and Investor Relations. Among its tasks, the Disclosure Committee discusses and reviews disclosure issues to help us fulfill our disclosure obligations on a timely basis in accordance with SEC rules and regulations and is intended to be used as an additional resource for employees to raise questions regarding accounting, auditing, internal controls and disclosure matters.

Since we became a public company in 1999, we have had a confidential Ethics/Help Line, where questions or concerns about us can be raised confidentially and anonymously. The Ethics/Help line is available to all of our employees, as well as concerned individuals outside the company. The toll-free help line number is 1-877-666-6968.

The receipt of concerns about our accounting, internal controls and auditing matters will be reported to the Audit Committee.

Communications with the Board

Our Corporate Governance Guidelines provide that any interested parties desiring to communicate with our non-management directors, including our lead director, may contact them through our Secretary, John T. Kuelbs, whose address is: Teledyne Technologies Incorporated, 1049 Camino Dos Rios, Thousand Oaks, California 91360.

ITEM 1 ON PROXY CARD ELECTION OF DIRECTORS

The Board of Directors has nominated for election this year the class of three incumbent directors whose terms expire at the 2009 Annual Meeting. The three-year term of the class of directors nominated and elected this year will expire at the 2012 Annual Meeting. The three individuals who receive the highest number of votes cast will be elected. Broker non-votes, if any, are included in determining the presence of a quorum at the Annual Meeting, but are not counted as votes cast.

If you sign and return your proxy card, the individuals named as proxies in the card will vote your shares for the election of the three named nominees, unless you provide other instructions. You may withhold authority for the proxies to vote your shares on any or all of the nominees by following the instructions on your proxy card. If a nominee becomes unable to serve, the proxies will vote for a Board-designated substitute or the Board may reduce the number of directors. The Board has no reason to believe that any nominee will be unable to serve.

Background information about the nominees and continuing directors follows.

COMMITTEES OF OUR BOARD OF DIRECTORS

Our Board of Directors has established an Audit Committee, a Nominating and Governance Committee and a Personnel and Compensation Committee. From time to time, our Board of Directors may establish other committees. Each of the Audit Committee, Nominating and Governance Committee and Personnel and Compensation Committee has a written charter that can be accessed on our website at www.teledyne.com.

Audit Committee

The members of the Audit Committee are:

Frank V. Cahouet, Chair
Roxanne S. Austin
Robert P. Bozzone
Kenneth C. Dahlberg
Simon M. Lorne
Paul D. Miller

The Audit Committee held six meetings in 2008.

The primary purpose of the Audit Committee is to assist the Board's oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, the qualification and the independence of our independent auditor, and the performance of our internal audit function and independent auditor. As provided in its charter, the Audit Committee is directly responsible for the appointment, retention, compensation, oversight, evaluation and termination of our independent auditor (including resolving disagreements between management and the independent auditor regarding financial reporting). The Audit Committee has been designated as the qualified legal compliance committee. In carrying out its responsibilities, the Audit Committee undertakes to do many things, including:

Retain and approve the terms of the engagement and fees to be paid to the independent auditor.

Evaluate the performance of the independent auditor.

Receive written periodic reports from the independent auditor delineating all relationships between the independent auditor and us.

Review with the independent auditor any problems or difficulties the independent auditor may have encountered and any management letter provided by the independent auditor and our response to that letter.

Review our annual audited financial statements and the report thereon and quarterly unaudited financial statements with the independent auditor and management prior to publication of such statements.

Discuss with management the earnings press releases (including the type of information and presentation of information).

Review major issues regarding accounting principles and financial statement presentations and judgments made in connection with the preparation of our financial statements.

Meet periodically with management to review our financial risk exposures and the steps management has taken to monitor and control such exposures.

Review with our General Counsel legal matters that may have a material impact on the financial statements, our compliance policies and any material reports or inquiries received from regulators or governmental agencies.

While reviewed annually, the charter of the Audit Committee was last amended and restated on December 11, 2007. The Audit Committee charter provides that our senior internal auditing executive reports directly and separately to the Chair of the Audit Committee and the Chief Executive Officer. As required by the charter, our Audit Committee also has established procedures for the receipt, retention and treatment of complaints regarding accounting, internal controls and auditing matters. See Corporate Governance Sarbanes-Oxley Disclosure Committee at page 4.

The Audit Committee meets the size, independence and experience requirements of the New York Stock Exchange, including the enhanced independence requirements for Audit Committee members under Exchange Act Rule 10A-3. The Board of Directors has determined that Frank V. Cahouet is an audit committee financial expert within the meaning of the SEC regulations and all of the members are independent and financially literate under the New York Stock Exchange listing standards. Our Corporate Governance Guidelines provides that no director may serve as a member of the Audit Committee if such director serves on the audit committees of more than two other public companies unless the Board determines that such simultaneous service would not impair the ability of such director to effectively serve on the Audit Committee. Any such determination must be disclosed in the annual proxy statement. Besides our Audit Committee, Ms. Austin and Mr. Smith simultaneously serve on the audit committee of two other public companies and each of Mr. Crocker and Admiral Miller simultaneously serve on the audit committee of one other public company.

The report of the Audit Committee is included under Item 2 on Proxy Card Ratification of Appointment of Independent Registered Public Accounting Firm at page 14.

Nominating and Governance Committee

The members of the Nominating and Governance Committee are:

Michael T. Smith, Chair
Roxanne S. Austin
Frank V. Cahouet
Charles Crocker
Simon M. Lorne
Paul D. Miller
Wesley W. von Schack

The Nominating and Governance Committee held four meetings in 2008.

The Nominating and Governance Committee undertakes to:

Identify individuals qualified to become members of the Board of Directors and to make recommendations to the Board of Directors with respect to candidates for nomination for election at the next annual meeting of stockholders or at such other times when candidates surface and, in connection therewith, consider suggestions submitted by our stockholders.

Develop and recommend to the Board of Directors corporate governance guidelines.

Determine and make recommendations to the Board of Directors with respect to the criteria to be used for selecting new members of the Board of Directors.

Oversee the annual process of evaluation of the performance of our Board of Directors and committees.

Make recommendations to the Board of Directors concerning the membership of committees of the Board and the chairpersons of the respective committees.

Table of Contents

Make recommendations to the Board of Directors with respect to the remuneration paid and benefits provided to members of the Board in connection with their service on the Board or on its committees.

Administer our formal compensation programs for directors, including the administrative rules relating to non-employee director equity compensation under the 2008 Incentive Award Plan.

Make recommendations to the Board of Directors concerning the composition, organization and operations of the Board of Directors and its committees, including the orientation of new members and the flow of information.

Evaluate Board and committee tenure policies as well as policies covering the retirement or resignation of incumbent directors.

Evaluate proposals of stockholders intended to be presented at stockholder meetings.

While reviewed annually, the charter of the Nominating and Governance Committee was last amended and restated on December 11, 2007. The members of the Nominating and Governance Committee are independent under the New York Stock Exchange listing standards.

The Nominating and Governance Committee will consider stockholder recommendations for nominees for director. Any stockholders interested in suggesting a nominee should follow the procedures outlined in Other Information 2010 Annual Meeting and Stockholder Proposals at page 53.

The Nominating and Governance Committee utilizes a variety of methods for identifying and evaluating all nominees for directors. The Committee periodically assesses the appropriate size of the Board and whether vacancies on the Board are expected due to retirement, change in professional status or otherwise. Candidates may come to the attention of the Committee through current Board members, members of our management, stockholders and other persons. The Committee to date has not engaged a professional search firm. Candidates are evaluated at meetings of the Committee and may be considered at any point during the year. As stated in the Corporate Governance Guidelines, nominees for director are to be selected on the basis of, among other criteria, experience, knowledge, skills, expertise, integrity, diversity, ability to make analytical inquiries, understanding of or familiarity with our business products or markets or similar business products or markets, and willingness to devote adequate time and effort to Board responsibilities. The Committee may establish additional criteria and is responsible for assessing the appropriate balance of criteria required of Board members.

Personnel and Compensation Committee

The members of the Personnel and Compensation Committee are:

Charles Crocker, Chair
Robert P. Bozzone
Kenneth C. Dahlberg
Michael T. Smith
Wesley W. von Schack

The Personnel and Compensation Committee held four meetings in 2008.

The Personnel and Compensation Committee's principal authority and responsibilities include:

Making recommendations to the Board of Directors concerning executive management organization matters generally.

In the area of compensation and benefits, making recommendations to the Board of Directors concerning employees who are also directors, consulting with the Chief Executive Officer on matters

relating to other executive officers, and making recommendations to the Board of Directors concerning policies and procedures relating to executive officers; provided, however, that the Committee shall have full decision-making powers with respect to compensation for executive officers to the extent such compensation is intended to be performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code.

Making recommendations to the Board of Directors regarding all contracts with any officer for remuneration and benefits (whether in the form of a pension, deferred compensation or otherwise) after termination of regular employment of such officer.

Making recommendations to the Board of Directors concerning policy matters relating to employee benefits and employee benefit plans, including incentive compensation plans and equity based plans.

Overseeing our formal incentive compensation programs, including equity-based plans.

Serving as Named Fiduciary under the Employee Retirement Income Security Act of 1974, as amended (ERISA), of all employee benefit plans, as defined in Section 3(3) of ERISA, maintained by us with respect to both plan administration and control and management of plan assets.

While reviewed annually, the charter of the Personnel and Compensation Committee was last amended and restated on December 13, 2006. The members of the Personnel and Compensation Committee are independent under the New York Stock Exchange listing standards.

Our Chief Executive Officer works with the Personnel and Compensation Committee Chair, our Vice President of Administration and Human Resources and the Office of the Corporate Secretary in establishing the agenda for the Committee and makes compensation recommendations for the named executives (other than himself). The Personnel and Compensation Committee's Chair reports the committee's recommendations on executive compensation to the Board. The Personnel and Compensation Committee has the authority, under its charter, to obtain advice and assistance from internal or external legal, accounting or other advisors. The Personnel and Compensation Committee has the sole authority and resources to retain and terminate any compensation consultant to be used to assist in the evaluation of Chief Executive Officer or other executive compensation and has sole authority to approve the consultant's fees and other retention terms. As discussed below under Compensation Discussion and Analysis, the Committee has retained Hewitt Associates LLC and Watson Wyatt Company to assist the Committee in fulfilling its responsibilities in 2008. The Personnel and Compensation Committee may delegate its responsibility to control and manage the plan assets of our employee benefit plans. In addition, under the terms of our stock incentive plans, the Personnel and Compensation Committee may delegate its powers and authority under the stock incentive plan as it deems appropriate to a subcommittee and/or designated officers and, as discussed below under Compensation Discussion and Analysis, the Personnel and Compensation Committee has made a limited delegation of authority to grant stock options to our Chief Executive Officer pursuant to this authority.

The 2008 Report of the Personnel and Compensation Committee is included under Executive and Director Compensation at page 33.

**ITEM 2 ON PROXY CARD
RATIFICATION OF APPOINTMENT OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee has appointed Ernst & Young LLP as our independent registered public accounting firm for fiscal 2009. Ernst & Young LLP has served as our independent registered public accounting firm since the November 29, 1999 spin-off. The firm had also served as the independent registered public accounting firm for ATI and its predecessors since 1980. The Audit Committee believes that Ernst & Young LLP is knowledgeable about our operations and accounting practices and is well qualified to act in the capacity of independent registered public accounting firm.

Although the appointment of an independent registered public accounting firm is not required to be approved by the stockholders, the Audit Committee and the Board of Directors believe that stockholders should participate in such selection through ratification. The proposal to ratify the Audit Committee's appointment of Ernst & Young LLP will be approved by the stockholders if it receives the affirmative vote of a majority of the shares present in person or represented by proxy at the meeting and entitled to vote on the proposal. If you sign and return your proxy card, your shares will be voted (unless you indicate to the contrary) to ratify the selection of Ernst & Young LLP as our independent registered public accounting firm for 2009. If you specifically abstain from voting on the proposal, your shares will, in effect, be voted against the proposal. Broker non-votes, if any, are included in determining the presence of a quorum at the Annual Meeting, but will not be counted as being entitled to vote on the proposal and will not affect the outcome of the vote. If the stockholders do not ratify the selection of Ernst & Young LLP, the Audit Committee will reconsider the appointment of an independent registered public accounting firm. It is expected that representatives of Ernst & Young LLP will be present at the meeting and will have an opportunity to make a statement and respond to appropriate questions.

Total	\$ 2,476.2	\$ 2,516.1
Total Audit and Audit-Related Fees	\$ 2,467.2	\$ 2,413.2

(1) Aggregate fees billed for professional services rendered for the audit of our annual financial statements and for the reviews of financial statements included in our quarterly reports on Form 10-Q and accounting consultations on matters reflected in the financial statements.

(2) For 2008 tax fees related to a review of research and development tax credits. For 2007 tax fees primarily related to a review of research and development tax credits and advisory services for our subsidiaries in the United Kingdom.

(3) All other fees in 2008 and 2007 related to our access to Ernst & Young's online accounting reference library.

Audit Committee Pre-Approval Policies

In October 2002, our Audit Committee adopted guidelines relating to the rendering of services by external auditors. The guidelines require the approval of the Audit Committee prior to retaining any firm to perform any Audit Services.

Audit Services include the services necessary to audit our consolidated financial statements for a specified fiscal year and the following audit and audit-related services: (a) Statement on Auditing Standards No. 71 quarterly review

services; (b) regulatory and employee benefit plan financial statement audits; and (c) compliance and statutory attestation services for our subsidiaries. Subject to limited exceptions, the guidelines further provide that the Audit Committee must pre-approve the engagement of Ernst & Young LLP to provide any services other than Audit Services. The Chair of the Audit Committee may, however, pre-approve the engagement of Ernst & Young LLP for such non-audit services to the extent the fee is reasonably expected to be less than \$150,000. If the fee for any non-audit services is reasonably expected to be \$250,000 or more, we must seek at least one competing bid from another firm prior to engaging Ernst & Young LLP, unless there are exceptional circumstances or if it relates to the public offering of our securities. The guidelines prohibit us from engaging Ernst & Young LLP to perform any of the following non-audit services or other services that the Public Company Accounting Oversight Board determines by regulation to be prohibited: bookkeeping or other services related to accounting records or financial statements; financial information systems design and implementation; appraisal or valuation services, fairness opinions, or contribution-in-kind reports; actuarial services; internal auditing outsourcing services; management functions or

human resources; broker or dealer, investment advisor, or investment banking services; or legal services and expert services unrelated to the audit.

For 2008, all audit and non-audit services rendered by Ernst & Young LLP were pre-approved in accordance with our guidelines.

In making its recommendation to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending January 3, 2010, the Audit Committee considered whether the provision of non-audit services by Ernst & Young LLP is compatible with maintaining Ernst & Young LLP's independence.

AUDIT COMMITTEE REPORT

The following report of the Audit Committee is included in accordance with the rules and regulations of the Securities and Exchange Commission. It is not incorporated by reference into any of our registration statements under the Securities Act of 1933.

Report of the Audit Committee

The following is the report of the Audit Committee with respect to the audited financial statements for the fiscal year ended December 28, 2008 (the Financial Statements) of Teledyne Technologies Incorporated and its consolidated subsidiaries (the Company).

The responsibilities of the Audit Committee are set forth in the Audit Committee Charter, as amended and restated as of December 11, 2007, which has been adopted by the Board of Directors. The Audit Committee is comprised of six directors. The Company's Board of Directors has determined that each of the members of the Audit Committee is independent in accordance with the applicable rules of the New York Stock Exchange. The Board of Directors has also determined that at least one director has financial management expertise under New York Stock Exchange listing standards and that Frank V. Cahouet is an audit committee financial expert within the meaning of the Securities and Exchange Commission regulations.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's internal controls and financial reporting process and the procedures designed to assure compliance with accounting standards and applicable laws and regulations. Ernst & Young LLP (Ernst & Young), the Company's independent registered public accounting firm, is responsible for performing an independent audit of the Company's Financial Statements and expressing an opinion as to their conformity with generally accepted accounting principles. The Audit Committee reviewed and discussed the Company's Financial Statements with management and Ernst & Young, and discussed with Ernst & Young the matters required to be discussed by Statement of Auditing Standards No. 61 (Codification of Statements on Auditing Standards, AU Section 380), as amended. The Audit Committee has received written disclosures and the letter from Ernst & Young required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young's communication with the Audit Committee concerning independence and has discussed with Ernst & Young its independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not, and do not represent themselves to be, performing the functions of auditors or accountants. Members of the Audit Committee may rely without independent verification on the information provided to them and on the representations made by management and Ernst & Young. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures

Table of Contents

designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that the Company's auditors are in fact independent.

Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that the Financial Statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 28, 2008 for filing with the Securities and Exchange Commission.

Submitted by the Audit Committee of the Board of Directors:

OTHER BUSINESS

We know of no business that may be presented for consideration at the meeting other than the two action items indicated in the Notice of Annual Meeting. If other matters are properly presented at the meeting, the persons designated as proxies in your proxy card may vote at their discretion.

Following adjournment of the formal business meeting, Dr. Robert Mehrabian, Chairman, President and Chief Executive Officer, will address the meeting and will hold a general discussion period during which the stockholders will have an opportunity to ask questions about our company and businesses.

Table of Contents**STOCK OWNERSHIP INFORMATION****Section 16(a) Beneficial Ownership Reporting Compliance**

The rules of the Securities and Exchange Commission require that we disclose late filings of reports of stock ownership (and changes in stock ownership) by our directors and statutory insiders. To the best of our knowledge, all of the filings for our directors and statutory insiders were made on a timely basis in 2008, except that in Form 4s filed on January 3, 2008, reporting the issuance of securities to directors on January 2, 2008, we inadvertently failed to report the issuance of shares of phantom stock to four of these directors: Charles Crocker, Simon Lorne, Paul D. Miller and Michael T. Smith. The issuances of the shares of phantom stock to these four directors were subsequently reported on amendments to their January 3, 2008, Form 4s which were filed on February 8, 2008.

Five Percent Owners of Common Stock

The following table sets forth the number of shares of our common stock owned beneficially by each person known to us to own beneficially more than five percent of our outstanding common stock. As of February 20, 2009, we had received notice that the individuals and entities listed in the following table are beneficial owners of five percent or more of our common stock. In general, beneficial ownership includes those shares that a person has the power to vote or transfer, and options to acquire common stock that are exercisable currently or within 60 days. As of February 20, 2009, we had 36,019,970 shares outstanding.

EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

Compensation Objectives

Our objective with respect to executive compensation is to attract and retain high quality executives and to align the interests of management with the interests of stockholders. To achieve this objective, our Personnel and Compensation Committee has determined that total compensation for executives will be comprised of three general characteristics:

It will be competitive in the aggregate, using a set of business and labor market competitors (by industry segment, as appropriate) to gauge the competitive marketplace.

It will be performance oriented, with a substantial portion of the total compensation tied to internal and external measures of performance.

It will promote long-term careers at Teledyne.

Personnel and Compensation Committee

The Personnel and Compensation Committee reviews and administers the compensation for the Chief Executive Officer and other members of senior management, including the named executive officers listed on the Summary Compensation Table beginning on page 34 of this Proxy Statement. In the case of the Chief Executive Officer, the compensation determination made by the Committee is reviewed by the entire Board. The Committee also oversees our employee benefit plans. The Committee is composed exclusively of non-employee, independent directors. The Committee has periodically retained compensation consultants, Hewitt Associates LLC and Watson Wyatt Company, to assist the Committee in fulfilling its responsibilities, and has done so in 2008. The principal services that Hewitt Associates LLC performs for Teledyne are related to executive compensation and are primarily in support of decision-making by the Committee. The principal services that Watson Wyatt Company performs for Teledyne are administration of Teledyne's pension and health and welfare plans and actuarial consulting. The Committee has also considered publicly available market and other data on executive compensation matters.

The Personnel and Compensation Committee has a written charter that delineates its responsibilities, a full copy of which is posted on our website at www.teledyne.com. Among other duties, the charter states that the Committee shall, at least annually, review and approve corporate goals and objectives relevant to Chief Executive Officer compensation, evaluate the Chief Executive Officer's performance in light of those goals and objectives, and recommend to the Board the Chief Executive Officer's compensation levels based on this evaluation. In determining the long-term incentive component of Chief Executive Officer compensation, the Committee considers corporate performance and relative shareholder return, the value of similar incentive awards to chief executive officers at comparable companies and the awards given to the Chief Executive Officer in past years. The charter also states that the Committee shall review and evaluate, on at least an annual basis, the performance of our executive officers and report to the Board concerning the results of its evaluation.

Our Chief Executive Officer works with the Personnel and Compensation Committee Chair, our Vice President of Administration and Human Resources and the Office of the Corporate Secretary in establishing the agenda for the Committee and makes compensation recommendations for the named executives (other than himself).

Table of Contents*Peer Group Comparisons*

The companies we use for comparative purposes are based for the most part on size and the industries in which we operate, specifically aerospace, electronics and systems engineering. Such peer group is not used for the purposes of the performance graph included in our Annual Report. The performance graph does compare our performance to the Russell 2000 Index, which is a performance measure under our long-term incentive compensation programs as discussed below. In order to provide industry specific data for those jobs not matched to positions in the peer group, data from other published survey sources was used as additional reference.

Our peer group is intended to be representative of companies of similar size to us in the industries in which we compete. Our peer group for 2008 compensation purposes was comprised of the following companies:

Ametek Inc.	Flir Systems, Inc.
CACI International, Inc.	Orbital Sciences Corporation
Crane Co.	PerkinElmer, Inc.
Curtiss-Wright Corporation	Roper Industries Inc.
DRS Technologies, Inc.	Teradyne Inc.
Esterline Technologies Corporation	Varian Inc.

Our peer group contains companies with average and median revenues of \$1.815 billion and \$1.780 billion, respectively, and average and median market capitalizations of \$2.915 billion and \$2.150 billion, respectively. The Committee generally sets compensation at levels above the median for our peer group in recognition that we compete with much larger companies for executive-level talent. The Committee also reviews data collected from a broader industry peer group consisting of 90 companies in order to understand what an executive with comparable responsibility to a company executive would earn in the broader industry. The companies in the general industry group have average and median revenues of \$2.502 billion and \$2.231 billion, respectively, and average and median market capitalizations of \$1.898 billion and \$1.833 billion, respectively.

Determining the Amount and Mix of Compensation

In determining both the amount and mix of compensation, the Committee, with assistance from Hewitt Associates, compared each named executive's pay to various market data points for that named executive's position and set compensation levels for salary, bonus and long-term compensation at levels that fall between the 50th percentile and 75th percentile of our peer group for each position. Mr. Kuelbs' compensation was above the 75th percentile for general counsels in the peer group and the general industry group used by us in recognition that his responsibilities exceed that of the typical industry general counsel—for example, he serves a leading role in negotiating our aircraft product liability insurance. Mr. Schnittjer's total compensation was slightly above the 75th percentile for chief financial officers in the peer group but between the 50th and 75th percentile for chief financial officers in the general industry group. Ms. Main's total compensation was paid at the median for controllers in a industry-specific survey database provided by Hewitt and approximated the 75th percentile of the general industry group.

Our compensation program is designed to balance our need to provide our executives with incentives to achieve our short-and long-term performance goals with the need to pay competitive base salaries. The Personnel and Compensation Committee will consider the amount of prior salary increases, stock option grants and restricted stock grants as a factor in determining compensation for the current period. At the time that 2008 compensation for named executives was approved by the Personnel and Compensation Committee, the

Table of Contents

allocation of compensation between base salary, estimated target bonus and estimated long-term compensation for our named executives was as follows:

	Robert Mehrabian	Dale A. Schnittjer	John T. Kuelbs	Aldo Pichelli	Susan L. Main
Base salary	24%	27%	29%	36%	32%
Estimated target bonus	40%	29%	29%	25%	25%
Estimated long-term compensation	36%	44%	42%	39%	43%

There is no pre-established policy for allocating between either cash and non-cash or short-term or long-term compensation. As discussed below, stock-based compensation in the form of stock options, restricted stock awards and performance share program awards represent a significant part of each named executive's total compensation, and, as a result, the amount of stock-based compensation that a named executive receives compared to cash compensation is largely a factor of a named executive's long-term compensation relative to total compensation. Since 2003, we have reduced the amount of annual stock option grants in anticipation of the expensing of stock options, which accounting practice became effective in 2006 and which can have the effect of decreasing our earnings per share. As a result, stock option awards now represent a smaller percentage of long-term compensation than they did in prior years. In light of the general uncertainty in the national economic climate, the Committee has postponed its annual approval of stock option grants for 2009 until at least the second quarter of 2009, when it will revisit the matter based on the Company's performance. Any future awards of stock based compensation may also be limited by the amount of shares available for grant under our stock incentive plan.

Base Salary. Base salary for all management positions will be at the unit's industry/market median for comparable positions unless there are sound reasons, such as competitive factors for a particular executive's skill set, for varying significantly from industry medians. The Personnel and Compensation Committee's judgment will always be the guiding factor in base salary determinations, as well as any other compensation issue. The Committee believes that no system should be so rigid that it prevents the use of judgment. The principal factors considered in decisions to adjust base salary are changes in compensation in our general industry and at our peer companies, our recent and projected financial performance and individual performance measured against pre-established goals and objectives.

Aggregate base salaries for our named executives increased by 5.75% in September 2008 compared to aggregate base salaries for 2007. In making such increases, the Committee considered general industry and peer industry compensation information provided by Hewitt Associates and also our strategic growth plan, our strong performance, growth in specific business segments and prior annual salary increases. Base salaries are reviewed by the Committee in July of each year and take effect on September 1 of each year. Base salaries are also reviewed at the time of a promotion or other changes in responsibilities.

Short-Term Incentives. Annual incentive plan awards are cash bonuses based on the achievement of pre-defined performance measures, with up to 200% of the target award paid in the case of significant over-achievement. The majority of the awards are based on our achievement of financial performance goals, with a smaller portion tied to the achievement of pre-established individual goals.

For 2008, aggregate awards for all employees were paid from a pool equal to 6.1% of operating profit, which is less than the 11% limit initially established by the Committee when it approved the 2008 annual incentive plan goals. For 2007, aggregate awards equaled 7.4% of operating profit. The Non-Equity Incentive Plan Compensation column in the Summary Compensation Table includes the annual incentive plan award for 2008 paid to the named executives.

For 2008, awards were determined as follows for corporate executives: 40% of the award was tied to the achievement of predetermined levels of operating profit, 25% to the achievement of predetermined levels of

Table of Contents

revenue, 15% to the achievement of predetermined levels of accounts receivable and inventory as a percentage of revenue and 20% to the achievement of specific individual performance objectives.

For business unit presidents, 10% of the award was tied to the achievement of predetermined levels of operating profit at the corporate level and 30% of the award was tied to achievement of predetermined levels of operating profit at the business unit level, 5% to the achievement of predetermined levels of revenue at the corporate level and 20% to the achievement of predetermined levels of revenue at the business unit level, 5% to the achievement of predetermined levels of accounts receivable and inventory as a percentage of revenue at the corporate level and 10% to the achievement of predetermined levels of accounts receivable and inventory as a percentage of revenue at the business unit level, and 20% to the achievement of specific individual performance objectives.

No annual incentive plan bonus is earned in any year unless operating profit is positive, after accruing for bonus payments, and operating profit is at least 75% of the operating plan, subject in each case to modification by the Committee. We chose operating profit, revenue and accounts receivable and inventory as a percentage of revenue as the components of the award because we believe these measures are key objective indicators of our year-over-year financial performance.

In determining the weighted performance of the revenue and operating profit components, for every percentage point actual performance exceeds a target a multiple of 5x is applied, and for every percentage point actual performance misses a target a multiple of 3x is applied. In determining the weighted performance of the accounts receivable and inventory as a percentage of revenue component, a multiple of 20x is applied for every percentage point actual performance exceeds or misses the target.

At the time the Committee determined awards for 2008 performance, 2008 operating profit at the corporate level was 116.3% of the 2008 business plan target of \$173.3 million, 2008 revenue was 104.3% of the 2008 business plan target of \$1.814 billion and 2008 accounts receivable and inventory as a percentage of revenue was 100% of the 2008 business plan target of 24.4%. For purposes of calculating operating profit, revenue and accounts receivable and inventory as a percentage of revenue for 2008 annual incentive plan awards, we excluded sales and operating profit resulting from 2008 acquisitions that were not in our 2008 business plan at the time the annual incentive plan targets were established. In addition, for purposes of calculating operating profit for the 2008 annual incentive plan awards, we made other adjustments for certain costs that were not contemplated in our 2008 business plan, such as interest expenses related to 2008 acquisitions.

For 2008, operating profit at our Electronics and Communications segment, of which Aldo Pichelli is the President and Chief Operating Officer, was 115.8% of the 2008 business plan target of \$162.5 million, revenue was 102.8% of the 2008 business plan target of \$1,237 million and accounts receivable and inventory as a percentage of revenue was 95.3% of the 2008 business plan target of 26.7%.

Individual performance objectives typically consist of five or six goals for each named executive that are weighted in terms of importance. Some of the goals are corporate-level goals shared by all named executives and some goals are specific to individual executives. The goals are qualitative and quantitative in nature. Corporate-level goals included continued implementation of our three-year strategic plan and achieving specific revenue and earnings per share targets higher than targets set forth in our strategic plan. Individual-specific goals included achieving specified cost reductions and free cash flow targets, ensuring effective internal control procedures, succession planning, and successfully managing litigation and disputes. In 2008, no individual goal for any named executive was tied to more than 6.6% of a named executive's actual bonus.

The annual incentive plan awards in 2008 followed the same formula as the awards for 2007, the only changes being the predetermined levels of financial performance, which increased in 2008 as compared to 2007, and each named

executive s individual performance objectives.

Table of Contents

The annual incentive plan award is expressed as a percentage of the participant's base salary earned during the plan year. The following schedule shows the award guidelines for the 2008 awards for named executives as a percentage of 2008 base salary:

Participants	AIP Award as a Percent of Salary		
	Target	Maximum	Actual
Robert Mehrabian	80%	160%	142.9%
Dale A. Schnittjer	60%	120%	110.1%
John T. Kuelbs	60%	120%	98.6%
Aldo Pichelli	45%	90%	78.9%
Susan L. Main	45%	90%	79.8%

The target and maximum percentages were the same as in 2007. Effective January 1, 2009, Dr. Mehrabian's target and maximum percentages for the 2009 annual incentive plan were raised to 100% and 200%, respectively, and Mr. Pichelli's target percentage for the 2009 annual incentive plan was raised to 60%.

In determining the actual 2008 annual incentive awards, the Personnel and Compensation Committee exercised its authority to make upward discretionary adjustments in the case of all the named executive officers. The Committee determined the upward discretionary adjustments were appropriate as a result of the amounts by which the performance goals of the named executives exceeded the goals set out in the 2008 business plan and the company's deliberate acquisition process and pursuits. In the case of Dr. Mehrabian, the Committee and the Board recognized Dr. Mehrabian's achievement of his personal objectives for 2008, including those relating to Teledyne's 2008 financial results and earnings per share, which were particularly strong given current economic, financial and market conditions, as well as his continuing pursuit of operational excellence initiatives, internal controls and legal compliance and succession planning.

Dr. Mehrabian earned a bonus equal to 126.29% of his base salary, to which was applied upward discretionary adjustments aggregating 13.12%. Mr. Schnittjer earned a bonus equal to 91.72% of his base salary, to which was applied a 20% upward discretionary adjustment. Mr. Kuelbs earned a bonus equal to 85.72% of his base salary, to which was applied a 15% upward discretionary adjustment. Mr. Pichelli earned a bonus equal to 65.79% of his base salary, to which was applied a 20% upward discretionary adjustment. Ms. Main earned a bonus equal to 66.54% of her base salary, to which was applied a 20% upward discretionary adjustment.

The Committee determined that Dr. Mehrabian achieved 200% of his individual performance objectives, Mr. Schnittjer achieved 175% of his individual performance objectives, Mr. Kuelbs achieved 125% of his individual performance objectives, Mr. Pichelli achieved 200% of his individual performance objectives and Ms. Main achieved 150% of her individual performance objectives.

In February 2009, subsequent to the date that the Committee determined the awards under the 2008 annual incentive plan, the Company became aware of circumstances that led to a voluntary product recall and replacement program at our subsidiary Teledyne Continental Motors, Inc., which was first announced on February 12, 2009. As a result of the voluntary recall and replacement program, management determined that Teledyne was required to take a pre-tax charge of approximately \$18 million and recognize the voluntary recall and replacement program as a subsequent event in our 2008 results. This charge resulted in 2008 operating income that was lower than the income that the Committee used in determining 2008 annual incentive plan awards. At its February 24, 2009 meeting, the Committee discussed the matter and its impact and determined there would be no change to the 2008 annual incentive plan

awards previously granted.

Long-Term Incentives. We have one active long-term incentive plan that has been approved by our stockholders, the Teledyne Technologies Incorporated 2008 Incentive Award Plan. The 2008 Incentive Award Plan replaced the Teledyne Technologies Incorporated 1999 Incentive Plan and the Teledyne Technologies

Table of Contents

Incorporated 2002 Stock Incentive Plan, under which no new awards will be issued but the terms of which still govern awards that remain outstanding under those Plans.

Long-term incentives consist of three components: stock options, a three-year performance share program and a restricted stock award program

Stock Options. Stock options are generally awarded annually to a broad group of key employees who are nominated by management to receive awards and whose awards the Personnel and Compensation Committee approves in the aggregate. In practice, the amount of the award generally depends on the employee's position. Stock options provide our employees with the opportunity to participate in shareholder value created as a result of stock price appreciation, and as a result further our objective of aligning the interests of management with the interests of our stockholders.

All stock options granted are non-qualified stock options, vest at a rate of one-third per year, with full vesting at the end of three years and have a term of ten years. A description of the terms under our incentive plans related to the treatment of stock options upon termination of employment can be found under the heading "Potential Payments Upon Termination or a Change in Control" on page 45 of this Proxy Statement.

In 2008, we awarded stock options for an aggregate of 352,798 shares of common stock to a total of 313 employees, of which options to purchase 64,570 shares of common stock were awarded to named executives. For purposes of the Summary Compensation Table, stock options are valued at fair value calculated in accordance with FAS 123(R) and the compensation expense associated with an executive's stock options as of December 28, 2008 is reported in the Option Awards column.

The Personnel and Compensation Committee reviews and approves the option awards for each named executive. The following schedule represents award guidelines established by the Personnel and Compensation Committee for named executives and the actual stock option grants awarded to those named executives in 2008:

Participants	Annual Stock Option Award Guidelines		
	Minimum	Maximum	Actual 2008
Robert Mehrabian	25,000	50,000	23,300
Dale A. Schnittjer	15,000	25,000	14,650
John T. Kuelbs	15,000	25,000	13,300
Aldo Pichelli	7,000	15,000	6,660
Susan L. Main	7,000	15,000	6,660

Actual awards, except for awards made to the Chief Executive Officer, are based on the recommendation of the Chief Executive Officer and approval of the Personnel and Compensation Committee. The award for the Chief Executive Officer is made at the sole discretion of the Committee. The Committee reserves the right to change the award schedule set forth above, or other material terms of the plan, at its sole discretion. In determining the amount of options awarded to named executives in 2008, the Committee used historical grants, specifically the grants made in the past three years, as a baseline, which baseline amount was then decreased by approximately 33% as part of an expense reduction plan. As a result of this 33% reduction, actual 2008 stock option grants fell below the minimum guideline amount for each of the named executives.

Performance Share Program. A three-year performance share program opportunity, with a new cycle beginning every three years, is available to key employees. Performance share program awards are intended to reward executives to the extent we achieve specific pre-established financial performance goals and provide a greater long-term return to

shareholders relative to a broader market index. The performance share program provides grants of performance share units, which key officers and executives may earn if we meet specified performance objectives over a three-year period. Forty percent of the award is based on the achievement of specified levels of operating profit, 30% on the achievement of specified levels of revenue and 30% on the

Table of Contents

achievement of specified levels of return to shareholders. No awards are made if the three-year aggregate operating profit is less than 75% of target, unless the Committee determines otherwise. In determining the weighted performance of the components, for every percentage point actual performance exceeds a target a multiple of 5x is applied, and for every percentage point actual performance misses a target a multiple of 3x is applied. Accordingly, a maximum of 200% for each component can be earned if 120% of the target is achieved. For the 2003-2005 and 2006-2008 cycles, the Russell 2000 Index is the benchmark for the specified return to shareholders component. Awards are generally paid to the participants in three annual installments after the end of the performance cycle so long as they remain employed. A description of the treatment of performance share program awards upon termination of employment can be found under the heading Potential Payments Upon Termination or a Change in Control beginning on page 45 of this Proxy Statement.

For the 2006-2008 cycle, one-half of the award will be paid in cash and one-half will be paid in shares of our common stock. We chose operating profit, revenue and return to shareholders as the components of the award because we believe these metrics strongly correlate with our growth and equity value. We established a three-year payout period following the end of each performance cycle to encourage continued employment by the participant.

In January 2006, the Committee established a performance cycle for the three-year period ending December 31, 2008. As of December 28, 2008, there were 27 participants in this performance cycle. Forty percent of the 2006-2008 performance cycle is based on achievement of operating profit of \$378.5 million for three years, 30% on the achievement of revenue of \$4,309.6 million for three years and 30% on the achievement of a return to shareholders that requires our stock performance to exceed the stock performance of the Russell 2000 Index. These performance targets are used by Teledyne solely for compensation purposes and should not be understood to be management's expectations or guidance relating to future financial performance. With respect to this 2006-2008 cycle, the Committee has determined that 193% of the target performance was met. After review, the Committee determined that the pre-tax charge related to the voluntary recall and replacement program at Teledyne Continental Motors, Inc. discussed above had no effect on the overall performance calculation for the 2006-2008 performance share program awards. All of the named executives in the Summary Compensation Table participate in the 2006-2008 performance share program.

Actual cash and stock payments under the 2006-2008 performance share program will occur in three equal annual installments, with the first installment being paid in February 2009, provided the named executive officer remains an employee at the time of the applicable payout. Pursuant to Securities and Exchange Commission guidance, the entire cash portion of the performance share award for the 2006-2008 performance cycle is included in the Summary Compensation Table under the Non-Equity Incentive Plan Compensation column for 2008, which is the year in which the performance criteria were met. For purposes of the Summary Compensation Table, the stock portion of the performance share award for the 2006-2008 performance cycle is valued at fair value calculated in accordance with FAS 123(R) and the compensation expense associated with the stock portion of the performance share award as of December 28, 2008 is recorded in the Stock Awards column. The total number of shares each named executive is entitled to receive under the 2006-2008 performance share program over the three year payout period is located in the Outstanding Equity Awards at Fiscal Year End table under the column headed Number of Shares or Units of Stock That Have Not Vested.

In December 2002, under the 2002 Stock Incentive Plan, the Committee established a performance cycle for the three-year period ended December 31, 2005. With respect to this 2003-2005 cycle, the Committee has determined that 170.2% of the target performance was met. All of the named executives in the Summary Compensation Table participated in the 2003-2005 performance share program, with installment payments being made in February of 2006, 2007 and 2008. The amount of cash and number of shares that the named executives received under the 2003-2005 performance cycle in 2008 can be found in footnote 5 to the Summary Compensation Table.

Restricted Stock Award Program. A restricted stock award program has also been established for key employees, which was first approved and adopted by the Personnel and Compensation Committee in 2000.

Table of Contents

This program provides grants of restricted stock, generally each calendar year, to key employees at an aggregate fair market value equal to 30% of each recipient's annual base salary as of the date of the grant, unless otherwise determined by the Committee. The restrictions are subject to both a time-based and performance-based component. In general, the restricted period for each grant of restricted stock extends from the date of the grant to the third anniversary of such date, with the restrictions lapsing on the third anniversary. However, unless the Committee determines otherwise, if we fail to meet certain minimum performance goals for a multi-year performance cycle (typically three years) established by the Committee as applicable to a restricted stock award, then all of the restricted stock is forfeited. If we achieve the minimum performance goals, but fail to attain an aggregate level of 100% of the targeted performance goals, then a portion of the restricted stock would be forfeited. The targeted performance goal for 2008, as in previous years, was the price of our common stock as compared to the Russell 2000 Index. In order for a participant to retain the restricted shares, our three-year aggregate return to shareholders (as measured by our stock price) must be at least 35% of the performance of the Russell 2000 Index for the three-year period. If our stock performance is less than 35% of the Russell 2000 Index performance, all restricted shares would be forfeited. If it ranges from 35% to less than 100%, a portion of the restricted shares will be forfeited. If it is 100% or more than 100%, no shares are forfeited and the participant does not receive additional shares. We believe that benchmarking the restricted stock performance goals to a broader market index like the Russell 2000 Index aligns the interest of management and stockholders because executives are rewarded only to the extent that our stock price performs relative to the stock prices of companies with similar market capitalizations.

A participant cannot transfer the restricted stock during the restricted period. In addition, during the restricted period, restricted stock generally will be forfeited upon a participant's termination of employment. A description of the treatment of restricted stock awards upon termination of employment in cases of death, disability or retirement can be found under the heading "Potential Payments Upon Termination or a Change in Control" beginning on page 45 of this Proxy Statement. Upon expiration of the restricted period, absent any forfeiture, we will deliver to the recipient certificates for the appropriate number of shares of common stock, as determined by the Committee based on achievement of the specified performance objectives, free of the restrictive legend.

We granted restricted stock to key employees on January 20, 2009, January 22, 2008, January 23, 2007, January 24, 2006, January 25, 2005. All restrictions on the January 25, 2005 awards lapsed on January 25, 2008, and all restrictions on the January 24, 2006 awards lapsed on January 24, 2009. Our stock performance was 153.6% and 203.7% of the Russell 2000 Index for the measurement periods associated with the 2005 and 2006 restricted stock grants, respectively. The pre-tax charge related to the voluntary recall and replacement program at Teledyne Continental Motors, Inc. discussed above had no direct effect on the restricted stock awards program, which is benchmarked to our stock price.

For purposes of the Summary Compensation Table, restricted stock awards are valued at fair value calculated in accordance with FAS 123(R) and the compensation expense associated with an executive's restricted stock awards as of December 28, 2008 is reported in the Stock Awards column.

The potential payouts under January 22, 2008 restricted stock award can be found in the table headed "Grants of Plan-Based Awards" on page 36 of this Proxy Statement. The maximum number of shares that the named executive could retain under the restricted stock awards granted on January 24, 2006, January 23, 2007 and January 22, 2008 can be found in the table headed "Outstanding Equity Awards at Fiscal Year End" beginning on page 37 of this Proxy Statement.

We believe that the terms of the stock options, the performance share awards and restricted stock awards are consistent with our compensation goals of employee retention, rewarding executives for long-term performance and rewarding executives for long-term increases in our stock price, both in absolute terms and as compared to the broader market.

Table of Contents

Change in Control Severance Agreements

Each of our named executives, as well as eleven other executives, is a party to a change in control severance agreement with us. A description of the terms of the agreements can be found under the heading Potential Payments Upon Termination or a Change in Control beginning on page 45 of this Proxy Statement. In entering into these agreements, the Personnel and Compensation Committee desired to assure that we would have the continued dedication of certain executives and the availability of their advice and counsel, notwithstanding the possibility of a change in control, and to induce such executives to remain in our employ. The Committee believes that, should the possibility of a change in control arise, it is imperative that we be able to receive and rely upon our executives' advice, if requested, as to the best interests of our company and stockholders without the concern that he or she might be distracted by the personal uncertainties and risks created by the possibility of a change in control. The Committee also considered arrangements offered to similarly situated executives of comparable companies.

We chose the specific amounts and triggers contained in the change in control agreements because we believe such terms provide reasonable assurances that our executive officers will remain with us during an acquisition or change of control event, should one occur, and assist in the assessment of a possible acquisition or change in control event and advise management and the board as to whether such acquisition or change in control event would be in the best interests of our company and stockholders.

The Personnel and Compensation Committee has reviewed the potential aggregate costs to a potential acquirer associated with the change in control severance agreements, including estimated excise taxes and gross-up payments associated with the agreements. The Committee considers it unlikely that the employment of all 16 applicable employees would be terminated following a change in control. The Committee did not adjust the compensation of the applicable employees as a result of the employees entering into these change of control severance agreements.

Employment Agreement

In 1999, we entered into an employment agreement with Dr. Mehrabian, which agreement was amended and restated on April 25, 2001, to update Dr. Mehrabian's titles and the types and rates of compensation to which he was entitled, on January 24, 2006, primarily to assure compliance with Section 409A of the Internal Revenue Code, and on September 1, 2007, to reflect an increase in Dr. Mehrabian's base salary and, per Dr. Mehrabian's request, to reflect that his eligibility to receive country club and city club membership and related tax gross-ups was discontinued. The agreement was further amended and restated on January 22, 2009, principally to amend the termination and renewal provisions as described below. The employment agreement was initially entered into in order to memorialize compensation-related agreements made by Dr. Mehrabian and ATI prior to our spin-off from ATI. The amended and restated employment agreement provides that we shall employ Dr. Mehrabian as our Chairman, President and Chief Executive Officer. The agreement automatically renews for a successive one year unless either party gives the other written notice of its election not to renew at least 12 months before the expiration of the current term or any successive renewal terms. If notice is given, Dr. Mehrabian would then retire on December 31st of the year following the 12th month after receipt of the notice. Under the agreement, we will employ Dr. Mehrabian as the Chairman, President and Chief Executive Officer through at least December 31, 2010, because 12 months notice of nonrenewal has not been given prior to the expiration of the current term of December 31, 2009.

Under the current agreement, Dr. Mehrabian has an annual base salary of \$840,000. The agreement provides that Dr. Mehrabian is entitled to participate in our annual incentive bonus plan and other executive compensation and benefit programs. The agreement provides Dr. Mehrabian with a supplemental non-qualified pension arrangement, which we will pay to Dr. Mehrabian starting six months following his retirement for a period of ten years. Effective July 31, 2007, the number of years of credited service under this supplemental

Table of Contents

pension equalization plan reached the maximum number of ten years; as a result, no additional years of service will be credited under this plan.

Perquisites and Other Benefits

All of our named executives receive car allowances and/or leased vehicles. We provide car allowances and leased vehicles in cases where the named executive typically travels for business and also for retention of senior executives. In 2007, at the request of our Chairman, President and Chief Executive Officer, we discontinued making club memberships available. In addition, in December 2006, the Personnel and Compensation Committee approved relocation assistance to Mr. Pichelli and Mr. Schnittjer, along with certain other members of management, in connection with the relocation of our corporate headquarters in the first quarter of 2007. The relocation assistance consists of realtor fees on sale of a home or initial leasing expense, closing costs associated with the purchase of a new home, physical relocation expenses and gross-up reimbursement of taxes. The cost associated with these benefits for named executives, to the extent they aggregate more than \$10,000 per individual, are included in the Other Compensation column of the Summary Compensation Table.

Deferred Compensation

Our named executives are eligible to participate in our executive deferred compensation plan. The deferred compensation plan is a voluntary, non-tax qualified, unfunded deferred compensation plan available to all members of management and certain other highly-compensated employees for the purpose of providing deferred compensation, and thus potential tax benefits, to these employees. The deferred compensation plan was initially established to provide benefits to our employees who participated in the ATI executive deferred compensation plan prior to our spin-off. A description of the terms of the deferred compensation plan can be found under the heading *Nonqualified Deferred Compensation* beginning on page 40 of this Proxy Statement. In addition, the *Nonqualified Deferred Compensation Table* on page 40 of this Proxy Statement sets forth information about the account balances, contributions and withdrawals of each named executive that participates in the deferred compensation plan.

Pension Plans

In connection with the spin-off, we adopted a defined benefit pension plan on terms substantially similar to the parts of the ATI pension plan applicable to all of our employees, both active and inactive at our operations that perform government contract work and for our active employees at our commercial operations. All of the named executives other than Ms. Main participate in the pension plan. The annual benefits payable under these parts of the pension plan to participating salaried employees retiring at or after age 65 is calculated under a formula which takes into account the participant's compensation and years of service. The Internal Revenue Code limits the amounts payable to participants under a qualified pension plan. We have also adopted a benefit restoration/pension equalization plan, which is designed to restore benefits that would be payable under the pension plan provisions but for the limits imposed by the Internal Revenue Code, to the levels calculated pursuant to the formulas contained in the pension plan provisions or for any monies deferred under our deferred compensation plan.

Our pension plan was initially established to provide benefits to employees who participated in the ATI pension plan prior to our spin-off. Effective January 1, 2004, in order to limit our future obligations under our pension plan, new non-union employees do not participate in the pension plan, and effective February 20, 2007, all new employees do not participate in the pension plan. Instead such new hires are eligible to participate in an enhanced 401(k) plan.

A description of the terms of our pension plan can be found under the heading *Pension Benefits* beginning on page 39 of this Proxy Statement. In addition, the *Pension Benefits Table* on page 39 of this

Table of Contents

Proxy Statement sets forth information about each named executive's years of credited service and the actuarial present value of each named executive's accumulated benefit under our pension plan.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction for annual compensation paid to a chief executive officer and certain other highly compensated officers in excess of \$1 million unless the compensation qualifies as performance-based or is otherwise exempt under the law. Our stock incentive plans are intended to meet the deductibility requirements of the regulations promulgated under Section 162(m). However, the Committee may determine in any year that it would be in our best interest for awards to be paid under stock incentive plans, or for other compensation to be paid, that would not satisfy the requirements for deductibility under Section 162(m). In making such determination, the Committee would consider the net cost to us and our ability to effectively administer executive compensation in the long-term interests of shareholders.

Financial Restatements

Our Personnel and Compensation Committee does not have an established practice regarding the adjustment or recovery of awards or payment if the relevant performance measures upon which they are based are restated or otherwise adjusted in a manner that would reduce the size of an award or payment. The Committee will determine whether to seek recovery of incentive compensation in the event of a financial restatement or similar event based on the facts and circumstances surrounding a financial restatement or similar event, should one occur. Among the key factors that the Committee will consider is whether the executive officer engaged in fraud or willful misconduct that resulted in need for a restatement. Since the time of our spin-off, we have not restated our financial statements.

In addition, individual performance objectives for executive officers under our annual incentive plan program include compliance with laws and Company policies and procedures. As a result, an executive's bonus may be adversely affected to the extent a financial restatement or similar event involved a violation of law or Company policy.

Policies Relating to the Timing and Pricing of Stock Option Awards and Stock Awards

Stock Options Stock options may be granted under our 2008 Incentive Award Plan by the Personnel and Compensation Committee, which is the administrator of the plan. The Committee has delegated authority to our Chief Executive Officer to grant a specified number of options to employees under the 2008 Incentive Award Plan. This authority is used to make grants to new hires, upon promotion of certain employees, to retain certain employees, and in connection with acquisitions. Of these shares, 46,500 remained available for grant by our Chief Executive Officer under this delegated authority as of January 20, 2009. Stock options may also be granted to non-employee directors pursuant to administrative rules under our 2008 Incentive Award Plan. Our Nominating and Governance Committee administers these administrative rules related to non-employee director equity awards.

Stock options are generally granted by the Personnel and Compensation Committee in January of each year at its regularly scheduled committee meeting. At this meeting the Committee finalizes annual bonuses for the previous fiscal year and sets the terms of our annual incentive plan for the current fiscal year. We typically issue our press release containing financial results for the fourth quarter and year end shortly following this meeting date. Grants by our Chief Executive Officer under his delegated authority may be made at any time, but primarily have been made to new hires (including new hires resulting from acquisitions) or following the successful completion of special projects. In 2008, our Chief Executive Officer granted options to purchase up to 3,500 shares to two employees under this delegated authority. Under administrative rules relating to non-employee director equity compensation under the 2008 Incentive Award Plan, an annual grant of options to

Table of Contents

purchase 4,000 shares is made to each non-employee director after our annual meeting of stockholders. In addition, directors may elect to receive all or a part of their board and committee meeting fees and annual retainer fee in the form of stock options.

Pursuant to the terms of the 2008 Incentive Award Plan, the exercise price for new stock option grants must equal the fair market value of our common stock, which for purposes of the Plan is defined as the closing sales price of a share of our common stock on the New York Stock Exchange on the date of grant. Pursuant to the terms of our 1999 Incentive Plan and 2002 Stock Incentive Plan, the exercise price for new stock option grants must equal the fair market value of our common stock, which for purposes of the plans is defined as the average of the high and low quoted sales price of a share of our common stock on the New York Stock Exchange on the date of grant. New grants made by our Personnel and Compensation Committee have exercise prices equal to the fair market value of our common stock on the date of the meeting at which the grant was approved by the Committee. Grants made by the Chief Executive Officer have exercise prices equal to the fair market value of our common stock on the date of grant. Stock options granted to non-employee directors as part of the annual grant have exercise prices equal to the fair market value of our common stock on the date of grant. For a non-employee director that elects to have all or a portion of his or her retainer or meeting fees paid in the form of stock options, the number of shares to be subject to the stock option is determined by dividing the applicable portion of the non-employee director's fees elected to be received as stock options by an amount equal to the fair market value of a share of common stock on the date of grant multiplied by 0.3333, and the exercise price for such non-employee director's stock options is equal to the fair market value of our common stock on the date of grant multiplied by 0.6666.

Stock Awards Restricted stock awards and performance share program stock awards may be granted under our 2008 Incentive Award Plan by the Personnel and Compensation Committee, which is the administrator of the Plan.

Restricted stock awards are generally granted each year by the Personnel and Compensation Committee at the same January meeting that the Personnel and Compensation Committee makes stock option award grants. The number of shares is determined by dividing an amount generally equal in value to 30% of a participating executive's base salary by the average of the high and low stock prices for 20 trading days preceding the date of grant.

Performance cycles under the performance share program are generally established once every three years, at the same January meeting that the Personnel and Compensation Committee makes restricted stock award grants and stock option award grants. Under the 2008 Incentive Award Plan, the number of shares for the stock portion of the award is determined by dividing one half of the value of the award by the an amount equal to the fair market value of a share of our common stock on the New York Stock Exchange on the date that the performance cycle is established by the Personnel and Compensation Committee.

For non-employee directors that elect to receive meeting fees or annual retainer fees in the form of a stock award the number of shares to be subject to the stock award is determined by dividing the applicable portion of the non-employee director's fees elected to be received as stock by an amount equal to the closing sales price of a share of our common stock on the New York Stock Exchange on the meeting date. For annual retainer fees, which are paid semi-annually, the grant date is the first business day of January and July.

Stock Ownership Policies

Our Personnel and Compensation Committee believes stock-based compensation is an important element of compensation and, as discussed above, stock-based compensation figures prominently in our mix of compensation. In 2008, our Board adopted stock ownership guidelines that require key executives and non-

Table of Contents

employee directors to maintain ownership of a specified amount of Teledyne common stock. Key executives are required to own shares of Teledyne common stock equal in market value to the amount set forth below:

Position	Value of Shares Owned
Chairman, President and Chief Executive Officer	5 x base salary
Corporate Senior Vice Presidents or Higher	3 x base salary
Segment Presidents or Senior Vice Presidents	2 x base salary
Vice Presidents (Corporate and General Managers)	1 x base salary

A key executive who is defined as a recipient of a restricted stock award is expected to attain the minimum level of target ownership within a period of five years from the date of hire or promotion, and is expected to own continuously sufficient shares to meet the guideline once attained.

Each non-employee director is required to own shares of Teledyne common stock equal in market value to three times the amount of the annual retainer. Non-employee directors are expected to attain the minimum level of target ownership by December 31, 2009. A new director is expected to attain the minimum level of target ownership within a period of five years from the date he or she is first becomes a director of the Company. Once achieved, the guideline amount must be maintained for so long as the non-employee director retains his seat on the Board.

In determining the value of common stock the Nominating and Governance Committee uses the average price of Teledyne common stock during the most recent calendar year. Restricted stock and vested in-the-money options are included in the definition of common stock.

Our Nominating and Corporate Governance Committee reviews compliance with the stock ownership guidelines annually at its January meeting. As of January 2009, all of our key executives and non-employee directors owned sufficient shares to comply with the guidelines with the exception of three executives, all of whom had additional time to achieve compliance pursuant to the terms of the guidelines. The full text of our stock ownership guidelines is available on our website at www.teledyne.com.

Personnel and Compensation Committee Report

The following report of the Personnel and Compensation Committee is included in accordance with the rules and regulations of the Securities and Exchange Commission. It is not incorporated by reference into any of our registration statements under the Securities Act of 1933.

Report of the Personnel and Compensation Committee

We have reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on our review and discussion with management, we have recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and in Teledyne Technologies Incorporated's Annual Report on Form 10-K for the year ended December 28, 2008.

Table of Contents**Compensation Committee Interlocks and Insider Participation**

No member of the Personnel and Compensation Committee of our Board of Directors is an officer or employee of the Company. During 2008, no member of the Committee had a current or prior relationship and no officer who was a statutory insider had a relationship to any other company, in each case that must be described under the Securities and Exchange Commission rules relating to disclosure of executive compensation.

Summary Compensation Table

The following Summary Compensation Table sets forth information about the compensation earned by certain of our executive officers during the 2008, 2007 and 2006 fiscal years. It sets forth information about compensation paid to: (1) our Chief Executive Officer, (2) our Chief Financial Officer and (3) the three other most highly compensated executive officers who were required to file reports under Section 16 of the Securities Exchange Act of 1934 for fiscal 2008 (collectively, the named executives).

(1)

2008 base salaries for the named executives, which took effect on September 1, 2008, were as follows: Dr. Mehrabian, \$840,000; Mr. Schnittjer, \$384,987; Mr. Kuelbs, \$429,978; Mr. Pichelli, \$375,003; and Ms. Main, \$272,501.

- (2) The named executives were not entitled to receive any payments that would be characterized as Bonus payments for the fiscal years ended December 28, 2008, December 30, 2007 and December 31, 2006. Amounts listed under the column Non-Equity Incentive Plan Compensation for 2008 are the Annual Incentive Plan awards for 2008 performance. See footnote 5 for more information on these awards.
- (3) Represents the dollar amount associated with the named executive's restricted stock awards and the stock award component of the Performance Share Program that is recognized as compensation for financial statement reporting purposes in accordance with FAS 123(R). For a discussion of the assumptions made in the valuation, please see Note 8 (Stockholders' Equity) to the financial statements in our Annual Report on Form 10-K under the headings Performance Share Plan and Restricted Stock Award Program. For 2008, this amount includes 2008 compensation expense associated with restricted stock awards granted in 2006, 2007 and 2008 and the 2006-2008 performance cycle under the Performance Share Program.

Table of Contents

- (4) Represents the dollar amount associated with the named executive's option grants that is recognized as compensation for financial statement reporting purposes in accordance with FAS 123(R). For a discussion of the assumptions made in the valuation, please see Note 8 (Stockholders' Equity) to the financial statements in our Annual Report on Form 10-K under the heading "Stock Incentive Plans". For 2008, this amount includes 2008 compensation expense associated with stock options granted in 2005, 2006, 2007 and 2008.
- (5) For 2008, consists of the Annual Incentive Plan awards for 2008 performance, which were approved by the Personnel and Compensation Committee on January 20, 2009 and paid on February 5, 2009, plus the aggregate cash portion of the 2006-2008 Performance Share Program, which is scheduled to be paid in three equal installments from 2009 through 2011. The amounts of the Annual Incentive Plan awards for 2008 for the named executive officers were as follows: Dr. Mehrabian, \$1,200,000; Mr. Schnittjer, \$423,727; Mr. Kuelbs, \$423,858; Mr. Pichelli, \$296,055; and Ms. Main, \$217,584. Pursuant to the proxy disclosure rules of the Securities and Exchange Commission, cash awards under our Performance Share Program are deemed earned in the last year of the performance cycle, at the time when performance criteria are satisfied, even though they are paid to participants in three annual installments after the end of the performance cycle so long as the participants remain employed by Teledyne. As a result, the aggregate cash portion of the 2006-2008 Performance Share Program is required to be reported in its entirety in 2008, even though no actual payments under this program were made in 2008. Furthermore, the following cash amounts paid in 2008, representing the third and final installment payment under the 2003-2005 Performance Share Program, are not reflected in the Non-Equity Incentive Plan Compensation column: Dr. Mehrabian, \$818,911; Mr. Schnittjer, \$288,599; Mr. Kuelbs, \$351,984; Mr. Pichelli, \$81,946; and Ms. Main, \$95,774. Participants in the Performance Share Program may elect to pay taxes due with respect to an installment payment with awarded shares, awarded cash or a combination thereof. For the third installment payment of the 2003-2005 Performance Share Program, each of Dr. Mehrabian, Mr. Kuelbs, Mr. Schnittjer, Mr. Pichelli and Ms. Main chose to pay some or all of their taxes by reducing the number of shares to which he or she was entitled. Dr. Mehrabian, Mr. Kuelbs, Mr. Schnittjer, Mr. Pichelli and Ms. Main were entitled to 16,764 shares, 7,863 shares, 6,000 shares, 3,520 shares and 2,503 shares, respectively. As a result of their elections, shares issuable to Dr. Mehrabian, Mr. Kuelbs, Mr. Schnittjer, Mr. Pichelli and Ms. Main were reduced by 11,329, 3,965, 4,673, 583 and 1,163 shares, respectively, and the cash portion of their awards increased by \$567,866, \$198,746, \$234,234, \$29,223 and \$58,295 to pay applicable taxes. Amounts listed under the column "Non-Equity Incentive Plan Compensation" for 2007 and 2006 consist only of Annual Incentive Awards for 2007 performance and 2006 performance, and do not include the cash portion of the 2006-2008 Performance Share Program.
- (6) For 2008, represents the aggregate change in the actuarial present value of the named executive's accumulated benefit under the Teledyne Technologies Incorporated Pension Plan, the Teledyne Technologies Pension Equalization/Benefit Restoration Plan and, in the case of Dr. Mehrabian, the supplemental pension arrangement contained in his employment agreement, from December 31, 2007 to December 30, 2008. In computing these amounts, we used the same assumptions as were used to compute the annual accruals for possible future payments under our pension plans for our 2008 financial statements.
- (7) Represents \$12,000 in car allowances.
- (8) Represents \$12,000 in car allowances, \$1,000 in company contributions pursuant to the Teledyne Technologies Incorporated 401(k) Plan, \$3,372 in respect of a death benefit under the Teledyne Technologies Incorporated Executive Deferred Compensation Plan, \$1,196 in respect of an employer matching contribution under the Employee Stock Purchase Plan and \$150,167 in relocation expenses.
- (9)

Represents \$12,000 in car allowances, \$1,000 in company contributions pursuant to the Teledyne Technologies Incorporated 401(k) Plan, \$4,845 in respect of a death benefit under the Teledyne Technologies Incorporated Executive Deferred Compensation Plan and \$1,196 in respect of an employer matching contribution under the Employee Stock Purchase Plan.

- (10) Represents \$2,061 for a leased vehicle, \$1,000 in company contributions pursuant to the Teledyne Technologies Incorporated 401(k) Plan, \$1,139 in respect of a death benefit under the Teledyne Technologies Incorporated Executive Deferred Compensation Plan and \$1,196 in respect of an employer matching contribution under the Employee Stock Purchase Plan.
