IMPORTANT NOTICE REGARDING DELIVERY
OF SHAREHOLDER DOCUMENTS

The Securities and Exchange Commission (SEC) permits mutual funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be househoded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

EATON VANCE SENIOR INCOME TRUST AS OF JUNE 30, 2002

Letter to Shareholders

[Photo of James B. Hawkes]

James B. Hawkes
President

Amid sharply lower interest rates, Eaton Vance Senior Income Trust again provided a significant yield advantage in a portfolio of senior floating-rate loans. Based on the Trust's June monthly dividend of \$0.045 per share and a closing share price of \$7.76, the Trust's market yield was 6.96% at June 30, 2002.

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

SHORT-TERM INTEREST RATES FELL TO HISTORIC LOWS DURING THE FISCAL YEAR...

In the second half of 2001, the Federal Reserve continued the rate cuts it began earlier in the year. By the end of 2001, the Fed had reduced rates by 475 basis points (4.75%), putting short-term rates at a 40-year low. LIBOR (London Interbank Offered Rate), the base rate for floating-rate loans, declined in line with short-term rates. Not surprisingly, lower LIBOR rates had a profound effect on total returns for floating-rate loans. However, while returns were somewhat lower than in previous years, the loan market remained a relative haven from the unnerving volatility of the equity and high-yield bond markets.

THE TRUST'S LOANS ARE SENIOR AND TYPICALLY SECURED, ADDING AN EXTRA MEASURE OF SECURITY ...

Having experienced a recession, a poor credit climate, ongoing concerns over global terrorism and repeated jolts to confidence, investors have had to endure a good deal in the past year. However, in a poor credit environment, the Trust's floating-rate loans have continued to provide an added measure of security. Loans are typically senior and secured. They are senior, which means that they rank high in the corporate capital structure and that lenders will be paid before bondholders and other subordinated lenders. In addition, many are secured, which means that the loans are fully backed by collateral, such as accounts receivable, inventory, facilities, and intangibles. In the event of a reversal of fortune, secured status represents a major advantage and, historically, has greatly improved recovery rates when compared to bonds and other junior subordinated debt.

FLOATING-RATE LOANS REMAIN A GOOD MEANS FOR REDUCING RISK IN AN INVESTOR'S PORTFOLIO ...

Given the recent volatility in the financial markets and increasing investor anxiety, the loan market remains an excellent vehicle for diminishing the risk of a diversified investment portfolio. While demonstrating much less volatility than other financial assets, floating-rate loans have continued to provide a significant yield advantage over other short-term income vehicles. In the pages that follow, co-portfolio managers John Redding, Scott Page and Payson Swaffield review the events of the past year and offer their insights on the period ahead.

Sincerely,

/s/ James B. Hawkes

James B. Hawkes

MANAGEMENT DISCUSSION

[photo of John P. Redding]
John P. Redding

An interview with John P. Redding, Scott H. Page and Payson F. Swaffield, co-portfolio managers of Eaton Vance Senior Income Trust.

Q: John, over the past year, many U.S. financial markets have been hurt by the weak economy, worries over global terrorism and investor concerns about corporate governance. Has the loan market been similarly affected?

A: MR. REDDING: Without question, this has been a very difficult year for the loan market. Credit conditions have deteriorated, and the default rate has remained toward the high end of its historical range. The weak economy resulted in a sharp decline in interest rates in 2001. Floating-rate loans are priced at a spread over LIBOR (London Interbank Offered Rate), historically fluctuating with changes in the Federal Funds rate. With short-term rates at 40-year lows, returns on loans have understandably reflected that trend.

The economy was just starting to show some anecdotal signs of recovery in the second half of 2001, when the events of September 11 dealt the economy another severe shock. With consumer confidence waning, businesses reined in their capital investment plans as well, further clouding the economic outlook.

Meanwhile, the ongoing threat of more terrorist actions has remained a major concern. And finally, the issue of corporate governance, highlighted by several prominent cases of corporate malfeasance, further dampened investor sentiment. So it has been a very difficult climate for the financial markets in general, and the loan market has been no exception.

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

Scott H. Page

Q: Scott, how would you assess the performance of the Trust in these conditions?

A: MR. PAGE: The Trust's negative total return on a share price basis was a result of a 13.2% decline in share price and generally reflected the increasing skittishness of the financial markets. However, even at these depressed interest rate levels, the Trust had a market yield of 6.96% at June 30, 2002, still well above most other income-producing vehicles.(1) On a net asset basis, the Trust registered a positive total return of 2.92%.(2) That return significantly outperformed the 0.94% return of the Trust's benchmark, the CSFB Leveraged Loan Index.(3) The Trust benefited especially from having dramatically reduced its telecom holdings last year. Specifically, the Trust avoided the troubled areas of broadband and competitive local exchange areas, which have been plagued by high debt levels and overcapacity.

Five Largest Sector Weightings(4)

Cable Television	11.2%
Chemicals	10.6%
Manufacturing	9.0%
Health Care - Providers & Services	8.2%
Food, Beverages & Tobacco	7.7%

Trust Overview(4)

Total net assets	\$302.8 million
Number of borrowers	240
Industries represented	48
Collateral coverage ratio	1.5 to 1
Weighted days-to-interest rate reset	51 days
Average maturity	5.7 Yrs.
Average size per borrowing	\$1.9 million

(1) The Trust's market yield is calculated by dividing the most recent dividend per share by the share market price at the end of the period and annualizing the result. (2) Returns are historical and are calculated by determining the percentage change in market value or net asset value with all distributions reinvested. (3) The CSFB Leveraged Loan Index - a representative index of tradable, senior, secured, U.S. dollar-denominated leveraged loans. It is not possible to invest directly in an Index. (4) Five Largest Sector Weightings account for 46.7% of the Trust's investments, determined by dividing the total market value of the holdings by the total investments of the Trust. Five Largest Sector Weightings and Trust Overview are as of 6/30/02 and are subject to change. Trust Overview information refers only to the senior floating-rate loan portion of the Trust.

Shares of the Trust are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested. Yield will change.

[photo of Payson F. Swaffield]
Payson F. Swaffield

Q: Payson where did the Trust focus its investments?

A: MR. SWAFFIELD: The Trust has emphasized companies that we believe are

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

well-positioned to weather a slow recovery, especially those we believe are quality companies that are leaders in their industries and have reasonable debt levels. That has meant a strong focus on basic industries, stalwarts such as specialty chemical manufacturers and manufacturers with relatively strong balance sheets. Lyondell Petrochemicals, for example, produces chemicals used in manufacturing, refined petroleum products, food processing and personal care products, and benefits from a broadly diversified customer base.

Another theme has been defensive companies, such as drug retailers and foods and beverages. Not only do these companies tend to be recession-resistant, but they are well-secured by very high quality inventories.

Q: You mentioned that investors have been increasingly concerned over matters of corporate governance. Has the Trust been affected by any of those issues?

A: MR. REDDING: Yes. Adelphia Communications, Inc., one of the nation's largest cable providers, has been a core holding of the Trust. (As of June 30, 2002, Adelphia - through investments in subsidiaries Century Cable Holdings, Hilton Head and Olympus Cable Holdings - represented 3.1% of the Trust's investments.) In March, the company disclosed that it had discovered financial irregularities by controlling family interests. The family surrendered control in May 2002, and several individuals have subsequently been charged with fraud. In June 2002, the company filed a Chapter 11 bankruptcy petition. These events caused Adelphia's outstanding securities - including its loans - to be valued lower. Despite this market price movement, we have good reason to believe that recovery will be at, or near, par, based on an overall debt-per-subscriber level, which is well below current industry valuation levels. The Adelphia filing impacted the overall cable sector and caused loans to other cable companies - including healthy operators - to be valued lower.

Q: It's noteworthy that, despite the Adelphia difficulties, cable television providers - at 10.2% - remained among the Trust's largest holdings. Could you address that?

A: MR. SWAFFIELD: Yes. The cable business continues to boast very compelling fundamentals. Cable operators have enjoyed revenue growth and surprising pricing flexibility, even in a weak economy, a fact that has distinguished them in the past year from industries that are more economically sensitive. While the group has traded lower in recent months in response to the Adelphia filing, companies like Insight Midwest Holdings and Charter Communications remain healthy operators.

Insight has targeted an attractive market niche in rural areas, where the subscriber growth rate remains fairly high. For its part, Charter has upgraded its network in the face of competition from other technologies, and expects to generate additional revenue from advanced services such as digital video and high-speed Internet connections.

Q: What is your outlook for the loan market in the coming year?

A: MR. PAGE: Although we believe the economy has embarked on a tentative recovery, in recent months there has been a disconnect between economic trends and investor confidence. That is due, in part, to the lingering anxieties over geopolitical events, as well as to the troubling cases of corporate malfeasance. While those sentiments are understandable in the short-term, economic fundamentals will dictate market trends in the long run.

MR. SWAFFIELD: The Federal Reserve made a determined bid to revive the economy throughout 2001 and, in recent testimony, Fed Chairman Greenspan has

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

suggested that a recovery, however slow, is under way. While the timing of an eventual uptick in interest rates is far from certain, such a trend would likely benefit floating-rate loans, which are unique among income-producing vehicles in that their returns can actually improve when interest rates rise.

MR. REDDING: It's worth noting that, in the wake of the recession and the corporate governance issues, lenders have become much more demanding of borrowers, insisting on more conservative lending terms and stricter covenants. That is a positive trend for the loan market and for investors. Moreover, ironing out the excesses of the 1990s is a very healthy development and should leave the economy - and the loan market - in better shape for the future. We believe that the Trust's diversified portfolio of floating-rate loans represents a sound investment alternative in this uncertain period, and the Portfolio should be well-positioned when rates eventually move higher.

- (1) Senior floating rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating rate interests will have an expected average life of approximately two to four years.
- (2) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.
- * Non-income producing security.

Note: At June 30, 2002, the Trust had unfunded commitments amounting to \$7,677,697 under various revolving credit agreements.

+ The operating expenses of the Trust may reflect a reduction of the investment adviser fee and the actions not been taken, the ratios and net investment income per share would have been as follows:

Ratios (As a percentage of average net assets attributable to common shares):

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

Expenses		
Interest expense		
Net investment income		
Net investment income per share		
++ The ratios reported above are based on net assets attributable solely to common shares. The ratios based on net assets, including amounts related to preferred shares since the initial offering of preferred shares, are as follows:		
Ratios (As a percentage of average total net assets):		
Net expenses(5)	1.68%	1.88%
Interest expense	0.63%	2.50%
Total expenses(5)	2.31%	4.38%
Net investment income(5)	5.90%	9.33%

Senior Securities:			
Total preferred shares outstanding		4,400	4,400
Asset coverage per preferred shares(7)	\$	93,814	\$ 97,192
Involuntary liquidation preference per preferred share(8)	\$	25,000	\$ 25,000
Approximate market value per preferred share(8)	\$	25,000	\$ 25,000

- (1) Net investment income per share was computed using average shares outstanding.
- (2) The Trust has adopted the provisions of the revised AICPA Audit and Accounting Guide for Investment Companies and began using the interest method to amortize premiums on fixed-income securities. The effect for the year ended June 30, 2002 was to increase net investment income per share by less than net realized and unrealized losses per share by less than \$0.001, and increase the ratio of net income to average net assets attributable to common shares by less than 0.01%. Per share data for periods prior to July 1, 2001 have not been restated to reflect this change in presentation.
- (3) For the period from the start of business, October 30, 1998, to June 30, 1999.
- (4) Total return is calculated assuming a purchase at market value on the first day and a sale at market value on the last day of the period reported. Dividends and distributions, if any, are assumed reinvested on the reinvestment date. Total return is not computed on an annualized basis.
- (5) Ratios do not reflect the effect of dividend payments to preferred shareholders. Ratios to average net assets attributable to common shares reflect the Trust's leverage capital structure.
- (6) Annualized.
- (7) Calculated by subtracting the Trust's total liabilities (not including the preferred shares) from total assets, and dividing this by the number of preferred shares outstanding.
- (8) Plus accumulated and unpaid dividends.

See notes to financial statements.

EATON VANCE SENIOR INCOME TRUST AS OF JUNE 30, 2002

NOTES TO FINANCIAL STATEMENTS

1 Significant Accounting Policies

Eaton Vance Senior Income Trust (the Trust) is an entity commonly known as a Massachusetts business trust and is registered under the Investment Company Act of 1940 as a non-diversified closed-end management investment company. The Trust's investment objective is to provide a high level of current income consistent with the preservation of capital, by investing primarily in senior, secured floating rate loans. The following is a summary of significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

Certain prior year amounts have been reclassified for presentation purposes.

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

A Investment Valuation -- The Trust's investments are primarily in interests in senior floating rate loans (Senior Loans). Certain Senior Loans are deemed liquid because reliable market quotations are readily available for them. Liquid loans are valued on the basis of prices furnished by a pricing service. Other Senior Loans are valued at fair value by the Trust's investment adviser, Eaton Vance Management (EVM), under procedures established by the Trustees as permitted by Section 2(a)(41) of the Investment Company Act of 1940. Such procedures include the consideration of relevant factors, data and information relating to fair value, including (i) the characteristics of and fundamental analytical data relating to the Senior Loan, including the cost, size, current interest rate, period until next interest rate reset, maturity and base lending rate of the Senior Loan, the terms and conditions of the Senior Loan and any related agreements and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the Borrower, based on evaluations of its financial condition, financial statements and information about the Borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the Senior Loan including price quotations for and trading in the Senior Loan and interests in similar loans and the market environment and investor attitudes towards the Senior Loan and interests in similar loans; (v) the reputation and financial condition of the agent and any intermediate participant in the loan; and (vi) general economic and market conditions affecting the fair value of the Senior Loan. Other portfolio securities (other than short-term obligations, but including listed issues) may be valued on the basis of prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities using market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. In certain circumstances, portfolio securities will be valued at the last sales price on the exchange that is the primary market for such securities, or the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales during the day. The value of interest rate swaps is determined by changes in the relationship between two rates of interest. Short-term obligations which mature in sixty days or less are valued at amortized cost, if their original term to maturity when acquired by the Trust was 60 days or less or are valued at amortized cost using their value on the 61st day prior to maturity, if their original term to maturity when acquired by the Trust was more than 60 days, unless in each case this is determined not to represent fair value. Repurchase agreements are valued at cost plus accrued interest. Other portfolio securities for which there are no quotations or valuations are valued at fair value as determined in good faith by or on behalf of the Trustees.

B Income -- Interest income from Senior Loans is recorded on the accrual basis at the then-current interest rate, while all other interest income is determined on the basis of interest accrued, adjusted for amortization of premium or discount. Facility fees received are recognized as income over the expected term of the loan. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. Effective July 1, 2001, the Trust adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies, as revised, effective for fiscal years beginning after December 15, 2000. As required, the Trust began accreting market discounts and premiums on debt securities effective July 1, 2001. The cumulative effect of this accounting change had no impact on the total net assets, but resulted in a \$63,435 reduction in cost of securities and a corresponding \$63,435 increase in unrealized appreciation, based on securities held by the Trust on June 30, 2002.

The effect of this change for the year ended June 30, 2002 was to increase

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

net investment income by \$1,118, increase net realized gain by \$52,072, and decrease net unrealized appreciation by \$53,190.

The statement of changes in net assets and financial highlights for prior periods have not been restated to reflect these changes in policy.

C Federal Taxes -- The Trust's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary. At June 30, 2002, the Trust, for federal income tax purposes, had a capital loss carryover of \$29,482,716 which will expire on June 30, 2009 (\$1,925,241) and June 30, 2010 (\$27,557,475). These amounts will reduce taxable income arising from future net realized gain on investments, if any, to the extent permitted by the Internal Revenue Code and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Trust of any liability for federal income or excise tax.

At June 30, 2002 the undistributed ordinary income on a tax basis was \$1,647,268. The Trust did not have any undistributed long-term gains at December 31, 2001.

Additionally, at June 30, 2002, the Trust had net capital losses of \$11,045,646 attributable to security transactions incurred after October 31, 2001. These are treated as arising on the first day of the Trust's next taxable year.

D Expense Reduction -- Investors Bank & Trust Company (IBT) serves as custodian of the Trust. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balances the Trust maintains with IBT. All significant credit balances used to reduce the Trust's custodian fees are reported as a reduction of expenses on the Statement of Operations.

E Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

F Other -- Investment transactions are accounted for on the date the investments are purchased or sold. Gains and losses on securities sold are determined on the basis of identified cost.

2 Auction Preferred Shares (APS)

The Trust issued 2,200 shares of Auction Preferred Shares Series A and 2,200 shares of Auction Preferred Shares Series B on June 27, 2001 in a public offering. The underwriting discount and other offering costs were recorded as a reduction to paid in capital. Dividends on the APS, which accrue daily, are paid cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividend rates at June 30, 2002 were 1.95% and 1.95% for Series A and Series B Shares, respectively. Series A and Series B are identical in all respects except for the dates of reset for the dividend rates.

The APS are redeemable at the option of the Trust, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

dividends, if the Trust is in default on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Trust is required to maintain certain asset coverage with respect to the APS as defined in the Trust's By-Laws. The Trust pays annual fees equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

In accordance with the provisions of EITF D-98, "Classification and Measurement of Redeemable Securities", effective for the current period, the Trust has reclassified its APS Shares outside of permanent equity in the net assets section of the statement of assets and liabilities. In addition, distributions to APS shareholders are now classified as a component of the "Net increase in net assets from operations" on the statements of operations and statement of changes in net assets, and as a component of the "Total income (loss) from operations" in the financial highlights. Prior year amounts presented have been restated to conform to this period's presentation. This change has no impact on the net assets applicable to common shares of the Trust.

3 Distributions to Shareholders

The Trust intends to make monthly distributions to common shareholders of net investment income, after payment of any dividends on any outstanding preferred shares. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the Auction Preferred Shares is generally seven days. The applicable dividend rate for the Auction Preferred Shares on June 30, 2002 was 1.95% and 1.95%, for Series A and Series B Shares, respectively. For the year ended June 30, 2002, the Trust paid dividends to Auction Preferred shareholders amounting to \$1,374,703 and \$1,374,703 for Series A and Series B Shares, respectively, representing an average APS dividend rate for such period of 2.45% and 2.45%, respectively.

4 Common Shares of Beneficial Interest

The Agreement and Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares of beneficial interest. Transactions in common shares were as follows:

	Year Ended June 30,	
	2002	2001
Issued to shareholders electing to receive payments of distributions in Trust common shares	81,797	206,282
Net increase	81,797	206,282

5 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at a monthly rate of 17/240 of 1% (0.85% annually) of the Trust's average weekly gross assets, was earned by EVM as compensation for management and investment advisory services rendered

Edgar Filing: EATON VANCE SENIOR INCOME TRUST - Form N-30D

to the Trust. For the year ended June 30, 2002, the fee was equivalent to 0.85% of the Trust's average daily gross assets and amounted to \$4,407,992. Except for Trustees of the Trust who are not members of EVM's organization, officers and Trustees receive remuneration for their services to the Trust out of such investment adviser fee. EVM also serves as the administrator of the Trust. An administration fee, computed at the monthly rate of 1/48 of 1% (0.25% annually) of the average weekly gross assets of the Trust, is paid to EVM for managing and administering business affairs of the Trust. For the year ended June 30, 2002, the fee was equivalent to 0.25% of the Trust's average daily gross assets for such period and amounted to \$1,296,002.

Certain officers and Trustees of the Trust are officers of the above organization.

During the year ended June 30, 2002, the Trust engaged in purchase and sale transactions with other funds that also utilize EVM, or an affiliate of EVM, as an investment adviser. These purchases and sales transactions complied with Rule 17-a7 under the Investment Company Act of 1940 and amounted to \$10,970,797 and \$1,960,627 respectively.

6 Investment Transactions

The Trust invests primarily in Senior Loans. The ability of the issuers of the Senior Loans held by the Trust to meet their obligations may be affected by economic developments in a specific industry. The cost of purchases and the proceeds from principal repayments and sales of Senior Loans and corporate bonds aggregated \$362,453,081 and \$340,055,220, respectively, for the year ended June 30, 2002.

7 Short-Term Debt and Credit Agreements

The Trust has entered into a revolving credit agreement that will allow the Trust to borrow \$120 million to support the issuance of commercial paper and to permit the Trust to invest in accordance with its investment practices. Interest is charged under the revolving credit agreement at the bank's base rate or at an amount above either the bank's adjusted certificate of deposit rate or federal funds effective rate. Interest expense includes a commitment fee of approximately \$181,000 which is computed at the annual rate of 0.15% on the unused portion of the revolving credit agreement. There were no significant borrowings under this agreement during the period. As of June 30, 2002, the Trust had commercial paper outstanding of \$105,000,000, at an interest rate of 1.77%. Maximum and average borrowings for the year ended June 30, 2002 were \$110,000,000 and approximately \$100,000,000, respectively, and the average interest rate was 2.49%.

8 Federal Income Tax Basis of Unrealized Appreciation (Depreciation)

The cost and unrealized appreciation (depreciation) in value of the investment securities at June 30, 2002, as computed on a federal income tax basis, were as follows:

Aggregate cost	\$518,695,493
Gross unrealized appreciation	\$ 3,377,390
Gross unrealized depreciation	18,975,347
Net unrealized depreciation	\$ 15,597,427

NOTES TO FINANCIAL STATEMENTS CONT'D

To the Trustees and Investors
of Eaton Vance Senior Income Trust

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Eaton Vance Senior Income Trust (the Trust) as of June 30, 2002, and the related statement of operations and cash flows for the year then ended, the statement of changes in net assets for each of the years in the two-year period ended June 30, 2002 and the financial highlights for each of the years in the four-year period then ended June 30, 2002. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. Our procedures included confirmation of securities and Senior Loans owned at June 30, 2002 by correspondence with the custodian, brokers and selling or agent banks; where replies were not received from brokers and selling or agent banks, we performed other auditing procedures. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, such financial statements and financial highlights, referred to above, present fairly, in all material respects, the financial position of Eaton Vance Senior Income Trust at June 30, 2002, and the results of its operations, the changes in its net assets, its cash flows and its financial highlights for the respective stated periods in conformity with accounting principles generally accepted in the United States of America.

EATON VANCE SENIOR INCOME TRUST

DIVIDEND REINVESTMENT PLAN

The Trust offers a dividend reinvestment plan (the Plan) pursuant to which shareholders automatically have dividends and capital gains distributions reinvested in common shares (the Shares) of the Trust unless they elect otherwise through their investment dealer. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee,
