Ask Scott Rowe Video Feature – October 5, 2015

Employee Question: What are your initial thoughts about the Schlumberger acquisition?

Scott Rowe: We met three weeks ago with the leadership team off-site to discuss the long-range strategy for Cameron. We called it Cameron 21 or Taking Cameron to the Year 2021. In that plan, we laid out a five-year road map to get us to our strategic vision and where we think the organization should be in the year 2021. With Schlumberger, I believe we only accelerate all of the discussion that we had 2 weeks ago. Schlumberger opens up new markets to us that quite frankly we didn't have access to, or we weren't focused on. They're strong with customers where we're not necessarily strong. Schlumberger is going to commit more money on new product development or research than Cameron could ever have done as a stand-alone business. Really I think our strategic initiatives stay relatively the same, but we accelerate the pace in achieving those.

#### CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This communication includes forward-looking statements made in reliance upon the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Among other things, these forward-looking statements may include statements regarding the proposed merger between the Company and Schlumberger; our beliefs relating to value creation as a result of a potential combination with Schlumberger; the expected timetable for completing the transaction; benefits and synergies of the transaction; future opportunities for the combined company; and any other statements regarding the Company's and Schlumberger's future beliefs, expectations, plans, intentions, financial condition or performance.

The Company's actual results may differ materially from those described in forward-looking statements. Such statements are based on current expectations of the Company's performance and are subject to a variety of factors, some of which are not under the control of the Company, which can affect the Company's results of operations, liquidity or financial condition. Such factors may include overall demand for, and pricing of, the Company's products, particularly as affected by North American activity; the size and timing of orders; the Company's ability to successfully execute the large subsea and drilling systems projects it has been awarded; the possibility of cancellations of orders; the Company's ability to convert backlog into revenues on a timely and profitable basis; the impact of acquisitions the Company has made or may make; changes in the price of (and demand for) oil and gas in both domestic and international markets; raw material costs and availability; political and social issues affecting the

countries in which the Company does business; fluctuations in currency markets worldwide; and variations in global economic activity. In particular, current and projected oil and gas prices historically have generally directly affected customers' spending levels and their related purchases of the Company's products and services. Additionally, changes in oil and gas price expectations may impact the Company's financial results due to changes it may make in its cost structure, staffing or spending levels. Other risks and uncertainties include the timing and likelihood of completion of the proposed merger between the Company and Schlumberger, including the timing, receipt and terms and conditions of any required governmental and regulatory approvals for the proposed merger that could reduce anticipated benefits or cause the parties to abandon the transaction; the possibility that the Company's stockholders may not approve the proposed merger; the possibility that the expected synergies and value creation from the proposed merger will not be realized or will not be realized within the expected time period; the risk that the businesses of the Company and Schlumberger will not be integrated successfully; disruption from the proposed merger making it more difficult to maintain business and operational relationships; the risk that unexpected costs will be incurred; the possibility that the proposed merger does not close, including due to the failure to satisfy the closing conditions; as well as more specific risks and uncertainties. Such other risks and uncertainties are discussed in our most recent report on Form 10-K and subsequent reports on Forms 10-Q and 8-K as well as on Schlumberger's most recent report on Form 10-K and subsequent reports on Forms 10-Q and 8-K. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made, are not guarantees of future performance or results, and are subject to risks, uncertainties and assumptions that are difficult to predict or quantify. Because the information herein is based solely on data currently available, it is subject to change as a result of changes in conditions over which the Company has no control or influence, and should not therefore be viewed as assurance regarding the Company's future performance. The Company undertakes no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by law.
