**Commission file number 001-5111**

**THE J. M. SMUCKER COMPANY**

**(Exact name of registrant as specified in its charter)**

<b>Ohio</b> (State or other jurisdiction of incorporation or organization)	<b>34-0538550</b> (I.R.S. Employer Identification No.)
<b>One Strawberry Lane</b> <b>Orrville, Ohio</b> (Address of principal executive offices)	<b>44667-0280</b> (Zip code)
<b>Registrant's telephone number, including area code (330) 682-3000</b>	

**Securities registered pursuant to Section 12(b) of the Act:**

<b>Title of each class</b>	<b>Name of each exchange on which registered</b>
<b>Common shares, no par value</b>	<b>New York Stock Exchange</b>
<b>Rights to purchase preferred shares</b>	<b>New York Stock Exchange</b>

**Securities registered pursuant to Section 12(g) of the Act: None**

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes  No

Edgar Filing: J M SMUCKER Co - Form 10-K

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The aggregate market value of the common shares held by nonaffiliates of the registrant at October 31, 2014, was \$9,803,675,128. As of June 15, 2015, 119,666,585 common shares of The J. M. Smucker Company were issued and outstanding.

### DOCUMENTS INCORPORATED BY REFERENCE

Certain sections of the registrant's definitive Proxy Statement to be filed in connection with its Annual Meeting of Shareholders to be held on August 12, 2015, are incorporated by reference into Part III of this Report, and certain sections of the registrant's 2015 Annual Report to Shareholders are incorporated by reference into Parts I and II of this Report.

The Index of Exhibits for this Report begins on page 25.

---

## PART I

### Item 1. Business.

**The Company.** The J. M. Smucker Company ( Company, registrant, we, us, or our ) was established in 1897, was incorporated in Ohio in 1921, and is often referred to as *Smucker's* (a registered trademark). We operate principally in one industry, the manufacturing and marketing of branded food products on a worldwide basis, although the majority of our sales are in the U.S. Our operations outside the U.S. are principally in Canada, although products are exported to other countries as well. Net sales outside the U.S., subject to foreign currency exchange, represented 8 percent of consolidated net sales for 2015. Our branded food products include a strong portfolio of trusted, iconic, market-leading brands that are sold to consumers through retail outlets in North America.

On March 23, 2015, we completed the acquisition of Big Heart Pet Brands ( Big Heart ), a leading producer, distributor, and marketer of premium-quality, branded pet food and pet snacks in the U.S. The cash and stock transaction was valued at \$5.9 billion, which included the assumption of \$2.6 billion in debt that we refinanced at closing. We issued 17.9 million shares of our common stock to the shareholders of Blue Acquisition Group, Inc., Big Heart's parent company, and paid \$1.2 billion in cash, subject to a working capital adjustment. After the closing of the transaction on March 23, 2015, we had approximately 120.0 million common shares outstanding. We funded the non-equity portion of the acquisition through the combination of a \$1.8 billion bank term loan and \$3.7 billion in long-term notes.

We have four reportable segments: U.S. Retail Coffee, U.S. Retail Consumer Foods, U.S. Retail Pet Foods, and International, Foodservice, and Natural Foods. The U.S. retail market segments in total comprised over 75 percent of 2015 consolidated net sales and represent a major portion of our strategic focus—the sale of branded food products with leadership positions to consumers through retail outlets in North America. The International, Foodservice, and Natural Foods segment represents sales outside of the U.S. retail market segments.

**Principal Products.** Our principal consumer food and beverage products are coffee, peanut butter, fruit spreads, shortening and oils, baking mixes and ready-to-spread frostings, canned milk, flour and baking ingredients, juices and beverages, frozen sandwiches, toppings, syrups, pickles, condiments, grain products, and nut mix products. Our pet products consist of dry and wet dog food, dry and wet cat food, dog snacks, and cat snacks.

Product sales information for the years 2015, 2014, and 2013 is incorporated herein by reference to information set forth in our 2015 Annual Report to Shareholders on page 60 under Note 3: Reportable Segments.

In the U.S. retail market segments, our products are primarily sold through a combination of direct sales and brokers to food retailers, food wholesalers, drug stores, club stores, mass merchandisers, discount and dollar stores, military commissaries, and pet specialty stores. In the International, Foodservice, and Natural Foods segment, our products are distributed domestically and in foreign countries through retail channels, foodservice distributors and operators (e.g., restaurants, lodging, schools and universities, health care operators), and natural foods stores and distributors.

**Sources and Availability of Raw Materials.** The raw materials used in each of our segments are primarily commodities and agricultural-based products. Green coffee, peanuts, edible oils, wheat, sweeteners, corn, milk, fruit, vegetables, cocoa, poultry meal, soybean meal, meat, meat by-products, and other ingredients are obtained from various suppliers. The availability, quality, and costs of many of these commodities have fluctuated, and may continue to fluctuate, over time. Basis, futures, and options contracts are used to manage price volatility for a significant portion of our commodity costs. Green coffee, along with certain other raw materials, is sourced solely from foreign countries and its supply and price is subject to high volatility due to factors such as weather, global supply and demand, pest damage, investor speculation, and political and economic conditions in the source countries. We source peanuts, edible oils,

and wheat mainly from North America. The principal packaging materials we use are plastic,

glass, metal cans, caps, carton board, and corrugate. For additional information on the commodities we purchase, see *Commodities Overview* on pages 31 and 32 in our 2015 Annual Report to Shareholders.

Raw materials are generally available from numerous sources, although we have elected to source certain plastic packaging materials from single sources of supply pursuant to long-term contracts. While availability may vary year-to-year, we believe that we will continue to be able to obtain adequate supplies and that alternatives to single-sourced materials are available. We have not historically encountered significant shortages of key raw materials. We consider our relationships with key raw material suppliers to be good.

**Trademarks and Patents.** Our products are produced under certain patents and marketed under numerous trademarks owned or licensed by us or one of our subsidiaries. Our major trademarks are listed below.

<b>Primary Reportable Segment</b>	<b>Major Trademark</b>
U.S. Retail Coffee	<i>Folgers</i> <sup>®</sup> and <i>Dunkin Donuts</i> <sup>®</sup>
U.S. Retail Consumer Foods	<i>Smucker's</i> <sup>®</sup> , <i>Jif</i> <sup>®</sup> , <i>Crisco</i> <sup>®</sup> , <i>Pillsbury</i> <sup>®</sup> , and <i>Uncrustables</i> <sup>®</sup>
U.S. Retail Pet Foods	<i>Meow Mix</i> <sup>®</sup> , <i>Milk-Bone</i> <sup>®</sup> , <i>Kibbles n Bits</i> <sup>®</sup> , <i>Natural Balance</i> <sup>®</sup> , <i>9Lives</i> <sup>®</sup> , <i>Pup-Peroni</i> <sup>®</sup> , <i>Gravy Train</i> <sup>®</sup> , and <i>Nature's Recipe</i> <sup>®</sup>
International, Foodservice, and Natural Foods	<i>Smucker's</i> , <i>Folgers</i> , and <i>Douwe Egberts</i> <sup>®</sup>

*Dunkin Donuts* is a registered trademark of DD IP Holder LLC used under license (the *Dunkin License*) for packaged coffee products, including K-Cup<sup>®</sup> pods, sold in retail channels such as grocery stores, mass merchandisers, club stores, and drug stores. The *Dunkin License* does not pertain to *Dunkin Donuts* coffee or other products for sale in *Dunkin Donuts* restaurants. The terms of the *Dunkin License* include the payment of royalties to an affiliate of DD IP Holder LLC and other financial commitments by the Company. The *Dunkin License* is in effect until January 1, 2039.

*Pillsbury*, the Barrelhead logo, and the Doughboy character are trademarks of The Pillsbury Company, LLC and are used under a 20-year, perpetually renewable, royalty-free license. *Borden*<sup>®</sup> and the Elsie design are trademarks used on certain products under a perpetual, exclusive, and royalty-free license. *Carnation*<sup>®</sup> is a trademark of Société des Produits Nestlé S.A. used by our Canadian subsidiary for certain canned milk products in certain territories under an exclusive and royalty-free license with an initial term of 10 years which expires in October 2017, renewable for two successive 5-year terms, and which becomes perpetual at the end of the renewal terms under certain circumstances. *Douwe Egberts* and *Pickwick*<sup>®</sup> are registered trademarks of D.E Master Blenders 1753 N.V. and are used under a multi-year license which expires in January 2019. In accordance with a multi-year licensing and distribution agreement entered into with Cumberland Packing Corp. ( *Cumberland* ), we market and distribute *Cumberland's* branded tabletop sweeteners sold under the *Sweet N Low*<sup>®</sup>, *NatraTaste*<sup>®</sup>, *Sugar In The Raw*<sup>®</sup>, and other *In The Raw* brands to foodservice customers in the U.S. and to retail and foodservice customers in Canada. *Keurig*<sup>®</sup> and *K-Cup*<sup>®</sup> are trademarks of Keurig Green Mountain, Inc. ( *Keurig* ), used with permission. In addition, we and our subsidiaries license the use of several other trademarks, none of which are individually material to our business.

Slogans or designs considered to be important trademarks include, without limitation, *With A Name Like Smucker's*, *It Has To Be Good*<sup>®</sup>, *The Best Part of Wakin Up Is Folgers In Your Cup*<sup>®</sup>, *Mountain Grown design*, *Choosy Moms Choose Jif*<sup>®</sup>, *Purely The Finest*<sup>®</sup>, *Crisco is Cooking*, *Everybody's Happy When It's Hungry Jack*<sup>®</sup>, *Goodness Gracious, It's Good!*<sup>®</sup>, *The Only One Cats Ask For By Name*<sup>®</sup>, *Say It With Milk-Bone*, the *Smucker's* banner, the Crock Jar shape, the Gingham design, and the Strawberry, *Milk-Bone*, and *9Lives* logos.

We own several hundred patents worldwide in addition to proprietary trade secrets, technology, know-how processes, and other intellectual property rights that are not registered.

We consider all of our owned and licensed intellectual property, taken as a whole, to be essential to our business.

**Seasonality.** The U.S. Retail Coffee and U.S. Retail Consumer Foods segments are particularly seasonal around the Fall Bake and Holiday period, which generally results in higher sales and profits in our second and third quarters. Our success in promoting and merchandising our coffee and baking brands during the Fall Bake and Holiday period has a significant impact on our results for a fiscal year. The Back to School period and the Spring Holiday season are two other important promotional periods, although their impact is not as significant as the Fall Bake and Holiday period.

**Working Capital.** Working capital requirements are greatest during the first half of our fiscal year mainly due to the timing of the buildup of coffee, oil, baking, and milk inventories necessary to support the Fall Bake and Holiday period and the additional buildup of coffee inventory in advance of the Atlantic hurricane season.

**Customers.** Sales to Wal-Mart Stores, Inc. and subsidiaries amounted to 28 percent, 27 percent, and 26 percent of net sales in 2015, 2014, and 2013, respectively. These sales are primarily included in the U.S. retail market segments. No other customer exceeded 10 percent of net sales during 2015, 2014, or 2013. Within the Big Heart business, sales to Wal-Mart Stores, Inc. and subsidiaries represent a larger portion of net sales, as compared to our business prior to the acquisition. As a result, beginning in 2016, we anticipate that sales to Wal-Mart Stores, Inc. and subsidiaries will represent a larger portion of net sales than in 2015 due to a full year of Big Heart sales.

During 2015, our top 10 customers, collectively, accounted for approximately 60 percent of consolidated net sales. Supermarkets, warehouse clubs, and food distributors continue to consolidate, and we expect that a significant portion of our revenues will continue to be derived from a limited number of customers. Although the loss of any large customer for an extended length of time could negatively impact our sales and profits, we do not anticipate that this will occur to a significant extent due to strong consumer demand for our brands.

**Orders.** Generally, orders are filled within a few days of receipt, and the backlog of unfilled orders at any particular time has not been material on a historical basis.

**Government Business.** No material portion of our business is subject to renegotiation of profits or termination of contracts at the election of the government.

**Competition.** Within consumer foods and beverages, we are the branded market leader in the coffee, peanut butter, fruit spreads, shortening, sweetened condensed milk, ice cream toppings, and natural beverage categories in the U.S. Within pet food and pet snacks, we are the branded market leader in the dog snacks category in the U.S. In Canada, we are the branded market leader in the flour, pickles, canned milk, fruit spreads, shortening, and ice cream toppings categories. Our business is highly competitive as all of our brands compete for retail shelf space with other branded products as well as private label products.

In order to remain competitive, companies in the food industry need to consider emerging consumer preferences, technological advances, product and packaging innovations, and the continued growth of alternative store formats, including warehouse clubs, convenience stores, and e-commerce. The primary ways in which products and brands are distinguished are brand recognition, product quality, price, packaging, new product introductions, nutritional value, convenience, advertising, promotion, and the ability to identify and satisfy consumer preferences. Positive factors pertaining to our competitive position include well-recognized brands, high-quality products, consumer trust, experienced brand and category management, a single national grocery broker in the U.S., varied product offerings, product innovation, good customer service, and an integrated distribution network.

The packaged foods industry has been challenged recently by a general decline in sales volume in the center of the store. Certain evolving consumer trends have contributed to the decline, such as a

heightened focus on health and wellness, an increased desire for fresh foods, and the growing impact of social media and e-commerce on consumer behavior. To address these dynamics, we continue to focus on innovation with an increased emphasis on products that satisfy evolving consumer trends.

In addition, private label has grown in recent years due to general economic uncertainty, improvements in private label quality, and the increased emphasis of store brands by retailers in an effort to cultivate customer loyalty. In the pet food and pet snacks categories, private label penetration has declined below levels seen in consumer food and beverage categories. We believe that both private label and leading brands play an important role in the food categories in which we compete, appealing to different consumer segments. We closely monitor the price gap or price premium between our brands and private label brands, with the view that value is about more than price and the expectation that #1 brands will continue to be an integral part of consumers' shopping baskets.

In the U.S. Retail Coffee segment, the *Folgers* brand competes in the highly competitive U.S. packaged roast and ground coffee market with other retail coffee brands such as *Maxwell House*, *Yuban*, and *Chock full o' Nuts*. We participate in the premium coffee market through sales of *Dunkin' Donuts* retail packaged coffee products, as well as with the *Folgers Gourmet Selections*<sup>®</sup> and *Millstone*<sup>®</sup> brands. Competitors include other brands such as *Starbucks*, *Gevalia*, *Eight O' Clock*, *Seattle's Best*, *Peet's Coffee & Tea*, and *McCafe*. Through a manufacturing and distribution agreement with Keurig, we compete in the single serve coffee market with the *Folgers*, *Folgers Gourmet Selections*, *Millstone*, and *Café Bustelo*<sup>®</sup> premium coffees K-Cup<sup>®</sup> pods. Additionally, under a new, multi-year agreement, at the beginning of fiscal 2016 we began selling *Dunkin' Donuts* K-Cup<sup>®</sup> pods to grocery chains, mass merchandisers, club stores, drug stores, dollar stores, home improvement stores, and online retailers. K-Cup competing brands include *Green Mountain*, *Starbucks*, *Eight O' Clock*, *Maxwell House*, and *Gevalia*, as well as many private label brands. We participate in the espresso coffee category with the *Café Bustelo* and *Café Pilon*<sup>®</sup> brands.

In the U.S. Retail Consumer Foods segment, the *Jif* brand has been the leader in the peanut butter category for over 20 years, competing primarily with *Skippy*, *Peter Pan*, and many private label brands. Our natural peanut butter business, sold under the *Jif*, *Smucker's*, *Adam's*<sup>®</sup>, and *Laura Scudder's*<sup>®</sup> brands, maintains a strong leadership position in the natural peanut butter category. Our fruit spreads brands, primarily *Smucker's*, hold the leading position in the fruit spreads category and compete with *Welch's* branded line of fruit spreads and many private label brands. The competing brands exist on both a national and a regional level. Besides the brands with which we compete in the peanut butter and fruit spreads categories, our overall spreads business has been impacted by the recent growth of the hazelnut spreads category, primarily the *Nutella* brand. *Crisco* has historically been a leader in the shortening and cooking oils categories. *Crisco* holds the leading branded position in the shortening category and competes with other branded competitors, including *Wesson*, for the leading branded position in the oils category. The oils category in which *Crisco* competes is highly competitive with private label competitors, collectively, maintaining the largest share of the category. The *Pillsbury* brand competes in the dessert baking mixes (DBM) category that includes mixes for cakes, cookies, brownies, muffins, and quick breads, as well as ready-to-spread frostings. Within the DBM category, we compete primarily with the market leader, *Betty Crocker*, as well as *Duncan Hines* and many private label and regional brands. In the ingredients category, *Pillsbury* flour competes with the branded market leader, *Gold Medal*, as well as many private label brands which, collectively, maintain the largest share of the category. *Smucker's Uncrustables* is the market leader in the frozen peanut butter sandwiches segment. The *Hungry Jack*<sup>®</sup> brand competes in the pancake mix and table syrup categories. We compete with several major national as well as private label brands in this category. We compete in the canned milk category with both branded and nonbranded products. We are the branded market leader in the sweetened condensed milk category with the *Eagle Brand*<sup>®</sup> and *Magnolia*<sup>®</sup> brands and have significant sales with production of private label brands. In the evaporated milk category, we have a significant presence with our production of private label brands.

In the U.S. Retail Pet Foods segment, our pet products portfolio includes well-recognized national brands such as *Meow Mix*, *Milk-Bone*, *Kibbles 'n Bits*, *Natural Balance*, *9Lives*, and *Pup-Peroni*, as well as other brand names and private label products. We hold the #1 market share in the dog snacks

category (excluding rawhide), the #2 market share in both the dry and wet cat food categories, and the #3 market share in the dry dog food category. We compete with other branded pet food and pet snacks products. In the dry and wet dog food categories, our main competitors are *Dog Chow*, *Beneful*, *Beyond*, *Pedigree*, *Nutro*, *Iams*, *Hill's*, and *Blue*. We compete in the dry and wet cat food categories with *Friskies*, *Fancy Feast*, *Cat Chow*, *Sheba*, *Whiskas*, *Iams*, *Hill's*, and *Blue*. Our main competitors in the dog and cat snacks categories are *Beggin Strips*, *Waggin Train*, *Dentastix*, and *Greenies*. In addition, we face competition from smaller branded and private label pet food and pet snacks products.

In the International, Foodservice, and Natural Foods segment, our products are distributed domestically and in foreign countries and compete with various brands within retail, foodservice, and natural foods markets. In our foodservice hot beverage business, *Folgers* and *Douwe Egberts* compete in the liquid and roast and ground coffee categories. In the liquid category, *Nescafe* is a key competitor, along with a variety of branded and private label competitors. In the roast and ground category, private label has a significant presence, and several national and regional brands are also competitors. In our foodservice portion control business, *Smucker's* competes in the fruit spreads category with *Heinz* and many private label brands. In Canada, *Robin Hood*<sup>®</sup> and *Five Roses*<sup>®</sup> are the market leaders in the flour category, competing primarily with private label brands. In the Canadian retail coffee market, *Folgers* competes with the market leader, *Maxwell House*, as well as several other branded competitors and some private label brands. In our natural foods business, *R. W. Knudsen Family*<sup>®</sup> is the branded market leader in the natural shelf stable juice category, competing primarily with *Lakewood* and many private label brands. *Santa Cruz Organic*<sup>®</sup> competes in several natural food and beverage categories with national and regional brands, as well as private label. Within the grains products category, *truRoots*<sup>®</sup> is a leading organic quinoa brand, competing primarily with *Ancient Harvest*. We also compete in the 75 countries to which we export our products. The majority of our export sales are to the Latin America markets.

Research and Development. We predominantly utilize in-house resources to both develop new products and improve existing products in each of our business areas. Amounts expensed for research and development were \$32.5 million, \$24.3 million, and \$24.7 million in 2015, 2014, and 2013, respectively.

Environmental Matters. We consider environmental sustainability to be our responsibility as a good corporate citizen and a key strategic focus area. We have implemented and manage a variety of programs, including the utilization of renewable energy technology, improved wastewater management, increased usage of sustainable raw materials including green coffee, and reuse of resources rather than consuming new ones, in support of our commitment to environmental sustainability. We continue to evaluate and modify our processes on an ongoing basis to further reduce our impact on the environment and reduce waste.

Compliance with the provisions of enacted or pending federal, state, and local environmental regulations regarding either the discharge of materials into the environment or the protection of the environment is not expected to have a material effect upon our capital expenditures, earnings, or competitive position in 2016.

Employees. At April 30, 2015, we had 7,370 full-time employees worldwide, of which 28 percent, located at 10 manufacturing facilities, are covered by union contracts. These contracts vary in term depending on the location, with three contracts expiring in 2016, representing 11 percent of our total employees. We believe our relations with our employees are good.

Financial Information about Industry Segments and Geographical Areas. The financial information required to be included in this item concerning reportable industry segments and international operations for the years 2015, 2014, and 2013 is incorporated herein by reference to information set forth in our 2015 Annual Report to Shareholders, on pages 58 through 61, under Note 3: Reportable Segments. Our international operations are primarily in Canada with risks similar to those associated with the U.S. retail markets. Approximately 40 percent of our 2015 Canada sales represented the sale of Canadian produced products to Canadian customers. The majority of the remaining Canada sales represented the

sale of products produced in the U.S. to Canadian customers, primarily *Folgers* coffee, *Bick's*<sup>®</sup> pickles, *Crisco* shortening and oils, and *Smucker's* fruit spreads.

**Forward-Looking Statements.** This Report includes forward-looking statements that are based on current expectations and are subject to a number of risks and uncertainties that could cause actual results to differ materially from expected or projected results. The descriptions of risks and uncertainties relating to forward-looking statements are incorporated herein by reference to information set forth in our 2015 Annual Report to Shareholders under the caption Forward-Looking Statements on page 42.

**Available Information.** Access to all of our Securities and Exchange Commission (SEC) filings, including our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the Exchange Act), is provided, free of charge, on our website ([jmsmucker.com/investor-relations](http://jmsmucker.com/investor-relations)) as soon as reasonably practicable after such reports are electronically filed with, or furnished to, the SEC.

### **Item 1A. Risk Factors.**

Our business, operations, and financial condition are subject to various risks and uncertainties. The risk factors described below should be carefully considered, together with the other information contained or incorporated by reference in this Report and our other filings with the SEC, in connection with evaluating the Company, our business, and the forward-looking statements contained in this Report. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may affect us. The occurrence of any of these known or unknown risks could have a material adverse impact on our business, financial condition, and results of operations.

We may be unable to grow market share of our products.

We operate in the competitive food industry whose growth potential is generally correlated to population growth. Our success depends in part on our ability to grow our brands faster than the population in general. We consider our ability to build and sustain the equity of our brands critical to our market share growth. If we do not succeed in these efforts, our market share growth may slow, which could have a material impact on our results of operations.

Our proprietary brands, packaging designs, and manufacturing methods are essential to the value of our business, and the inability to protect these could harm the value of our brands and adversely affect our sales and profitability.

The success of our business depends significantly on our brands, know-how, and other intellectual property. We rely on a combination of trademarks, service marks, trade secrets, patents, copyrights, and similar rights to protect our intellectual property. The success of our growth strategy depends on our continued ability to use our existing trademarks and service marks in order to maintain and increase brand awareness and further develop our brand. If our efforts to protect our intellectual property are not adequate, or if any third party misappropriates or infringes on our intellectual property, the value of our brand may be harmed, which could have a material adverse effect on our business. From time to time, we are engaged in litigation to protect our intellectual property, which could result in substantial costs as well as diversion of management attention.

In particular, we consider our proprietary coffee roasting methods essential to the consistent flavor and richness of our coffee products and, therefore, essential to our coffee brands. Because many of the roasting methods we use are not protected by patents, it may be difficult for us to prevent competitors from copying our roasting methods if such

methods become known. We also believe that our packaging innovations, such as brick packaging technology and our *AromaSeal*<sup>™</sup> canisters, are important to the coffee business marketing and operational efforts. If our

competitors copy our roasting or packaging methods or develop more advanced roasting or packaging methods, the value of our coffee brands may be diminished, and we could lose customers to our competitors.

We use a single national broker to represent a portion of our branded products to the retail grocery trade and any failure by the broker to effectively represent us could adversely affect our business.

We use a single national broker in the U.S. to represent a portion of our branded products to the retail grocery trade. Our business would suffer disruption if this broker were to default in the performance of its obligations to perform brokerage services or if this broker fails to effectively represent us to the retail grocery trade, which could adversely affect our business.

Loss or interruption of supply from single-source suppliers of raw materials and finished goods could have a disruptive effect on our business and adversely affect our results of operations.

We have elected to source certain raw materials, such as packaging for our *Folgers* coffee products, as well as our *Jif* peanut butter and *Crisco* oil products, and finished goods, such as K-Cup<sup>®</sup> pods and our *Pup-Peroni* dog snack products, from single sources of supply. While we believe that, except as set forth below, alternative sources of these raw materials and finished goods could be obtained on commercially reasonable terms, loss or an extended interruption in supplies from a single-source supplier would result in additional costs, could have a disruptive short-term effect on our business, and could adversely affect our results of operations.

Keurig is our single-source supplier for K-Cup<sup>®</sup> pods which are used in its proprietary Keurig<sup>®</sup> K-Cup brewing system. There are a limited number of manufacturers other than Keurig that are making cups that will work in such proprietary brewing system. If Keurig is unable to supply K-Cup<sup>®</sup> pods to us for any reason, it could be difficult to find an alternative supplier for such goods on commercially reasonable terms, which could have a material adverse effect on our results of operations.

Our results may be adversely impacted as a result of increased cost, limited availability, and/or insufficient quality of raw materials, including commodities and agricultural products.

We and our business partners purchase and use large quantities of many different commodities and agricultural products in the manufacturing of our products, including green coffee, peanuts, edible oils, wheat, sweeteners, corn, milk, fruit, vegetables, cocoa, poultry meal, soybean meal, meat, and meat by-products. In addition, we and our business partners utilize significant quantities of plastic, glass, and cardboard to package our products and natural gas and fuel oil to manufacture, package, and distribute our products. The prices of these commodities, agricultural products, and other materials are subject to volatility and can fluctuate due to conditions that are difficult to predict, including global supply and demand, commodity market fluctuations, crop sizes and yield fluctuations, weather, natural disasters, currency fluctuations, investor speculation, trade agreements, political unrest, consumer demand, and changes in governmental agricultural programs. In addition, we compete for certain raw materials, notably corn and soy-based agricultural products, with the biofuels industry, which has resulted in increased prices for these raw materials. Additionally, farm acreage currently devoted to other agricultural products we purchase may be utilized for biofuels crops resulting in higher cost for the other agricultural products we utilize. Although we use basis, futures, and options contracts to manage commodity price volatility in some instances, commodity price increases ultimately result in corresponding increases in our raw material and energy costs.

We expect the green coffee commodity markets to continue to be challenging due to significant ongoing price volatility. For example, during the first half of the 2014 calendar year, drought conditions and coffee tree leaf rust

fungus affected production in key coffee-producing regions, such as Brazil and Central America. Due to the significance of green coffee to our coffee business, combined with our ability to only partially mitigate future price risk through purchasing

practices and hedging activities, significant increases or decreases in the cost of green coffee could have an adverse impact on our profitability. In addition, if we are not able to purchase sufficient quantities of green coffee due to any of the above factors or to a worldwide or regional shortage, we may not be able to fulfill the demand for our coffee, which could have a material adverse effect on our business, financial condition, and results of operations.

Our efforts to manage commodity, foreign currency exchange, and other price volatility through derivative instruments could adversely affect our results of operations and financial condition.

We use derivative instruments, including commodity futures and options, to reduce the price volatility associated with anticipated commodity purchases. The extent of our derivative position at any given time depends on our assessment of the markets for these commodities. If we fail to take a derivative position and costs subsequently increase, or if we institute a position and costs subsequently decrease, our costs may be greater than anticipated or higher than our competitors' costs and our financial results could be adversely affected. In addition, our liquidity may be adversely impacted by the cash margin requirements of the commodities exchanges or the failure of a counterparty to perform in accordance with a contract.

Beginning in 2015, we elected to mark-to-market all of our commodity and foreign currency exchange derivatives through the Statement of Consolidated Income. Prior to 2015, mark-to-market gains and losses on derivatives that qualified for hedge accounting as cash flow hedges were initially deferred in accumulated other comprehensive income. As a result of this change in accounting treatment, changes in the fair value of all of our derivatives are immediately recognized in consolidated earnings, resulting in increased volatility in both gross profit and net income. These gains and losses are reported in cost of products sold in our Statement of Consolidated Income but excluded from our segment operating results and non-GAAP earnings until the related inventory is sold, at which time the gains and losses are reclassified to segment profit and non-GAAP earnings. Although this change more accurately aligns the derivative gains and losses with the underlying exposure being hedged within segment results, we may experience more volatility in our consolidated earnings as a result of this change in accounting treatment.

We may be limited in our ability to pass cost increases on to our customers in the form of price increases or may realize a decrease in sales volume to the extent price increases are implemented.

We may not be able to pass some or all of any increases in the price of raw materials, energy, and other input costs to our customers by raising prices. To the extent competitors do not also increase their prices, customers and consumers may choose to purchase competing products or may shift purchases to private label or other lower-priced offerings, which may adversely affect our results of operations.

Consumers may be less willing or able to pay a price differential for our branded products, and may increasingly purchase lower-priced offerings and may forego some purchases altogether, especially during economic downturns. Retailers may also increase levels of promotional activity for lower-priced offerings as they seek to maintain sales volumes during times of economic uncertainty. Accordingly, sales volumes of our branded products could be reduced or lead to a shift in sales mix toward our lower-margin offerings. As a result, decreased demand for our products may adversely affect our results of operations.

Certain of our products are sourced from single manufacturing sites.

We have consolidated our production capacity for certain products, including substantially all of our coffee, *Milk-Bone* dog snacks, and fruit spreads, syrups, and toppings production, into single manufacturing sites. Similarly, most of our peanut butter is being produced at our facility in Lexington, Kentucky, although the conversion of our

facility in Memphis, Tennessee, into an additional peanut butter plant was completed in March 2015. We could experience a production

disruption at these or any of our manufacturing sites resulting in a reduction or elimination of the availability of some of our products. If we are not able to obtain alternate production capability in a timely manner, our business, financial condition, and results of operations could be adversely affected.

A significant interruption in the operation of any of our supply chain or distribution capabilities could have an adverse effect on our business, financial condition, and results of operations.

Our ability and the ability of our third-party suppliers and service providers, distributors, and contract manufacturers to manufacture, distribute, and sell products is critical to our success. A significant interruption in the operation of any of our manufacturing or distribution capabilities, or the manufacturing or distribution capabilities of our suppliers, distributors, or contract manufacturers, or a service failure by a third-party service provider, whether as a result of adverse weather conditions or a natural disaster, work stoppage, terrorism, pandemic illness, or other causes, could significantly impair our ability to operate our business. Notably, substantially all of our coffee production takes place in New Orleans, Louisiana, which is subject to risks associated with hurricane and other weather-related events. Additionally, some of our production facilities are located in places where tornadoes can frequently occur, such as Alabama and Kansas. Failure to take adequate steps to mitigate the likelihood or potential impact of such events, or to effectively manage such events if they occur, could adversely affect our business, financial condition, and results of operations.

Our business could be harmed by strikes or work stoppages.

As of April 30, 2015, 28 percent of our employees, located at 10 manufacturing facilities, are covered by collective bargaining agreements. These contracts vary in term depending on location, with three contracts expiring in 2016, representing 11 percent of our total employees. We cannot assure that we will be able to renew these collective bargaining agreements on the same or more favorable terms as the current agreements, or at all, without production interruptions caused by labor stoppages. If a strike or work stoppage were to occur in connection with negotiations of new collective bargaining agreements or as a result of disputes under collective bargaining agreements with labor unions, our business, financial condition, and results of operations could be materially adversely affected.

Our ability to competitively serve customers depends on the availability of reliable transportation. Increases in logistics and other transportation-related costs could adversely impact our results of operations.

Logistics and other transportation-related costs have a significant impact on our earnings and results of operations. We use multiple forms of transportation, including ships, trucks, intermodals, and railcars, to bring our products to market. Disruption to the timely supply of these services or increases in the cost of these services for any reason, including availability or cost of fuel, regulations affecting the industry, labor shortages in the transportation industry, service failures by third-party service providers, accidents, or natural disasters (which may impact the transportation infrastructure or demand for transportation services), could have an adverse effect on our ability to serve our customers, and could have a material adverse effect on our business, financial condition, and results of operations.

Our operations are subject to the general risks of the food industry.

The food industry is subject to risks posed by food spoilage and contamination, product tampering, product recall, and consumer product liability claims. Our operations could be impacted by both genuine and fictitious claims regarding our products, as well as our competitors' products. In the event of product contamination or tampering, we may need to recall some of our products. A widespread product recall could result in significant loss due to the cost of conducting a

product recall, including destruction of inventory and the loss of sales resulting from the unavailability of

product for a period of time. We could also suffer losses from a significant product liability judgment against us. A significant product recall or a product liability judgment, involving either us or our competitors, could also result in a loss of consumer confidence in our food products or the food category, and an actual or perceived loss of value of our brands, materially impacting consumer demand.

Changes in our relationships with significant customers, including the loss of our largest customer, could adversely affect our results of operations.

Sales to Wal-Mart Stores, Inc. and subsidiaries amounted to 28 percent of net sales in 2015. These sales are primarily included in the U.S. retail market segments. Trade receivables at April 30, 2015, included amounts due from Wal-Mart Stores, Inc. and subsidiaries of \$122.6 million, or 29 percent of the total trade receivables balance. During 2015, our top 10 customers, collectively, accounted for approximately 60 percent of consolidated net sales. Within the Big Heart business, sales to Wal-Mart Stores, Inc. and subsidiaries represent a larger portion of net sales, as compared to our business prior to the acquisition. As a result, beginning in 2016, we anticipate that sales to Wal-Mart Stores, Inc. and subsidiaries will represent a larger portion of net sales than in 2015 due to a full year of Big Heart sales. We expect that a significant portion of our revenues will continue to be derived from a limited number of customers. Our customers are generally not contractually obligated to purchase from us. These customers make purchase decisions based on a combination of price, promotional support, product quality, consumer demand, customer service performance, their desired inventory levels, and other factors. Changes in customers' strategies, including a reduction in the number of brands they carry or a shift of shelf space to private label products, may adversely affect sales. Customers also may respond to price increases by reducing distribution, resulting in reduced sales of our products. Additionally, our customers may face financial or other difficulties that may impact their operations and their purchases from us, which could adversely affect our results of operations. A reduction in sales to one or more major customers could have a material adverse effect on our business, financial condition, and results of operations.

We operate in the competitive food industry and continued demand for our products may be affected by changes in consumer preferences.

We face competition across our product lines from other food companies with the primary methods and factors in competition being product quality, price, packaging, product innovation, nutritional value, convenience, customer service, advertising, and promotion. Continued success is dependent on product innovation, the ability to secure and maintain adequate retail shelf space, and effective and sufficient trade merchandising, advertising, and marketing programs. Some of our competitors have substantial financial, marketing, and other resources, and competition with them in our various markets and product lines could cause us to reduce prices, increase marketing or other expenditures, or lose category share. Category share and growth could be adversely impacted if we are not successful in introducing new products. In order to generate future revenues and profits, we must continue to sell products that appeal to our customers and consumers. Specifically, there are a number of trends in consumer preferences that may impact us and the food industry as a whole, including convenience, flavor variety, an emphasis on protein and snacking, and the desire for transparent product labeling and simple and natural ingredients.

Prolonged negative perceptions concerning the health implications of certain food products could influence consumer preferences and acceptance of some of our products and marketing programs. Although we strive to respond to consumer preferences and social expectations, we may not be successful in these efforts. Increasing public concern regarding health issues and failure to satisfy consumer preferences could decrease demand for certain of our products and adversely affect our profitability.

The success of our business depends substantially on consumer perceptions of our brands. We are the branded market leader in several categories both in the U.S. and Canada. We believe that maintaining and continually enhancing the value of our brands is critical to the success of our business. Brand value is based in large part on consumer perceptions. Success in promoting and enhancing brand value depends in large part on our ability to provide high-quality products. Brand value could diminish significantly as a result of a number of factors, such as if we fail to preserve the quality of our products, if we are perceived to act in an irresponsible manner, if the Company or our brands otherwise receive negative publicity, if our brands fail to deliver a consistently positive consumer experience, or if our products become unavailable to consumers. The growing use of social and digital media by consumers increases the speed and extent that information and opinions can be shared. Negative posts or comments about us or our brands or products on social or digital media could damage our brands and reputation. If our brand values are diminished, our revenues and operating results could be materially adversely affected. In addition, anything that harms the *Pillsbury*, *Dunkin' Donuts*, *Carnation*, *Borden*, *Douwe Egberts*, or *Cumberland* brands could adversely affect the success of our exclusive licensing agreements with the owners of these brands.

We could be subject to adverse publicity or claims from consumers. Certain of our products contain caffeine and other ingredients, the health effects of which are the subject of public scrutiny, including the suggestion that consumption may have adverse health effects. An unfavorable report on the health effects of caffeine or other ingredients present in our products, product recalls, or negative publicity or litigation arising from other health risks could significantly reduce the demand for our products.

We may also be subject to complaints from or litigation by consumers who allege food and beverage-related illness, or other quality, health, or operational concerns. Adverse publicity resulting from such allegations could materially adversely affect us, regardless of whether such allegations are true or whether we are ultimately held liable. A lawsuit or claim could result in an adverse decision against us, which could have a material adverse effect on our business, financial condition, and results of operations.

Our operations are subject to the general risks associated with acquisitions. Specifically, we may not realize all of the anticipated benefits of the acquisition of Big Heart or those benefits may take longer to realize than expected. We may also encounter significant unexpected difficulties in integrating the Big Heart business. Our stated long-term strategy is to own and market leading North American food brands sold in the center of the store while maintaining a global perspective. We have historically made strategic acquisitions of brands and businesses and intend to do so in the future in support of this strategy. If we are unable to complete acquisitions or to successfully integrate and develop acquired businesses, we could fail to achieve the anticipated synergies and cost savings, or the expected increases in revenues and operating results, either of which could have a material adverse effect on our financial results.

In particular, our ability to realize the anticipated benefits of the acquisition of Big Heart will depend, to a large extent, on our ability to integrate the Big Heart business into Smucker. The combination of two independent businesses is a complex, costly, and time-consuming process. As a result, we will be required to devote significant management attention and resources to integrating Big Heart's business practices and operations with our business practices and operations. The integration process may disrupt the businesses and, if implemented ineffectively or if impacted by unforeseen negative economic or market conditions or other factors, we may not realize the full anticipated benefits of the acquisition. Our failure to meet the challenges involved in integrating the two businesses to realize the anticipated benefits of the acquisition could cause

an interruption of, or a loss of momentum in, our activities and could adversely affect our results of operations.

Specifically, the difficulties of combining the operations of Big Heart with our business include, among others:

the diversion of management's attention to integration matters;

difficulties in achieving anticipated cost savings, synergies, business opportunities, and growth prospects from combining the Big Heart business with our business;

difficulties in the integration of operations and systems;

difficulties in managing the expanded operations of a significantly larger and more complex company;

challenges in keeping existing customers and obtaining new customers;

challenges in attracting and retaining key personnel;

unanticipated expenses resulting from disputes with third parties, such as the working capital dispute with Del Monte Foods, Inc.; and

unanticipated liabilities, such as environmental liabilities resulting from contamination at our properties or those of third parties.

Weak financial performance, downgrades in our credit ratings, or disruptions in the financial markets may adversely affect our ability to access capital in the future.

We may need new or additional financing in the future to conduct our operations, expand our business, or refinance existing indebtedness, which would be dependent upon our financial performance. Any downgrade in our credit ratings, particularly our short-term rating, would likely impact the amount of commercial paper we could issue and increase our commercial paper borrowing costs. The liquidity of the overall capital markets and the state of the economy, including the food and beverage industry, may make credit and capital markets more difficult for us to access, even though we have an established revolving credit facility. From time to time, we have relied, and also may rely in the future, on access to financial markets as a source of liquidity for working capital requirements, acquisitions, and general corporate purposes. In particular, our access to funds under our revolving credit facility is dependent on the ability of the financial institutions that are parties to that facility to meet their funding commitments. The obligations of the financial institutions under our revolving credit facility are several and not joint and, as a result, a funding default by one or more institutions does not need to be made up by the others. In addition, long-term volatility and disruptions in the capital and credit markets as a result of uncertainty, changing or increased regulation of financial institutions, reduced alternatives, or failure of significant financial institutions could adversely affect our access to the liquidity needed for our businesses in the longer term. Such disruptions could require us to take measures

to conserve cash until the markets stabilize or until alternative credit arrangements or other funding for our business needs can be arranged. Disruptions in the capital and credit markets could also result in higher interest rates on publicly issued debt securities and increased costs under credit facilities. Continuation of these disruptions would increase our interest expense and capital costs and could adversely affect our results of operations and financial position.

Our substantial debt obligations could restrict our operations and financial condition.

As of April 30, 2015, we had approximately \$6.2 billion of short-term borrowings and long-term debt. We may also incur additional indebtedness in the future. Our substantial indebtedness could have adverse consequences, including:

making it more difficult for us to satisfy our financial obligations;

increasing our vulnerability to adverse economic, regulatory, and industry conditions, and placing us at a disadvantage compared to our competitors that are less leveraged;

limiting our ability to compete and our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;

limiting our ability to borrow additional funds for working capital, capital expenditures, acquisitions, and general corporate or other purposes; and

exposing us to greater interest rate risk to the extent that the interest rate on the applicable borrowings is variable.

Our debt service obligations will require us to use a portion of our operating cash flow to pay interest and principal on indebtedness instead of for other corporate purposes, including funding future expansion of our business and ongoing capital expenditures, which could impede our growth. If our operating cash flow and capital resources are insufficient to service our debt obligations, we may be forced to sell assets, seek additional equity or debt financing, or restructure our debt, which could harm our long-term business prospects. Our failure to comply with the terms of any existing or future indebtedness could result in an event of default which, if not cured or waived, could result in the acceleration of all of our debt.

Servicing our indebtedness will require a significant amount of cash. Our ability to generate cash depends on many factors beyond our control.

Our ability to make payments on, and to refinance, our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. This is subject to general economic, financial, competitive, legislative, regulatory, and other factors, many of which are beyond our control. Our business may not generate sufficient cash flow from operations, and we may not have available to us future borrowings in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. In these circumstances, we may need to refinance all or a portion of our indebtedness on or before maturity. Any refinancing of our debt could be at higher interest rates and may require make-whole payments and compliance with more onerous covenants, which could further restrict our business operations. Our ability to refinance our indebtedness or obtain additional financing would depend on, among other things, our financial condition at the time, restriction in the agreements governing our indebtedness, and the condition of the financial markets and the industry in which we operate. As a result, we may not be able to refinance any of our indebtedness on commercially reasonable terms or at all. Without this financing, we could be forced to sell assets to make up for any shortfall in our payment obligations under unfavorable circumstances. In addition, we may not be able to sell assets quickly enough or for sufficient amounts to enable us to meet our obligations.

A material impairment in the carrying value of acquired goodwill or other intangible assets could negatively affect our consolidated operating results and net worth.

A significant portion of our assets is goodwill and other intangible assets, the majority of which are not amortized but are reviewed at least annually for impairment. At April 30, 2015, the carrying value of goodwill and other intangible assets totaled approximately \$13.0 billion, compared to total assets of approximately \$16.9 billion and total shareholders' equity of approximately \$7.1 billion. If the carrying value of these assets exceeds the current estimated fair value, the asset is considered impaired and this could result in a noncash charge to earnings. Any such impairment charge would reduce earnings and could be material. Events and conditions that could result in impairment include a sustained drop in the market price of our common shares, increased competition or loss of market share, obsolescence, or product claims that result in a significant loss of sales or profitability over the product life. As a result of the Big Heart acquisition this year, we recognized \$2.9 billion of goodwill as of April 30, 2015, based on a preliminary valuation. We also recorded \$1.5 billion of indefinite-lived intangible assets based on their estimated fair values on the acquisition date. Since these assets were recently acquired and carrying value currently represents estimated fair value, they could be more susceptible to future impairment. A change to the assumptions regarding future performance of the pet food business, or a portion of it, or a change to other assumptions, could result in significant impairment losses in

the future.

Changes in tax, environmental, or other regulations and laws, or their application, or failure to comply with existing licensing, trade, and other regulations and laws could have a material adverse effect on our financial condition.

Our operations are subject to various regulations and laws administered by federal, state, and local government agencies in the U.S., as well as to regulations and laws administered by government agencies in Canada and other countries in which we have operations and our products are sold. In particular, the manufacturing, marketing, packaging, labeling, and distribution of food products are each subject to governmental regulation that is increasingly extensive, encompassing such matters as ingredients (including whether a product contains genetically modified ingredients), packaging, advertising, relations with distributors and retailers, health, safety, and the environment. Additionally, we are routinely subject to new or modified tax and securities regulations, other laws and regulations, and accounting and reporting standards.

In the U.S., we are required to comply with federal laws, such as the Food, Drug and Cosmetic Act, the Food Safety Modernization Act, the Occupational Safety and Health Act, the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, laws governing equal employment opportunity, and various other federal statutes and regulations. We are also subject to various state and local statutes and regulations. For instance, the California Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly referred to as Proposition 65) requires that a specific warning appear on any product sold in the State of California that contains a substance listed by that state as having been found to cause cancer or birth defects. This law exposes all food and beverage producers to the possibility of having to provide warnings on their products. The detection of even a trace amount of a listed substance can subject an affected product to the requirement of a warning label. Products containing listed substances that occur naturally or that are contributed to such products solely by a municipal water supply are generally exempt from the warning requirement. If we are required to add warning labels to any of our products or place warnings in certain locations where our products are sold as a result of Proposition 65, sales of those products could suffer not only in those locations but elsewhere.

Complying with new regulations and laws, or changes to existing regulations and laws, or their application could increase our production costs or adversely affect our sales of certain products. In addition, our failure or inability to comply with applicable regulations and laws could subject us to civil remedies, including fines, injunctions, recalls or seizures, as well as potential criminal sanctions, which could have a material adverse effect on our business and financial condition.

Our operations in certain developing markets expose us to regulatory risks.

In many countries outside of the U.S., particularly in those with developing economies, it may be common for others to engage in business practices prohibited by laws and regulations applicable to us, such as the U.S. Foreign Corrupt Practices Act or similar local anti-bribery or anti-corruption laws. These laws generally prohibit companies and their employees, contractors, or agents from making improper payments to government officials for the purpose of obtaining or retaining business. Failure to comply with these laws could subject us to civil and criminal penalties that could have a material adverse effect on our financial condition and results of operations.

Changes in climate or legal, regulatory, or market measures to address climate change may negatively affect our business and operations.

There is significant political and scientific concern that emissions of carbon dioxide and other greenhouse gases may alter the composition of the global atmosphere in ways that are affecting and are expected to continue affecting the global climate. The emission of such greenhouse gases may have an adverse impact on global temperatures, weather patterns, and the frequency and severity of extreme weather and natural disasters. In the event that climate change has

a negative effect on agricultural productivity, we may be subject to decreased availability or less favorable pricing for certain commodities that are necessary for our products, such as green

coffee, peanuts, edible oils, wheat, sweeteners, corn, milk, fruit, vegetables, cocoa, poultry meal, soybean meal, meat, and meat by-products. We may also be subjected to decreased availability or less favorable pricing for water as a result of such change, which could impact our manufacturing and distribution operations. In addition, natural disasters and extreme weather conditions may disrupt the productivity of our facilities or the operation of our supply chain.

Increasing concern over climate change also may result in more regulatory requirements to reduce or mitigate the effects of greenhouse gases. In the event that such regulations are enacted and are more rigorous than existing regulations, we may experience significant increases in costs of operation and delivery. In particular, increased regulation of utility providers, fuel emissions, or suppliers could substantially increase our operating, distribution, or supply chain costs. We could also face increased costs related to defending and resolving legal claims and other litigation related to climate change. As a result, climate change could negatively affect our results of operations, cash flows, or financial position.

If our information technology systems fail to perform adequately or we are unable to protect such information technology systems against data corruption, cyber-based attacks, or network security breaches, our operations could be disrupted, and we may suffer financial damage or loss because of lost or misappropriated information.

We rely on information technology networks and systems, including the Internet, to process, transmit, and store electronic information. In particular, we depend on our information technology infrastructure to effectively manage our business data, supply chain, logistics, finance, and other business processes and for digital marketing activities and electronic communications between Company personnel and our customers and suppliers. If we do not allocate and effectively manage the resources necessary to build, sustain, and protect an appropriate technology infrastructure, or we do not effectively implement system upgrades, our business or financial results could be negatively impacted. Security breaches or system failures of our infrastructure, whether due to attacks by hackers, employee error, or other causes, can create system disruptions, shutdowns, or unauthorized disclosure of confidential information. If we are unable to prevent such breaches or failures, our operations could be disrupted, or we may suffer financial damage or loss because of lost or misappropriated information.

In addition, we have outsourced several information technology support services and administrative functions, including accounts payable processing, benefit plan administration, and other functions, to third-party service providers, and may outsource other functions in the future to achieve cost savings and efficiencies. If the service providers to which we outsource these functions do not perform effectively, we may not be able to achieve the expected cost savings and may have to incur additional costs to correct errors made by such service providers. Depending on the function involved, such errors may also lead to business disruption, processing inefficiencies, the loss of or damage to intellectual property through security breach, the loss of sensitive data through security breach, or otherwise.

**Item 1B. Unresolved Staff Comments.**

None.

**Item 2. Properties.**

The table below lists all of our manufacturing and processing facilities at April 30, 2015. All of our properties are maintained and updated on a regular basis, and we continue to make investments for expansion and safety and technological improvements. We believe that existing capacity at these facilities is sufficient to sustain current operations and anticipated near-term growth.

We own all of the properties listed below, except as noted. <sup>(A)</sup> Additionally, our principal distribution centers in the U.S. include four that we own, nine that we lease, and three that are leased and operated by third parties with whom we have agreements. We also lease our principal distribution center in Canada. Our distribution facilities are in good condition, and we believe that they have sufficient capacity to meet our distribution needs in the near future. We lease thirteen sales and administrative offices in the U.S., two in China, and one each in Canada and Mexico. Our corporate headquarters are located in Orrville, Ohio, and our Canadian headquarters are located in Markham, Ontario. We lease the principal headquarters of our newly acquired pet food business located in San Francisco, California, as well as additional administrative facilities in Pittsburgh, Pennsylvania, and Burbank, California.

<b>U.S. Locations</b>	<b>Products Produced/Processed/Stored</b>	<b>Primary Reportable Segment</b>
Bloomsburg, Pennsylvania	Wet dog and cat food, dry dog and cat food	U.S. Retail Pet Foods
Buffalo, New York	Dog snacks	U.S. Retail Pet Foods
Chico, California	Fruit and vegetable juices and beverages	International, Foodservice, and Natural Foods
Cincinnati, Ohio	Shortening and oils	U.S. Retail Consumer Foods
Decatur, Alabama	Dry dog and cat food	U.S. Retail Pet Foods
El Paso, Texas	Canned milk	U.S. Retail Consumer Foods
Grandview, Washington	Fruit	U.S. Retail Consumer Foods
Harahan, Louisiana	Coffee	International, Foodservice, and Natural Foods
Havre de Grace, Maryland	Fruit and vegetable juices and beverages	International, Foodservice, and Natural Foods
Lawrence, Kansas	Dry dog food	U.S. Retail Pet Foods
Lexington, Kentucky	Peanut butter	U.S. Retail Consumer Foods
Livermore, California <sup>(A)</sup>	Grain products	International, Foodservice, and Natural Foods
Memphis, Tennessee	Peanut butter and fruit spreads	U.S. Retail Consumer Foods
New Bethlehem, Pennsylvania	Peanut butter and combination peanut butter and jelly products	U.S. Retail Consumer Foods
New Orleans, Louisiana (four facilities) <sup>(A)</sup>	Coffee	U.S. Retail Coffee
Orrville, Ohio	Fruit spreads, toppings, and syrups	U.S. Retail Consumer Foods
Oxnard, California	Fruit	U.S. Retail Consumer Foods
Ripon, Wisconsin	Fruit spreads, toppings, syrups, and condiments	U.S. Retail Consumer Foods
	Frozen sandwiches and ready-to-eat waffles	U.S. Retail Consumer Foods

Scottsville, Kentucky		
Seattle, Washington <sup>(A)</sup>	Nut mix products	U.S. Retail Consumer Foods
Seneca, Missouri	Canned milk	U.S. Retail Consumer Foods
Suffolk, Virginia	Coffee	International, Foodservice, and Natural Foods
Toledo, Ohio	Baking mixes, frostings, and flour	U.S. Retail Consumer Foods
Topeka, Kansas	Dry dog and cat food, dog and cat snacks	U.S. Retail Pet Foods
<b>Canada Location</b>	<b>Product Produced</b>	<b>Primary Reportable Segment</b>
Sherbrooke, Quebec	Canned milk	International, Foodservice, and Natural Foods

(A) We lease our facilities in Livermore and Seattle, as well as our coffee silo facility in New Orleans.

**Item 3. Legal Proceedings.**

We are a defendant in a variety of legal proceedings. While we cannot predict with certainty the ultimate results of these proceedings, we do not believe that the final outcome of these proceedings will have a material adverse effect on our financial position, results of operations, or cash flows.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Executive Officers of the Registrant.**

The names, ages as of June 15, 2015, and current positions of the executive officers are listed below. All executive officers serve at the pleasure of the Board of Directors, with no fixed term of office. Unless otherwise indicated, each individual has served as an executive officer for more than five years.

Name	Age	Years with Company	Position	Served as an Officer Since
Timothy P. Smucker	70	46	Chairman of the Board <sup>(A)</sup>	1973
Richard K. Smucker	67	42	Chief Executive Officer <sup>(B)</sup>	1974
Dennis J. Armstrong	60	36	Senior Vice President, Logistics and Operations Support <sup>(C)</sup>	2007
Mark R. Belgya	54	30	Senior Vice President and Chief Financial Officer <sup>(D)</sup>	1997
James A. Brown	54	30	Vice President, Customer Development <sup>(E)</sup>	2009
Vincent C. Byrd	60	38	Vice Chairman <sup>(F)</sup>	1988
John W. Denman	58	36	Vice President, Human Resources Operations <sup>(G)</sup>	2005
Barry C. Dunaway	52	28	President, International and Chief Administrative Officer <sup>(H)</sup>	2001
Tamara J. Fynan	55	26	Vice President, Marketing Services <sup>(I)</sup>	2012
Kevin G. Jackson	48	13	Vice President and General Manager, Foodservice <sup>(J)</sup>	2014
Jeannette L. Knudsen	45	12	Vice President, General Counsel and Corporate Secretary <sup>(K)</sup>	2009
David J. Lemmon	47	21	Vice President and Managing Director, Canada and International <sup>(L)</sup>	2012
John F. Mayer	58	35	Vice President, U.S. Retail Sales <sup>(M)</sup>	2004
Steven Oakland	54	32	President, Coffee and Foodservice <sup>(N)</sup>	1999

Jill R. Penrose	42	11	Vice President, Human Resources <sup>(O)</sup>	2014
Christopher P. Resweber	53	27	Senior Vice President, Corporate Communications and Public Affairs <sup>(P)</sup>	2004
Julia L. Sabin	55	31	Vice President, Industry and Government Affairs <sup>(Q)</sup>	2007
Mark T. Smucker	45	17	President and President, Consumer and Natural Foods <sup>(R)</sup>	2001
David J. West	52		President, Big Heart Pet Food and Snacks <sup>(S)</sup>	2015

- (A) Mr. Timothy Smucker was elected to his present position in August 2011, having served as Chairman of the Board and Co-Chief Executive Officer since February 2001.
- (B) Mr. Richard Smucker was elected to his present position in August 2011, having served as Executive Chairman, Co-Chief Executive Officer and President since August 2008.
- (C) Mr. Armstrong was elected to his present position in October 2009, having served as Vice President, Logistics and Operations Support since February 2007.
- (D) Mr. Belgya was elected to his present position in October 2009, having served as Vice President and Chief Financial Officer since October 2008.
- (E) Mr. Brown was elected to his present position in May 2014, having served as Vice President, U.S. Grocery Sales since June 2009.

**PART II**
**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.**

(a) The information pertaining to the market for our common shares and other related shareholder information is incorporated herein by reference to the information set forth in our 2015 Annual Report to Shareholders under the caption "Stock Price Data" on page 26 and the caption "Comparison of Five-Year Cumulative Total Shareholder Return" on page 27.

(b) Not applicable.

(c) Issuer Purchases of Equity Securities

Period	(a)	(b)	(c)	(d)
			Total number of shares purchased as part of publicly announced plans or programs	Maximum number (or approximate dollar value) of shares that may yet be purchased under the plans or programs
	Total number of shares purchased	Average price paid per share		
February 1, 2015 - February 28, 2015	474	\$ 103.19		10,004,661
March 1, 2015 - March 31, 2015	705	113.99		10,004,661
April 1, 2015 - April 30, 2015				10,004,661
Total	1,179	\$ 109.65		10,004,661

Information set forth in the table above represents the activity in our fourth fiscal quarter.

(a) Shares in this column include shares repurchased from stock plan recipients in lieu of cash payments.

(d) As of April 30, 2015, there were 10,004,661 common shares available for future repurchase. From May 1, 2015 through June 24, 2015, no additional common shares were repurchased.

**Item 6. Selected Financial Data.**

Five-year summaries of our selected financial data and discussions of items which materially affect the comparability of the selected financial data are incorporated herein by reference to the information set forth in our 2015 Annual Report to Shareholders under the following captions and page numbers: "Five-Year Summary of Selected Financial Data" on page 25, "Management's Discussion and Analysis" on pages 28 through 42, "Note 1: Accounting Policies" on pages 52 through 55, "Note 2: Acquisitions" on pages 56 through 58, and "Note 13: Restructuring" on pages 79 and 80.

**Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

Management's discussion and analysis of financial condition and results of operations, including a discussion of liquidity and capital resources, and critical accounting estimates and policies, is incorporated herein by reference to the information set forth in our 2015 Annual Report to Shareholders under the caption Management's Discussion and Analysis, on pages 28 through 42.

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk.**

Quantitative and qualitative disclosures about market risk are incorporated herein by reference to

the information set forth in our 2015 Annual Report to Shareholders under the caption Derivative Financial Instruments and Market Risk on pages 40 and 41.

**Item 8. Financial Statements and Supplementary Data.**

Consolidated financial statements at April 30, 2015 and 2014, and for each of the years in the three-year period ended April 30, 2015, with the report of independent registered public accounting firm and selected unaudited quarterly financial data, are incorporated herein by reference to the information set forth in our 2015 Annual Report to Shareholders under the caption Summary of Quarterly Results of Operations on page 26 and beginning with Report of Management on Internal Control Over Financial Reporting on page 43 through Note 16: Common Shares on pages 89 and 90.

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.**

None.

**Item 9A. Controls and Procedures.**

Evaluation of Disclosure Controls and Procedures. Management, including the principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act), as of April 30, 2015 (the Evaluation Date). Based on that evaluation, the principal executive officer and principal financial officer have concluded that, as of the Evaluation Date, our disclosure controls and procedures were effective in ensuring that information required to be disclosed in reports that we file or submit under the Exchange Act is (1) recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and (2) accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls. There were no changes in internal control over financial reporting that occurred during the fourth quarter ended April 30, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, except as noted below.

On March 23, 2015, we acquired Big Heart Pet Brands ( Big Heart ) (see Note 2: Acquisitions on pages 56 through 58 in our 2015 Annual Report to Shareholders). As permitted by the Securities Exchange Commission Staff interpretive guidance for newly acquired businesses, management excluded Big Heart from its evaluation of internal control over financial reporting as of April 30, 2015. Big Heart constituted \$7.8 billion of our consolidated total assets as of April 30, 2015. For the year then ended, Big Heart net sales and operating loss were \$244.5 million and \$26.0 million, respectively. As part of the purchase price allocation process, procedures were performed to validate the assets acquired and liabilities assumed, including existence testing and a preliminary valuation of the tangible and intangible assets acquired. Big Heart will be included in management's evaluation of internal control over financial reporting as of April 30, 2016.

Management's report on internal control over financial reporting and the attestation report of our independent registered public accounting firm are set forth in our 2015 Annual Report to Shareholders under the heading Report of Management on Internal Control Over Financial Reporting on page 43 and under the heading Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting on page 44, which reports are incorporated herein by reference.

**Item 9B. Other Information.**

None.

### PART III

#### **Item 10. Directors, Executive Officers and Corporate Governance.**

The information required by this Item as to the directors of the Company, the Audit Committee, the Audit Committee financial expert, and compliance with Section 16(a) of the Exchange Act is incorporated herein by reference to the information set forth under the captions Election of Directors, Corporate Governance, Board and Committee Meetings, and Ownership of Common Shares in our definitive Proxy Statement for the Annual Meeting of Shareholders to be held on August 12, 2015. Information required by Item 10 as to the executive officers of the Company is included in Part I of this Annual Report on Form 10-K as permitted by Instruction 3 to Item 401(b) of Regulation S-K.

The Board of Directors has adopted a Code of Business Conduct and Ethics, last revised February 2015, which applies to our directors, principal executive officer, and principal financial and accounting officer. The Board of Directors has adopted charters for each of the Audit, Executive Compensation, and Nominating and Corporate Governance committees and has also adopted Corporate Governance Guidelines. Copies of these documents are available on our website ([jmsmucker.com/investor-relations](http://jmsmucker.com/investor-relations)).

#### **Item 11. Executive Compensation.**

The information required by this Item is incorporated by reference to the information set forth under the captions Executive Compensation, Board and Committee Meetings, and Compensation Committee Interlocks and Insider Participation in our definitive Proxy Statement for the Annual Meeting of Shareholders to be held on August 12, 2015.

#### **Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.**

The information required by this Item is incorporated by reference to the information set forth under the captions Ownership of Common Shares and Equity Compensation Plan Information in our definitive Proxy Statement for the Annual Meeting of Shareholders to be held on August 12, 2015.

#### **Item 13. Certain Relationships and Related Transactions, and Director Independence.**

The information required by this Item is incorporated by reference to the information set forth under the caption Related Party Transactions in our definitive Proxy Statement for the Annual Meeting of Shareholders to be held on August 12, 2015.

#### **Item 14. Principal Accountant Fees and Services.**

The information required by this Item is incorporated by reference to the information set forth under the captions Service Fees Paid to the Independent Registered Public Accounting Firm and Audit Committee Pre-Approval Policies and Procedures in our definitive Proxy Statement for the Annual Meeting of Shareholders to be held on August 12, 2015.

**PART IV**

**Item 15. Exhibits and Financial Statement Schedules.**

(a)(1) Financial Statements

See the Index to Financial Statements, which is included on page F-1 of this Report.

(a)(2) Financial Statement Schedules

Financial statement schedules are omitted because they are not applicable or because the information required is set forth in the Consolidated Financial Statements or notes thereto.

(a)(3) Exhibits

See the Index of Exhibits beginning on page 25 of this Report.
